## FORWARD

While visiting a friend of mine, some years ago, in the late 60's, he played a tape of a speech by the late Malcom X. I don't recall all of the speech, but one thing I do remember, is that he was letting the black people know, how the white man, had so programmed the slaves, that the slave, seeing his master's house on fire, would risk his own life, to save the master's house, even though the master wouldn't let him in it, unless he was the butler, cook, or held some other position, that required him to be in the house.

He said, the slave would say, after the fire was put out, 'we, sho had a close call, ay boss?? We almost lost our house.'

The slave, was so brainwashed, that he thought that the master, and he, were family.

In 1996, I heard it again,, and again in 1999. Now, what really got me thinking, was something that Malcom, drove home, and it was this, 'You've been had. You've been hoodwinked, you've been took, and you've been bamboozled.'

How true it was back then, and how true it is today.

The black community today, is suffering from the same deception, that Malcom X harped on, nearly 36 years ago.

The same mentality, is being brought about, by the same group of people, not talking about all whites, but those whites that Malcom harped on. Those that had the mentality, of a supposed slave owner, who lived nearly 300 years ago. That man's name was Willie Lynch.

The reason that I say supposed, is that his name, and the activity that he had been addressing, in a speech that he made in 1712, are all too ironic. But, for the sake of discussion, let us say that he was real.

This man, set forth a philosophy, that turned things around for the slave owners, in that it saved them thousands of dollars, that were going to waste, when a slave, was killed by them, for disobedience and rebellion, usually by lynching.

The ideas that he espoused, are what I am looking at, and will show you, how, in 2005, this philosophy, is still doing what it was designed to do, as pertaining to the black community first, and other minority groups.

We wonder why we, as a community, haven't progressed any further than we have, seeing that we now have our own people in places of power, yet, they seem to have been sidetracked or something, but how?? Why??

One answer, Willie Lynch.

## THE TRAINING SPEECH AND KIT

### Greetings

"Gentlemen. I greet you here on the bank of the James River in the year of our Lord one thousand seven hundred and twelve. First, I shall thank you, the gentlemen of the Colony of Virginia, for bringing me here. I am here to help you solve some of your problems with slaves. Your invitation reached me on my modest plantation in the West Indies, where I have experimented with some of the newest and still the oldest methods for control of slaves. Ancient Rome's would envy us if my program is implemented. As our boat sailed south on the James River, named for our illustrious King, whose version of the Bible we Cherish, I saw enough to know that your problem is not unique. While Rome used cords of wood as crosses for standing human bodies along its highways in great numbers, you are here using the tree and the rope on occasions. I caught the whiff of a dead slave hanging from a tree, a couple miles back. You are not only losing valuable stock by hangings, you are having uprisings, slaves are running away, your crops are sometimes left in the fields too long for maximum profit, You suffer occasional fires, your animals are killed.

Gentlemen, you know what your problems are; I do not need to elaborate. I am not here to enumerate your problems, I am here to introduce you to a method of solving them. In my bag here, **I HAVE A FULL PROOF METHOD FOR CONTROLLING YOUR BLACK SLAVES.** I guarantee every one of you that if installed **correctly IT WILL CONTROL THE SLAVES FOR AT LEAST 300 HUNDREDS YEARS.** My method is simple. Any member of your family or your overseer can use it. **I HAVE OUTLINED A NUMBER OF DIFFERENCES AMONG THE SLAVES; AND I TAKE THESE DIFFERENCES AND MAKE THEM BIGGER. I USE FEAR, DISTRUST AND ENVY FOR CONTROL PURPOSES.** These methods have worked on my modest plantation in the West Indies and it will work throughout the South. Take this simple little list of differences and think about them. On top of my list is "AGE" but it's there only because it starts with an "A." The second is "COLOR" or shade, there is **INTELLIGENCE, SIZE, SEX, SIZES OF PLANTATIONS, STATUS** on plantations, **ATTITUDE** of owners, whether the slaves live in the valley, on a hill, East, West, North, South, have fine hair, course hair, or is tall or short. Now that you have a list of differences, I shall give you a outline of action, but before that, I shall assure you that **DISTRUST IS STRONGER THAN TRUST AND ENVY STRONGER THAN ADULATION, RESPECT OR ADMIRATION. THE BLACK SLAVES AFTER RECEIVING THIS INDOCTRINATION SHALL CARRY ON AND WILL BECOME SELF REFUELING AND SELF GENERATING FOR HUNDREDS OF YEARS, MAYBE THOUSANDS. DON'T FORGET YOU MUST PITCH THE OLD BLACK MALE VS. THE YOUNG BLACK MALE, AND THE YOUNG BLACK MALE AGAINST THE OLD BLACK MALE. YOU MUST USE THE DARK SKIN**

**SLAVES VS. THE LIGHT SKIN SLAVES, AND THE LIGHT SKIN SLAVES VS. THE DARK SKIN SLAVES.**

**YOU MUST USE THE FEMALE VS. THE MALE. AND THE MALE VS. THE FEMALE.** You must also have your white servants and overseers distrust all Blacks.

But it is **NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US.**

Gentlemen, these kits are your keys to control. Use them. Have your wives and children use them, never miss an opportunity. **IF USED INTENSELY FOR ONE YEAR, THE SLAVES THEMSELVES WILL REMAIN PERPETUALLY DISTRUSTFUL.**

Thank you gentlemen."

\*\*\*\*\*

It was the interest and business of slave holders to study human nature, and the slave nature in particular, with a view to practical results. I and many of them attained astonishing proficiency in this direction.

They had to deal not with earth, wood and stone, but with men and by every regard they had for their own safety and prosperity they needed to know the material on which they were to work. Conscious of the injustice and wrong they were every hour perpetuating and knowing what they themselves would do. Were they the victims of such wrongs? They were constantly looking for the first signs of the dreaded retribution. They watched, therefore with skilled and practiced eyes, and learned to read with great accuracy, the state of mind and heart of the slave, through his sable face. Unusual sobriety, apparent abstractions, sullenest and indifference indeed, any mood out of the common was afforded ground for suspicion and inquiry.

Frederick Douglas LET'S MAKE A SLAVE is a study of the scientific process of man breaking and slave making. It describes the rationale and results of the Anglo Saxons' ideas and methods of insuring the master/slave relationship.

\*\*\*\*\*

# LET'S MAKE A SLAVE

**L**ET'S MAKE A SLAVE "The Origin and Development of a Social Being Called "The Negro.

" Let us make a slave. What do we need?

First of all we need a black (n-word) man, a pregnant (n-word) woman and her baby (n-word) boy.

Second, we will use the same basic principle that we use in breaking a horse, combined with some more sustaining factors. **What we do with horses is that we break them from one form of life to another that is we reduce them from their natural state in nature. Whereas nature provides them with the natural capacity to take care of their offspring, we break that natural string of independence from them and thereby create a dependency status, so that we may be able to get from them useful production for our business and pleasure.**

\*\*\*\*\*

## CARDINAL PRINCIPLES FOR MAKING A NEGRO

**F**or fear that our future Generations may not understand the principles of breaking both of the beast together, the (n-word) and the horse. We understand that short range planning economics results in periodic economic chaos; so that to avoid turmoil in the economy, it requires us to have breath and depth in long range comprehensive planning, articulating both skill sharp perceptions. We lay down the following principles for long range comprehensive economic planning.

- 1. Both horse and (n-words) are no good to the economy in the wild or natural state.**
- 2. Both must be BROKEN and TIED together for orderly production.**
- 3. For orderly future, special and particular attention must be paid to the FEMALE and the YOUNGEST offspring.**
- 4. Both must be CROSSBRED to produce a variety and division of labor.**
- 5. Both must be taught to respond to a peculiar new LANGUAGE.**
- 6. Psychological and physical instruction of CONTAINMENT must be created for both.**

We hold the six cardinal principles as truth to be self evident, based upon the following

the discourse concerning the economics of breaking and tying the horse and the (n-word) together, all inclusive of the six principles laid down about. **NOTE: Neither principle alone will suffice for good economics. All principles must be employed for orderly good of the nation.** Accordingly, both a wild horse and a wild or nature (n-word) is dangerous even if captured, for they will have the tendency to seek their customary freedom, and in doing so, might kill you in your sleep. You cannot rest.

They sleep while you are awake, and are awake while you are asleep. They are DANGEROUS near the family house and it requires too much labor to watch them away from the house. Above all, you cannot get them to work in this natural state. Hence both the horse and the (n-word) must be broken; that is breaking them from one form of mental life to another. **KEEP THE BODY TAKE THE MIND!** In other words break the will to resist.

Now the breaking process is the same for both the horse and the (n-word), only slightly varying in degrees. But as we said before, there is an art in long range economic planning. **YOU MUST KEEP YOUR EYE AND THOUGHTS ON THE FEMALE and the OFFSPRING** of the horse and the (n-word).

A brief discourse in offspring development will shed light on the key to sound economic principles. Pay little attention to the generation of original breaking, but **CONCENTRATE ON FUTURE GENERATION.**

Therefore, **if you break the FEMALE mother, she will BREAK the offspring** in its early years of development and when the offspring is old enough to work, she will deliver it up to you, for her normal female protective tendencies will have been lost in the original breaking process. For example take the case of the wild stud horse, a female horse and an already infant horse and compare the breaking process with two captured (n-word) males in their natural state, a pregnant (n-word) woman with her infant offspring.

Take the stud horse, break him for limited containment. Completely break the female horse until she becomes very gentle, where as you or anybody can ride her in her comfort. Breed the mare and the stud until you have the desired offspring. Then you can turn the stud to freedom until you need him again.

Train the female horse where by she will eat out of your hand, and she will in turn train the infant horse to eat out of your hand also.

When it comes to breaking the uncivilized (n-word), use the same process, but vary the degree and step up the pressure, so as to do a complete reversal of the mind. Take the meanest and most restless (n-word), strip him of his clothes in front of the remaining male (n-words), the female, and the (n-word) infant, tar and feather him, tie each leg to a different horse faced in opposite directions, set him a fire and beat both horses to pull him apart in front of the remaining (n-word).

The next step is to take a bull whip and beat the remaining (n-word) male to the point of death, in front of the female and the infant.

Don't kill him, but **PUT THE FEAR OF GOD IN HIM**, for he can be useful for future breeding.

## **THE BREAKING PROCESS OF THE AFRICAN WOMAN**

**T**ake the female and run a series of tests on her to see if she will submit to your desires willingly. **Test her in every way, because she is the most important factor for good economics.**

If she shows any sign of resistance in submitting completely to your will, do not hesitate to use the bull whip on her to extract that last bit of b-word out of her. Take care not to kill her, for in doing so, you spoil good economic. When in complete submission, she will train her off springs in the early years to submit to labor when they become of age.

Understanding is the best thing. Therefore, we shall go deeper into this area of the subject matter concerning what we have produced here in this breaking process of the female (n-word). We have reversed the relationship in her natural uncivilized state she would have a strong dependency on the uncivilized (n-word) male, and she would have a limited protective tendency toward her independent male offspring and would raise male off springs to be dependent like her.

Nature had provided for this type of balance. We reversed nature by burning and pulling a civilized (n-word) apart and bull whipping the other to the point of death, all in her presence. By her being left alone, unprotected, **with the MALE IMAGE DESTROYED**, the ordeal caused her to move from her psychological dependent state to a frozen independent state. In this frozen psychological state of independence, she will raise her **MALE** and female offspring in reversed roles. For **FEAR** of the young males life she will psychologically train him to be **MENTALLY WEAK and DEPENDENT, but PHYSICALLY STRONG**. Because she has become psychologically independent, **she will train her FEMALE** off springs to be psychological independent.

What have you got? **You've got the (N-WORD) WOMAN OUT FRONT AND THE (N-WORD) MAN BEHIND AND SCARED.** This is a perfect situation of sound sleep and economic.

Before the breaking process, we had to be alertly on guard at all times. Now we can sleep soundly, for out of frozen fear his woman stands guard for us. He cannot get past her early slave molding process. He is a good tool, now ready to be tied to the horse at a tender age. By the time a (n-word) boy reaches the age of sixteen, he is soundly broken in and ready for a long life of sound and efficient work and the reproduction of a unit of good labor force. Continually through the breaking of uncivilized savage (n-word), by throwing the (n-word) female savage into a frozen psychological state of independence, by killing of the protective male image, and by creating a submissive dependent mind of the (n-word) male slave, we have created an orbiting cycle that turns on its own axis forever,

unless a phenomenon occurs and re shifts the position of the male and female slaves. We show what we mean by example.

Take the case of the two economic slave units and examine them close.

## **THE NEGRO MARRIAGE UNIT**

**W**e breed two (n-word) males with two (n-word) females. Then we take the (n-word) male away from them and keep them moving and working. Say one (n-word) female bears a (n-word) female and the other bears a (n-word) male. Both (n-word) females being without influence of the (n-word) male image, frozen with a independent psychology, will raise their offspring into reverse positions.

The one with the female offspring will teach her to be like herself, independent and negotiable (we negotiate with her, through her, by her, negotiates her at will). The one with the (n-word) male offspring, she being frozen subconscious fear for his life, will raise him to be mentally dependent and weak, but physically strong, in other words, body over mind.

Now in a few years when these two offspring's become fertile for early reproduction we will mate and breed them and continue the cycle. That is good, sound, and long range comprehensive planning.

## **WARNING: POSSIBLE INTERLOPING NEGATIVES**

**E**arlier we talked about the non economic good of the horse and the (n-word) in their wild or natural state; we talked out the principle of breaking and tying them together for orderly production. Furthermore, we talked about paying particular attention to the female savage and her offspring for orderly future planning, then more recently we stated that, by reversing the positions of the male and female savages, we created an orbiting cycle that turns on its own axis forever unless a phenomenon occurred and resit and positions of the male and female savages. Our experts warned us about the possibility of this phenomenon occurring, for they say that the mind has a strong drive to correct and re-correct itself over a period of time if I can touch some substantial original historical base, and they advised us that the best way to deal with the phenomenon is to shave off the brute's mental history and create a multiplicity of phenomena of illusions, so that each illusion will twirl in its own orbit, something similar to floating balls in a vacuum.

This creation of multiplicity of phenomena of illusions entails the principle of crossbreeding the (n-word) and the horse as we stated above, the purpose of which is to create a diversified division of labor thereby creating different levels of labor and different values of illusion at each connecting level of labor. The results of which is the severance of the points of original beginnings for each sphere illusion.

Since we feel that the subject matter may get more complicated as we proceed in laying down our economic plan concerning the purpose, reason and effect of crossbreeding

horses and (n-word), we shall lay down the following definition terms for future generations. Orbiting cycle means a thing turning in a given path.

Axis means upon which or around which a body turns. Phenomenon means something beyond ordinary conception and inspires awe and wonder. Multiplicity means a great number. Means a globe. Cross breeding a horse means taking a horse and breeding it with an ass and you get a dumb backward ass long headed mule that is not reproductive nor productive by itself. Crossbreeding (n-words) mean taking so many drops of good white blood and putting them into as many (n-word) women as possible, varying the drops by the various tone that you want, and then letting them breed with each other until another circle of color appears as you desire. What this means is this; Put the (n-words) and the horse in a breeding pot, mix some assess and some good white blood and what do you get? You got a multiplicity of colors of ass backward, unusual (n-words), running, tied to a backward ass long headed mules, the one productive of itself, the other sterile. (The one constant, the other dying, we keep the (n-word) constant for we may replace the mules for another tool) both mule and (n-word) tied to each other, neither knowing where the other came from and neither productive for itself, nor without each other.

\*\*\*\*\*

## CONTROLLED LANGUAGE

**C**rossbreeding completed, for further severance from their original beginning, **WE MUST COMPLETELY ANNIHILATE THE MOTHER TONGUE** of both the new (n-word) and the new mule and institute a new language that involves the new life's work of both. You know language is a peculiar institution. It leads to the heart of a people.

The more a foreigner knows about the language of another country the more he is able to move through all levels of that society. Therefore, if the foreigner is an enemy of the country, to the extent that he knows the body of the language, to that extent is the country vulnerable to attack or invasion of a foreign culture. For example, if you take a slave, if you teach him all about your language, he will know all your secrets, and he is then no more a slave, for you can't fool him any longer, and **BEING A FOOL IS ONE OF THE BASIC INGREDIENTS OF AN INCIDENTS TO THE MAINTENANCE OF THE SLAVERY SYSTEM.**

For example, if you told a slave that he must perform in getting out "our crops" and he knows the language well, he would know that "our crops" didn't mean "our crops" and the slavery system would break down, for he would relate on the basis of what "our crops" really meant. **SO YOU HAVE TO BE CAREFUL IN SETTING UP THE NEW LANGUAGE FOR THE SLAVES WOULD SOON BE IN YOUR HOUSE, TALKING TO YOU AS "MAN TO MAN" AND THAT IS DEATH TO OUR ECONOMIC SYSTEM.** In addition, the definitions of words or terms are only a minute part of the process. Values are created and transported by communication through the body of the language. A total society has many interconnected value systems.

All the values in the society have bridges of language to connect them for orderly working in the society.

But for these language bridges, these many value systems would sharply clash and cause internal strife or civil war, the degree of the conflict being determined by the magnitude of the issues or relative opposing strength in whatever form. For example, if you put a slave in a hog pen and train him to live there and incorporate in him to value it as a way of life completely, the biggest problem you would have out of him is that he would worry you about provisions to keep the hog pen clean, or the same hog pen and make a slip and incorporate something in his language where by he comes to value a house more than he does his hog pen, you got a problem. He will soon be in your house.

(Additional Note: = "Henty Berry, speaking in the Virginia House of Delegates in 1832, described the situation as it existed in many parts of the South at this time: "We have, as far as possible, closed every avenue by which light may enter their (the slaves) minds. If we could extinguish the capacity to see the light, our work would be complete; they would then be on a level with the beasts of the field and we should be safe. I am not certain that we would not do it, if we could find out the process and that on the plea of necessity." From Brown America, The story of a New Race by Edwin R. Embree. 1931 The Viking Press.

# **HAD, HOODWINKED, BAMBOOZLED, TOOK, AND SNOOKERED**

**WILLIE LYNCH IS ALIVE AND WELL, AND HE'S GOT BLACKS, RIGHT WHERE HE WANTS THEM.**

The speech, and the letter, on the previous pages, are actually the true thoughts of a white slave owner, from another country, addressing the plight of slave owners in the south, faced with the problem of losing money invested in slaves, that went to waste when the slaves became disobedient, and the owners, punished them by lynching them.

This was money, wasted, and he gave them a needed solution to the problem.

You see, slaves, were considered property. And just like we purchase certain things, for our use, or entertainment, if that which we have purchased, does not provide for us, what we purchased it for, then, it is money, that is wasted, and we will usually take it back and get a refund, if that is possible. But, with slaves, once purchased, it is a little different.

Slaves, like cattle, houses, stocks, bonds, and other things that are purchased as property, were an investment, that would translate to making more money from that purchase, as time went on.

Usually, slave owners, would purchase a man, and a woman, so that they could bring forth children, and the children grow up, and could be later used to help on the plantation, or if the need for quick money arose, sold to someone else. Two slaves, could translate in to hundreds over the course of generations, and make the owners' children, and grandchildren very wealthy.

This was the institution of slavery, in a nutshell.

However, all of this hinged on one thing, and that was, the cooperation, if you will, of the slaves.

In using the correlation that I am about to use, I don't mean to offend anyone, but I am merely pointing out, how the owners, viewed their slaves.

Since the slave, was not considered a human being, they were considered, somewhat as cattle, horses, or pets. They were there to do a variety of things.

They worked in the fields, planting and harvesting crops, for little or nothing. They were used, to build things like barns, silos, houses, and other things, just so the masters wouldn't have to get their hands dirty. When a dangerous job was to be done, the slave would be the one to do it, at the risk of their own lives, so the master's wasn't. After all, since the slave wasn't human, then it was not like a man, losing their lives. You see, since these slave owners, believed in God, they

had to deal with the things that the bible said about men treating other men.

Now, if a slave was a man, then they would be violating the statutes that the God they professed to believe in, had put forth for them to follow.

No matter how many they killed, more and more of them, seeking freedom, ran away from the master, only to be caught, and lynched.

This man, named Willie Lynch, had a unique solution, that translated in to the slaves being less likely to run away from the master, and have them to actually enjoy being with the master, by the way they were to treat them.

What Mr. Lynch was espousing, was a way to trick the slaves in to trusting their masters. The plan that he presented to them, was one of 'divide and conquer.'

He proposed that the owners, begin a process of turning the slaves, against each other. That meant, putting the wife, against the husband. The father, against the son. The mother, against the daughter. The old, against the young. All of this, was needed, in order to break the strong bonds the slaves had with each other.

You see, the slaves, had to have someone to depend on. Someone that spoke the same language, and was in the same position as they were.

Since they were in a strange land, they bonded with each other, and became each other's support. What Willie Lynch, was proposing, was to isolate them from each other, by the means of distrust.

The slaves, were treated according to their worth, and that depended on the skills that they had.

Those that were brought here, with skill of building structures, and other architectural skills, cost a whole lot more money than those that were, the common farmer, or unskilled.

In order to get his money's worth, the master, treated this slave better than the others. This, in and of itself, brought about envy, by other slaves, as this slave got more food, better accommodations, and wasn't punished as much for the same offenses that lesser valued slaves were guilty of. This was a natural order of slavery before Willie Lynch came along.

What Lynch was talking about, was using this same type of system, based not on skill levels, but on differences between the slaves, such as age, skin color, sex, height, type of hair, and so on.

Any casual difference, should be exploited, to keep the slaves, distrustful of each other, but totally trusting in their masters.

Within a year or so, the system proved to be just what the slave owners needed, as there was less trouble handling the slaves, because those that would be

planning to cause trouble, were dealt with, more severely, after being turned in by other slaves, on the promise of rewards for singling out troublemakers. There was also the fear of punishment, for those that knew something about troublemakers, but said nothing.

All of these strategies, were a boon for the slave owners back then, and are still in practice today. After all, 'if it ain't broke, don't fix it.'

This system, has been expanded, since slavery was abolished here, to keep certain groups of people dependent on others, while making those others, more wealthy and powerful.

This book is about how the 'Lynch system", is still with us, and is enslaving, not only blacks, which is the primary focus of this book, but even whites, and who it is that is benefiting from it

By the time you get through reading this book, you will probably be mad, and I hope, not at me, but at those that you look on as your leaders, and the pillars of the community.

What I intend to do, in this book, is dissect the speech, and letter, and show you how the Democratic party, is using these steps, to gain more power for itself, by enslaving as many of us as it can. By enslaving us, I mean, making us solely dependent on them, and government, with them in control of it (government).

\*\*\*\*\*

# EDUCATION

Note: It must be remembered, that in the following passages, when I am referring to whites, I am referring only to those that were, and are truly racist. The idea is, that we are looking at a particular way of thinking, an agenda, if you will.

\*\*\*\*\*

**A MIND IS A TERRIBLE THING TO WASTE!!! [United Negro College Fund]**

**KEEP THE BODY, TAKE THE MIND! In other words break the will to resist.  
[Willie Lynch]**

**Y**ou take a slave, if you teach him all about your language, he will know all your secrets, and he is then no more a slave, for you can't fool him any longer, and **BEING A FOOL IS ONE OF THE BASIC INGREDIENTS OF AN INCIDENTS TO THE MAINTENANCE OF THE SLAVERY SYSTEM.** For example, if you told a slave that he must perform in getting out "our crops" and he knows the language well, he would know that "our crops" didn't mean "our crops" and the slavery system would break down, for he would relate on the basis of what "our crops" really meant. So you have to be careful in setting up the new language for the slaves would soon be in your house, talking to you as "man to man" and that is **death to our economic system.**

\*\*\*\*\*

We are looking at this subject first, because of its importance to all of us.

If we expect to get anywhere in this life, then we must have a means to achieve our goals, and to better ourselves, and society. And the only way to do that is through education.

The amount of education one has, will insure that person's worth, not only to himself, but, society as well.

The one thing the slave owners of the past, and liberals of today fear the most, is an educated person. That is why, if they can't stop someone from getting educated, they will do whatever they can to corrupt that person's educational vehicle.

\*\*\*\*\*

The Willie Lynch solution to education, was a real doosie.

The separation of the races, provided for the whites to steadily stay ahead of the blacks.

For a long time, it was illegal for anyone to teach the slaves to read or write. Keeping them ignorant, provided a sure way of keeping wealth and power from them. **The bible says, "(Hos 4:6) My people are destroyed for lack of knowledge:"** Now while that

scripture is talking about a lack of knowledge of God, it also can be taken to mean, that anyone that is ignorant of the things of life, and the way things are put in to play, will always be on the bottom, in any area that they try to achieve in.

So, here we have a situation where the ignorance of the slaves, was basically keeping them in bondage, even though they were set free, by the emancipation proclamation.

The slave owners, got together, and decided on a plan to keep the blacks under their feet. All they had to do, is keep them ignorant.

Their plans were at first, to keep them from getting an education. That way they could still be in bondage to the white man, and his children.

**TAKE THE MIND!!!** This also meant, **KEEP THE MIND!!!**

The slave owners, felt, that if blacks got the same education that they had, they would take jobs from their children. This was a threat to their, economic system.

Well, this plan, worked for a while. Blacks were free in body, but still slaves to ignorance. It is like an elephant in a circus, that is chained to a stake in the ground. The elephant can only go so far, then the chain stops him from going any further. The elephant is so conditioned to this, that after a certain length of time, you can remove the chain, and the elephant will only go to the point he had previously gone to , and stop. It is conditioned to only go to that point, and then, the invisible chain, the chain of the mind, stops him. That is the same way the masters kept the slaves in line. The chains of bondage (slavery laws), were removed, but the invisible chains of ignorance, were doing just as good as the abolished laws.

However, God, had a plan to change that, and it came from an unlikely source, the very ones that the owners were trying to protect, their own kids. Using part of another bible verse, **(Isa 11:6) The wolf also shall dwell with the lamb, and the leopard shall lie down with the kid; and the calf and the young lion and the fatling together; and a little child shall lead them.** That's right, the slave owners' own children, would be the means by which the slaves would start down the road to true freedom.

Quite simply put, the slave owners' kids, would need to be baby sat, while their parents were out, and it was usually the black female, that watched them. Sometimes the female, had children of her own, and her kids were allowed to play with the master's kids. Other times, it was just the female, that had to entertain the kids.

Anyway, in some instances, the kids, wanted to have stories read to them, or they wanted to practice their reading on someone, and who else but their sitters, or their sitters', kids. They didn't understand all the hub bub about slavery and keeping the slaves uneducated. So, they would volunteer to show their sitter, or her kids, how to read, and write. It took time, but the wheels were in motion. The kids, or the female, would go home, and share what they learned with the rest of the family and their friends.

So the slaves, began to learn the basics of reading and writing. All of this was done in secret, because if they were caught, they could be beaten, sold off to some other master, or most likely, killed. But, the risk was worth it.

Now, I am not going to go in to all of the details of how things evolved to this day, even though they are important, simply because they are common knowledge.

However, what I hope you are seeing, is that the philosophy of Willy Lynch, was being followed to the letter through the past, and is still being followed, today.

Today, the liberals employ the same tactics, but on a different level. What they do, is change the meanings of words, use catch phrases, and the ignorance, that they indoctrinated us with in their institutions, the public school system.

Since they couldn't stop the progress of the slaves, getting in to their schools, they decided on a new strategy, that proved to be just what the doctor (Willy Lynch) ordered. Plus, it carried an unexpected bonus. That bonus, gave them more power than they could have imagined, when whites, that attended these schools, became enslaved in the curriculum of ignorance, fostered by public education.

The key to success in life, depends on what you have learned in the educational process, both at home, and at school. Your education starts in the home, and when you are ready, the schools take over. And, that, is where the liberals get you. No matter what you were taught, or teach your children at home, if they are in public education institutions, 9 times out of 10, the system will undo what was learned at home, and indoctrinate people along the lines of the Willy Lynch philosophy.

Ignorance, is the greatest weapon, an enemy can use against you. If you don't understand what a person means when they say something to you, or, if you understand what they are saying, but can't determine if what they are saying is true, then you are lost.

That is the position that over 45% of this nation is in, and in the black community, the percentage is about 95%. The reason I say this, is because 95% of the black community supports the Democratic party, and don't know what is happening to them, then they are walking in ignorance. And as far as your leaders go, if you can call them that, they are in the same condition. They join the party, get a little position, thanks to compromise on the critical issues, and fall in, lock step, with the leaders of the party, the liberals. **Jesus said, (Mat 15:14) Let them alone: they be blind leaders of the blind. And if the blind lead the blind, both shall fall into the ditch.**

Now, let's look and see, just how they accomplished this, under our very noses.

# COMMUNICATION

The primary means for learning, aside from experience, is communication. To communicate, you need at least, 2 people. You need one to deliver a thought, or idea, and you need one to receive that thought or idea, in the exact form that the sender delivered it.

The forms which this action takes place could be speaking, reading, or some sort of visible action, or pictures.

It is imperative that the exact message is received, or else there is a breakdown, and the wrong message could be received. And, depending on the situation, it could have serious, or even deadly results. Remember the warning Willy Lynch gave the slave owners, **if you told a slave that he must perform in getting out "our crops" and he knows the language well, he would know that "our crops" didn't mean "our crops" and the slavery system would break down, for he would relate on the basis of what "our crops" really meant.**

**So you have to be careful in setting up the new language for the slaves would soon be in your house, talking to you as "man to man" and that is death to our economic system.**

With this in mind, and the slaves, gaining education by all different means, the owners had to find a way to narrow the different ways the slaves were learning, and then they could gain control over how, and what they were taught.

Enter public education, and laws that made it mandatory for kids to be in school, preferably public school.

At first, the idea was to separate the slaves from their own (the slave owners') kids. This seemed to be just what the slaves wanted.

They had their own, legal means of education, and they were being taught by their own kind. And, they were learning.

The problem was, they had inferior material, and since their teachers were far behind the average white teacher, in education, their (the black's) education was far inferior, to what the whites had. So, despite their learning, they were still ignorant.

Soon, it became apparent to some whites that the blacks were being cheated by the system that was supposed to be helping them, and decided to do something about it. So, they volunteered to go to the black schools, and teach them, so they could advance further and faster. This didn't sit well with the liberal establishment. This, was the beginning of the turmoil that nearly tore this nation apart.

The education of the black community, was the thing the liberals could not stand, and they were not going to stand still for it.

Schools were burned, children were killed, some of the whites that helped them were also killed, and public officials defied federal orders to prosecute those that used violence against this threat to the liberal mindset.

But, there was no stopping the juggernaut of educating the blacks. The more educated they got, the more they began to realize, that they were being held down, in a different sort of way, by the same people that used to keep them in chains. All of this came about, because of whites that decided to help the blacks to catch up with the whites. But, there needed to be another step taken, that would definitely, break down the wall that the liberals had set up. The separation of races in education. That would take the laws being changed, and that meant challenging the law in court, the final authority for justice. The idea of any blacks using the courts to challenge the liberals, brought to light the warning of Lynch, when he said, ..... **you have to be careful in setting up the new language for the slaves would soon be in your house, talking to you as "man to man" and that is death to our economic system.**

If you change the words, 'new language' and make that 'legal system', and change 'your house', in to, 'the courts', and 'talking to you, man to man' in to 'on an equal footing', then you get, **you have to be careful in setting up the 'legal system', for the slaves would soon be in 'the courts', talking to you 'on your level', with the 'might of the government backing him" and that is death to our economic system.**

So, somebody had to stand up and challenge the 'status quo' in court. That would mean, a black would have to stand up, and go to the courts, and ask, what they thought, was a conspiratorial system against them, to rule against itself, and in his, or their favor.

So, after some planning, they finally got together, and sued, to get in to the white schools. Brown Vs The Board of Education, was a landmark case, that centered around a father, suing the board of education, to allow his daughter to attend a white school that was near to his house. The black school that his daughter (8 years old) had to attend, was 1 mile away, and she had to walk through a railroad switch yard to get there, while the white school was just 7 blocks away. This case, pitted blacks, who heretofore, were poor, ignorant, and without the money to fight the status quo, against the machine that had kept them that way for nearly 100 or so years.

Brown was assisted by the NAACP. The case was heard in 1951, in a district court, on June 25-26, 1951, and that court, ruled in favor of the board of education. In October, 1951, Brown and the NAACP, appealed to the Supreme Court. In 1954, the court, decided that the separate but equal policy of the school system, was unconstitutional. This victory opened the door for blacks to be allowed in to the white schools.

The liberals had lost. Some of them felt betrayed by their own system. However, they weren't going to take this sitting down. More threats, and violence erupted over this. You know the history of that era, so I won't dwell on that.

However, the violence, soon gave way to a version of the plan that Lynch had designed for the blacks. They (the liberals) saw the opportunity, to increase their power and positions in society, by doing 2 things. First, start putting their own kids in private

schools, then providing inferior education for the blacks, and poor whites in the public school system.

How were they going to pull this off??

They were going to re invent the educational system. It was going to change from the highly successful system it was, to a system that is a disgrace to everyone.

After they got their children out of the public schools, the liberals, who had control of the school system, started setting in motion, programs, and curriculums, that were designed to slowly lower the intelligence of its students, and thus make them more dependent on them (the liberals).

Remember, when I was explaining that communication is the key to education??? And remember when I said, "To communicate, you need at least, 2 people." You need one to deliver a thought, or idea, and you need one to receive that thought or idea, in the exact form that the sender delivered it. The forms in which this action takes place could be speaking, reading, or some sort of visible action, or pictures??

Well, what they had in mind, was to start a deception, in the lower grades of the public schools with the most gullible of the society, the kindergarteners. It is easier to indoctrinate those who did not have the ability to understand that what you were telling them, made no sense.

**KEEP THE BODY TAKE (POISON) THE MIND!** What the liberals had in mind, was akin to injecting a slow poison, in to a healthy cow. You keep injecting it into the cow, and it slowly gets sicker and sicker, until it dies. In the mean time, if a calf, or a person gets milk from that cow, the poison gets in to their system, and can make them sick as well. The school system, is the cow, that they were going to poison, and the children, would be the ones who would receive the poison by proxy, and get sick later.

The liberals knew that the grownups, were a little too hard to reprogram. But, the young kids, were just the right ones to poison.

To accomplish this, they used several tactics.

First, they had their people in positions of authority in the school system. In these positions, they have control of the type of curriculum, and materials that will be used in the school system. They also have control of, the MONEY.

Next, indoctrinate the children, so much so, that when they become grown, they will see things the way the liberals, want them to see them. They communicated this to them. The liberals are excellent communicators. And what were they communicating?? **DECEPTION, LIES, HALF TRUTHS, ENVY, IMMORALITY, AND EVEN HATRED.**

The entire platform of the liberals, was, and is one that is based on these principles. They

know, that in order to conquer a society, they need to divide it. You have no doubt heard the argument of tax cuts, being something that is for the rich?? Or how about pitting the young against the elderly? We will look at these and other examples, later, in greater detail.

## DECEPTION

**D**eception is making things appear to be something that they aren't, or vice versa. Black is white, and white is black, or good, is bad, and bad is good, or common sense is foolishness, and foolishness, is common sense.

**Willie lynch said, I HAVE OUTLINED A NUMBER OF DIFFERENCES AMONG THE SLAVES; AND I TAKE THESE DIFFERENCES AND MAKE THEM BIGGER. I USE FEAR, DISTRUST AND ENVY FOR CONTROL PURPOSES.**

**DISTRUST IS STRONGER THAN TRUST AND ENVY STRONGER THAN ADULATION, RESPECT OR ADMIRATION.**

**YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US.**

Willy Lynch used this philosophy, when he told the slave owners, to make the slaves distrust their own, while at the same time trusting them (the owners, their enemies) more.

His whole point being, that if united, the slaves are strong, and formidable, a force to be reckoned with. Have you ever stopped to look at the fact that only a handful of slave owners, could control slaves that outnumbered them 10 or more to 1?? How did they do that?? By breaking the common bond that the slaves had with each other, their unity and trust.

**Lynch, told the owners how to do it by following these steps.**

**I HAVE OUTLINED A NUMBER OF DIFFERENCES AMONG THE SLAVES; AND I TAKE THESE DIFFERENCES AND MAKE THEM BIGGER. I USE FEAR, DISTRUST AND ENVY FOR CONTROL PURPOSES.** These methods have worked on my modest plantation in the West Indies and it will work throughout the South. Take this simple little list of differences and think about them. On top of my list is "AGE" but it's there only because it starts with an "A." The second is "COLOR" or shade, there is **INTELLIGENCE, SIZE, SEX, SIZES OF PLANTATIONS, STATUS on plantations, ATTITUDE of owners, whether the slaves live in the valley, on a hill, East, West, North, South, have fine hair, course hair, or is tall or short.**

**Don't forget you must pitch the OLD black Male vs. the YOUNG black Male, and the YOUNG black Male against the OLD black male. You must use the DARK skin slaves vs. the LIGHT skin slaves, and the LIGHT skin slaves vs. the DARK skin slaves. You must use the FEMALE vs. the MALE. And the MALE vs. the FEMALE.**

## **You must also have your white servants and overseers distrust all Blacks.**

This strategy, was designed to get to the core of unity among the slaves, the family. If the family unit is broken, then the community suffers. After all, if you can't trust your own family, who can you trust? The slave owners used deception, to make it appear that they, were the only ones that the slaves could trust, the only friends that the slaves had.

You see, the slave owners had a sort of pact. They would not try to steal each others slaves. If an owner sent one of his slaves on an errand, off of the plantation, another owner would see them, and see if he was branded with a mark, showing that he was someone's slave. If he wasn't, then this owner could take him for his own, or even kill him. The only protection that the slave had, off of the plantation, was his owner's mark.

The slaves knew that their owner, was the only protection that they had. And being in a strange land, and not being able to trust each other, or their family members, they put all their trust in their masters. So much so, that even when being beaten, their trust in the master, stayed the same.

The owners made themselves to appear as friends, even though they hated them, and saw them as something less than one of their animals. In fact, their animals got treated better than the slaves did. An animal gets sick, the owner would call a vet. A slave gets sick, they are left to suffer, or taken out and killed.

In the same light, this is the same strategy that the liberals in the Democratic party, use.

What the liberals have done, and are doing, is, on the one hand, making it appear that they are truly concerned about us, by always coming up with ideas to make it appear to an uninformed public, that the programs and laws they enact, are there for our own well being. But, to the informed, those that either got through the school system before it got corrupted, or were either schooled at home, or in a private institution, we can see the whole picture, and it is one of destruction.

You have, no doubt noticed, that very few of the liberals' children, attend public schools. Those, whose children do attend public schools, have them there, either to keep them under control, or to report back to their parents, what is going on in the school.

One of the big problems back in the early educational process, was a lack of materials needed for learning, like books. There were few books, and those that were available were, for the most part, worn out, and had to be shared with two or more kids in the class.

Today, suprisingly, the same thing is true.

Have you ever noticed how the schools have a shortage of text books?? This is not by accident, but by design. There is rarely a shortage of books, as many cities have found text books stored away for a reason. That reason is that many of the text books, conflict with what the liberals want taught in the schools, so they are discarded, and newer books, or in some instances, lessons are printed on paper, used, and then destroyed, to keep

parents from knowing just what their kids are being taught.

One reason that liberals like to use for the failure of public education is, a lack of funding, or money.

This is about the biggest lie to come down the pike.

There is plenty of money in the educational system, but, it is being misallocated, by another liberal institution, the teachers unions.

As it stands right now, out of every dollar allotted for education, over 72 cents, goes for administrative costs, [salaries, benefits, and other overhead] That means, if I give the schools a dollar, then they will get a dollar. If I give the government that same dollar, to give to the school system, when they get anything, it will be 28 cents. That is why our school children have little or no supplies in school, and the buildings are in disrepair, because administrators', and teachers' salaries and benefits, come first, and you and I are being taxed to the hilt. The ones that need the money, the children, aren't getting it.

In the economic arena, or even in the common sense arena, that is the worst investment formula that there is. Yet, because it is supported by the Democratic party, and unions (both of which, are liberal strongholds), blacks, and other minorities, fall in line, and accept the status quo.

We are told, that because of the poor conditions in the schools, that is why the teachers can't do their jobs. That, my friends is the stupidest thing I have ever heard. Since when does money guarantee a good education??? That is what the Democrats, some school boards, and the teachers unions, want us to believe.

However, facts say different. Most of the private and Christian schools, operate on a budget that is about 1/2 of what the public schools operate on. We are told that in the public schools, it takes about 5 to 6 thousand dollars to educate one child, for a year. The private schools charge about 2.5 to 3 thousand dollars to educate the same child, in the same grade. The public school teachers make, on an average, 40 thousand dollars a year, and this is a conservative amount. The private and Christian school teachers make about 30 percent less.

However, the kids in the private and Christian schools, read, write, and do math two years ahead of their peers in the public schools.

This is documented proof, that all this whining about not having enough money to educate our kids properly, is a deception by the unions, and administrators, as well as the Democrats, to bleed more money out of us, so that they can fund their pet peeve programs, and dig us further in to a financial ditch.

All of this, is part of the Willie Lynch mentality, to make more and more people, too poor to get ahead, and in the long run, make us dependent on (slaves to) them (the liberals).

And, if you will notice, it is working beautifully. Our children are graduating from school, and can't even write their own names, let alone pass an employment interview. Many of them can't fill out a resume, or employment application.

There was a story, that appeared in a local newspaper about an owner of an aircraft metal fabricating company, somewhere in Texas, that wanted to hire some recent high school graduates, from a nearby school.

He offered to give them, on the job training. Basically, all they needed, was to be able to do some simple math, and measurements.

Out of the twenty or so applicants, none had the basic skills, to be trained for the job. The owner said, "I would have to, basically, send them to school, to learn reading and math, before I could even hire them. That would cost me too much money. That's what the public school money, paid for by the state, is supposed to do."

The governor of that state, at the time, was Ann Richards, a liberal Democrat, who had recently, before that, boasted about their schools.

This type of thing, is not, I repeat, not an isolated incident.

Those kids, will have nothing to look forward to, but minimum wage jobs, or welfare, which is just what the Democrats, want.

That is what the Willie Lynch doctrine lays out.

The black community is always going to be at the bottom of the barrel, as long as we continue to support the very ones that are the incarnation of Willie Lynch.

You know, I was thinking about how they, the liberals, have gotten us so screwed up, that we did a whole lot of fighting and praying, to get in to the white schools, and rejoiced when the courts, cleared the way. Now, we want to get out of their schools, because we are losing our heritage.

Just goes to show you, that whoever it was that said that 'whites should be taught by

whites, and blacks, by blacks' was not as dumb, or as racist, as many of us have tried to make them out to be.

Whole generations of black families, have fallen in to the trap set by the Willie Lynch liberals. They come in to this world, poor, live and die, the same way. Most of this, because of the educational system, that is designed, to keep them dependent on government, namely the liberal Democrats.

## THE ECONOMICS SCAM!!

**B**efore I get into the meat of the issue as to how liberals use our own laws and economic system, to keep us enslaved, I feel it necessary to explain the very basic fundamentals of the system, so you can see how it is being done, right under our noses, and with us being willing participants in it.

It has been said that **‘money is power.’** It has also been said that **‘whom ever has the power to tax, has all power.’**

Another saying that carries a whole lot of weight, is, **‘knowledge, is power!!’**

So, with those statements being true, government, having the power to tax, essentially has all the power. They can make, and break any person, or business, simply by the raising or lowering of taxes on them. And, if people are ignorant to the principles of economics, then they are the perfect candidates for liberals to lead to self destruction, in economic issues.

In our governmental system, we have, two major parties, that have, at times been in control of the processes of raising and lowering taxes. Those parties being, Republicans, and Democrats.

The Republicans are usually led by individuals known as conservatives, while the Democratic party is led by liberals. I am using these terms in the context of the economic side of our lives.

Conservatives, feel that people have a right to make as much money as they can, and that the people should, if they have to be taxed, be taxed as little as possible. Since taxes are needed to fund institutions that are critical to our survival, and way of life, they feel that they should take only what is necessary. They feel that people work hard for their money, and if they have to pay taxes, they want the government to spend their money wisely, and not waste it. And, if there is any left over, to return it to them.

The conservative philosophy is to have as small a government as possible, and to address problems with the idea of finding the best, and most economical solution to that problem. A smaller government, means a smaller payroll, which translates in to lower taxes, or it can translate in to more money for necessary government programs.

On the other hand, with liberals, the opposite is true. They too, feel that the people have a right to make as much money as they can, but with that, they should have to pay higher taxes. In effect, they punish any sort of achievement by forcing the achievers to pay more taxes. They believe in big government. And with big government comes big payrolls, and with that, come higher taxes.

However, as taxes are a problem, when they are too high, the money is limited. That translates in to less money for the programs, when there are big payrolls. These taxes go to fund the government programs. Cost is, not an issue, because it is not their,

government's money. They also feel that the best way to solve problems, is to throw money at them. No matter how little it may cost to fix, liberals will always over pay, for the simple fact, that it isn't their money, that they are spending, it is ours.

Most if not all liberals, when it comes to spending their own money for something, like the rest of us, will look for the best deals, before buying things for themselves or their families. They shop around. However, when it comes to spending our money, they throw that philosophy out the window, and basically, spend money like there is no tomorrow. They always over tax people, and when, or if, there is any money left over, they don't want to give any of it back. What they want to do, is find new ways to spend the money, so they won't have to.

One need only look at the positions each party takes on the issues tax cuts, and the eliminating of government programs. Conservatives want to give us more of our money back by lowering taxes and, eliminating government programs, that are no longer needed, because they are obsolete. After all, who wants to be paying for something, that is not doing anyone any good?? I don't, and neither should you. Yet, that is just what the liberals do. If there is no need for a program, they may stop funding it, but they won't return the money to you, they will call it a surplus, and put it in a sort of 'rainy day fund.' That fund (the general fund), is then used by them, for all sorts of reasons.

They will use that money to fund 'pet' projects of theirs in their home districts, most of which are nothing more than pandering to their constituents, to keep them happy, so they will get their votes the next time they are up for election. This type of spending is known as 'pork barrel spending.' Instead of returning the money to us, they spend it, in an effort that is nothing more than, buying votes.

And, the bad thing about it is, many times, they will use your money, to fund things that you, and I, may be totally opposed to. More about that later.

The way our economy is set up is, it operates on a system that is based on the principle of 'supply and demand.' What that means is, the prices of goods and services, are based on the needs of the consumer, and the availability of the products to meet that need. The greater the need for a product, the higher the price. However, the greater the quantity of that product, the lower the price. This type of system, affords us, as consumers, with the protection of not having to go in to a great deal of debt, to acquire what we need, or desire. It also affords the producer of that product a fair and equitable way of making money. So, in other words, it protects the consumer, from the producer, and it gives the producer a good return on his product. This is the basis of the supply and demand system.

Our economy is based on this principle. However, there are other factors, that, when put in to play, either enhance, or tear down that protection. Here's how it works.

When a need for something is seen, someone will usually find a way to meet that need. And let's say what is needed is a widget. So, someone makes one, and is trying to figure out how much to charge. What factors will they use to set a price that is fair to both himself and the consumer??

First, he needs to add up the cost of making it. That means materials, time, utilities, cost of the space (rent), machinery, employee wages and benefits (if required), advertising, and other things like taxes. All of these, are what is known as 'overhead.' You would agree, that it makes no sense to provide a product for the consumer, that costs you more to make, than you will get back after selling it.

Next, he has to find out how much a consumer is willing to pay him for it. Of course, he may figure out a price that will allow him to get a nice profit, but that may, or may not be the final price.

If the price that he sets, is too low, but still enough to make a profit, but the demand is so great, that he is constantly running out of the product, then, in order to have some always available, he will need to raise the price a bit, or hire some help, to make a greater quantity of that product.

If he does the latter, then, his overhead has increased, and, he will have to raise prices even higher than he would have otherwise.

Anyway, the raising of prices, will result, in less demand. Of course, that depends on how critical the need is. In the case of a vaccine that can save lives, no price is going to slow the demand for that product. more about this, later.

But, as far as the general market place is concerned, as prices go up, consumers will begin to lower their demand for that product.

Of course, others will start out with a high price, to test the waters, so to speak. This is usually the case with what are known as durable goods, like houses, cars, appliances and such. The reason for prices being so high, in the first place is, since these products can last for several years, once a person buys one, they may not have a need for another one for several years. So the businessman in this case, will want to sell as many as possible, and make enough money to last him for an extended length of time, in case he doesn't sell any more.

Another factor that plays a major part in the setting of prices, is really a variation of the supply and demand principle, and that is 'competition.'

Remember I said that the more of a product you have, the lower the price can get?? If one person prices an item at \$1.00, and another prices the same item at \$1.10, then, the one selling for \$1.10, will lose business to the one that is selling for less, if they both are in close proximity to each other. A more common scenario, is the price of gasoline. By there being so much competition in cities, and neighborhoods, you will find gas prices, just about the same in any given area. And the stations with the lowest prices, usually get the most business.

However, it is the consumer, who dictates the final price of a product. No matter how good the product may be, if the consumer says they don't want it, either because it is

useless, or not worth the price being asked for it, then the businessman will have to either lower the price, or stop making it.

Now, one of the major factors that consumers use is, the affordability of the product. Can they afford it, at the price being asked??

It is this one factor, that drives the entire market place. Decisions made on the affordability of a product, will ultimately seal the fate of that product, and its maker. So, competition, is a good thing, because it also, makes things more affordable for all of us.

There are two sectors in our economic system, private (entrepreneurs, businesses, and such), and public (government). When the two, work together, every one benefits. When one, seeks to tear down the other, then problems arise, which could destroy that system, and eventually, our freedom.

Whereas, in the private sector, business uses supply and demand principles, government, on the other hand, uses a different method. It looks at what is needed as well, and sets about to meet that need. However, unlike in the private sector, where the individual puts their own money at risk, government, has no money of its own to do anything. Everything that government does, it does, with money it takes from us. And it does that by taxation.

Taxation is the process the government uses to acquire the funds necessary to provide goods and services to its citizens as well as providing competition for the private sector.

Goods and services, provided by the government, are usually government's answer to private sector goods and services, that are not affordable to many in our society. Essentially, they are for the poor.

Health care, affordable housing, insurance, education and food, are some of the things that government provides for those that are down and out. But, it comes at a cost. As mentioned, the only way government can provide these things that cost money, is through taxation, taking money from the private sector.

Many would think this is a good thing, for government to do, but there are a few major problems.

First, taking money from the private sector, increases the overhead of business, which will translate in to higher prices for the goods and services that they provide. Taking money from families and individuals, means they will be less able to afford what they used to. This is what is called, the cost of living. That means they will need to get a raise from their employer, raise the prices of the goods and services they provide, if they are self employed, or seek government assistance.

Getting a raise from an employer, once again raises the employer's overhead, which again, translates in to higher prices, which only further puts more people on the road to having to ask government for assistance. It is an endless cycle.

When it is an individual, or family, that is self employed that is hit with higher taxes, they have to raise the prices of what they provide, because their overhead has gone up, which will drive down the demand for their products. As this demand decreases, they may be forced to seek government assistance.

Now, while it is good to help the poor, something that government should do, there is an inherent risk that government, and people that support government assistance seem not to want to face, and that is, human nature. Human nature, always seeks to get as much as possible, with as little work as possible. The more government provides, the less people will seek to get away from government assistance. It is known as 'easy living.'

Then there is accountability. The failure of government to hold people accountable for what they get from government, leads to a lot of fraud, not only by recipients, but also, by government employees.

And, here is the stark difference between public (government), and private sector jobs.

Whereas, private sector employers, have a higher state of accountability, because it is their own money that they are dealing with. Government, on the other hand, is not using its own money, it is using ours, therefore when something goes awry, they just cover it up, and pass any losses that it discovers, on to, us, the taxpayer, in the form of even higher taxes.

An example of this accountability problem, I'm sure you have heard of this, is government paying hundreds of dollars for screwdrivers, screws, and other items, that in the private sector, cost no more than a couple of dollars.

Government, is the largest employer and bureaucracy in the country. It employs hundreds of thousands, if not millions of people, from elected officials, on down to janitors, that scrub toilets, and sinks. With such a large amount of people, accountability becomes a major problem, because workloads are so huge, that small things, just slip through the cracks, and it is the little things that end up causing the mess.

Private employers, on the other hand, if they are smart, either do their own accounting, or hire accountants to watch over every nickel and dime. As a result, they catch errors and inconsistencies, that can spell the end of their business, a lot quicker, and therefore, save themselves and consumers a lot of money. Of course, if the error is not caught before a lot of money is lost, then, the business may try to pass the loss, on to the consumer with higher prices.

However, consumers only have to stop buying the product and the business owner will be out of business. The consumer will just go someplace else to get what they want.

With government, being the sole source of supply for things that the poor need, and also having an unlimited source of funds(taxes), the greater the need (demand), the higher the taxes we have to pay. It then becomes evident, that regardless of what we feel about a

product or service that they provide, we are forced to pay for it anyway. There is no escape.

Now, consider this, there is only a certain amount of money to go around. Therefore, the more money there is in the government side of our economic system, the less there is for the private sector. That means less money to provide jobs, and less money for the consumer, to buy products, and thus create opportunity for jobs.

In short, remember these formulas, as we go in to the actions of liberals in this area.

**OVERHEAD = WAGES, BENEFITS, COST OF MATERIALS, SPACE, UTILITIES, OTHER MACHINERY(IF APPLICABLE), SHIPPING, TAXES, AND OTHER THINGS.**

**HIGHER OVERHEAD = HIGHER PRICES = LESS DEMAND = JOB LOSS**

**W**illie Lynch had a total fixation on money and power, and he incorporated it in his speech to the slave owners.

**We understand that short range planning economics results in periodic economic chaos; so that to avoid turmoil in the economy, it requires us to have breath and depth in long range comprehensive planning, articulating both skill sharp perceptions. We lay down the following principles for long range comprehensive economic planning.**

- 2. Both must be BROKEN and TIED together for orderly production.**
- 3. For orderly future, special and particular attention must be paid to the FEMALE and the YOUNGEST offspring.**
- 4. Both must be CROSSBRED to produce a variety and division of labor.**
- 5. Both must be taught to respond to a peculiar new LANGUAGE.**
- 6. Psychological and physical instruction of CONTAINMENT must be created for both.**

**We hold the six cardinal principles as truth to be self evident, based upon the following the discourse concerning the economics of breaking and tying the horse and the (n-word) together, all inclusive of the six principles laid down about. **But as we said before, there is an art in long range economic planning. YOU MUST**

**KEEP YOUR EYE AND THOUGHTS ON THE FEMALE and the OFFSPRING of the horse and the (n-word).**

**A brief discourse in offspring development will shed light on the key to sound economic principles. Pay little attention to the generation of original breaking, but CONCENTRATE ON FUTURE GENERATION.**

**Test her in every way, because she is the most important factor for good economics. **What have you got? You've got the (N-WORD) WOMAN OUT FRONT AND THE (N-WORD) MAN BEHIND AND SCARED. This is a perfect situation of sound sleep and economic.**

Notice how many times Lynch uses the word economic, and remember, that is what he came here to address.

Lynch's mindset was on two key points, money and power. He understood the relationship of the two, and this was passed down through the generations, to the liberals of today. As you can see from the few examples above, he essentially was talking about how the slave owner could control their slaves. Today, the liberals, follow that same mentality, and process, not only to control the black community, but to make slaves out of, and control all races of people in this country.

To make slaves, one has to render the individual, incapable of taking care of themselves. If a person is capable of doing that, then what ever it is that is making the person capable, has to be taken away from them.

Sometimes, it has to be taken by force, but that, gives the victim, if you will, a reason to take revenge on their aggressor. Other times, and this is the most prolific, the aggressor, can give them the idea of giving up their independence, through ignorance. Ignorance of the principles of the economic system.

The people in this nation, that support the policies of the Democrats (liberals), are showing their ignorance, or either they are in agreement with their tactics, for the sole purpose of making more slaves out of others, so they can have control over them.

Here are a few tricks that they use.

## **Raising taxes**

The raising of taxes, is by far, the most critical, and yet, most misunderstood factor in our economic system.

The majority of those that support taxation, are, for the most part, totally ignorant of what they are letting themselves in for. They are under the impression, that if taxes are raised

on a certain segment of our population, namely the rich, then that will free up more money for them, or that government programs will be better funded, to help them. That, my friends, is a pipe dream. Why???

Follow the trail of money.

First, there are all sorts of taxes. There are sales taxes. Usage taxes. Property taxes. Luxury taxes, and of course, income taxes. And a few others. All of these, affect all of us, even if we are on government support.

Remember, taxes, on all of the above, account for overhead expenses, for those that provide jobs, goods and services for all of us. There is no such thing as raising taxes on the rich, and not having to suffer any negative effect in the consumer section, or even in government programs.

When raising taxes on the rich, which many liberals tend to promote, when running for election, for dealing with government shortfalls in programs, the general public, is being set up for more problems in keeping up with their cost of living. Because as sure as the sun rises in the east and sets in the west, the only thing that happens is, prices will rise, and the rich will get richer. How??

Look at this example.

A man (let's call him John), owns a business. And the product he makes, is purchased by 100 people every month. This is a steady factor, it doesn't change. After all overhead is paid, he manages to take home, \$5000.00 each month.

Now, let's say, that all of his personal expenses, not associated with his business, come to exactly \$5000.00 per month. That means he has no room for spending any extra money.

If taxes are raised on his business, or even on him, then he will start being in deficit spending, if he still pursues his current lifestyle. So let's say he has to come up with an extra \$85.75 a month. He has to do something to get the rest of the money he needs to support his \$5000.00 a month lifestyle.

In this case, the man seeks to only get enough money to support that lifestyle, without trying to get even more money. In other words, he only wants to break even. This is a rarity.

So let's say, in order for him to break even, he will have to raise the price of his product, that he sells to his 100 customers, if they will still buy it after the increase in price. That means the price of the product will have to increase by \$0.85-3/4 cents.

But, there is a problem. In our monetary system, we don't have any partial cents denominations. That means he will either have to raise prices an even \$0.85 cents, which will still leave him in a deficit, or he can raise prices \$.86 cents, which will now, give him a surplus. Which one do you think he will choose??

Now mind you, he only sought to break even. But now, because of the new tax law, he is actually becoming richer, thanks to who??? The liberals and those that supported the tax increase on him. This scenario, plays itself over, not with just a few cents, but with hundreds of thousands, and millions of dollars a month. And many of those will not be seeking just to break even, but to get even more money.

But, it doesn't stop there. Notice that John had to take in to consideration the fact that raising prices, may cause him to lose customers. If he lost one customer, then he would have to raise the price, even more to recoup his regular standard of living.

But, this is only on the rich side of the pie.

Let's look at the consumer side.

If the poor, or middle class think they are escaping raised taxes, they are sadly mistaken.

Let's put John in the position of consumer. He makes \$1000.00 a week. After taxes, he takes home \$750.00 a week. For a month, that comes out to \$3000.00. After paying all of his bills, and buying food, he has about \$500.00/mo, left over, for whatever.

Well, one day, he goes to the store, to buy his usual weekly supply of food, and finds out, the prices of everything, have gone up, so much so, that now, after paying all his bills, and buying the same amount of food, as before, he finds that he now has only \$450.00 for fun spending. That means, that within a year, he will have paid \$600.00 more than he had been paying.

What caused the difference?? The rise in prices are due, in large part, to rises in the overhead of the producers, and most likely the stores that sell the products. And, since it is these individuals, and companies that are targeted for raises in taxes, some of that raise in price, is due to that tax raise.

The point here is this. When you hear someone say that they want to raise taxes on the rich and give the middle class a tax break, they are trying to fool you. The tax break they are talking about isn't there. You end up paying for the tax increase on the rich, by paying higher prices. And, not only that, you have to pay higher sales taxes, so you end up, with higher taxes anyway.

So remember this. It is impossible to raise taxes on the rich, without that increase trickling down to all consumers, the rich and the poor.

Yet, because of their ignorance on the issue of taxes, the rich are getting richer, and the poor, are getting poorer. And the bad thing about it is, they asked for it.

Another thing workers should remember is this. Taxes are for you as well.

Taxes, indirectly affect your take home pay. The higher the taxes, the less take home pay you workers have.

The less take home pay, the more needy, workers become. And eventually, they need some type of assistance. So they look to government to provide essentials that they may have to do without. That is right up the liberals alley. They depend on this type of situation, to gain more power, to use to make more people, dependent on them.

## **Wages, and benefits**

Another cause for the same problems above, again, have to do with the steady increases of wages and benefits for workers.

Once again, take the situations above, and instead of raises in taxes, switch that to business expenses, and again, you have the exact same scenarios.

When politicians talk about minimum wage increases, they are talking about making the rich richer, and the poor, poorer.

Wage increases, also have a negative influence on workers. As wage and benefit increases force employers' overhead to go up, which in turn cause prices to also go up, demand for the products that workers produce, goes down. When that happens, layoffs, increase. So, some workers are sacrificed, so the others can make more money, and have better benefits.

## **Unemployment compensation**

Another cause for higher prices, and the loss of jobs, are the fees that the employer, has to pay to the state, for use as unemployment compensation, for the laid off worker.

This benefit, while seen as a good thing, spells more layoffs. This is a government mandated expense, that, when workers hear that there needs to be higher compensation (payment amounts), or longer, extended benefits period, they jump right in, and support it. The higher, or longer time of the payments, the higher the cost to the employer. Then when layoffs come, and the benefits run out, they are crying the blues about how the rich are getting richer, and they are getting poorer. Once again, ignorance rules, and they lose.

What people again, don't understand is all of these things, add to the overhead costs of the employer, and they just pass it on down to everyone else.

## **Aid to families with dependent Children (ADC)**

Next, we have programs geared to families, many with children, that essentially, have no working adult, for whatever reason.

Once again, this is a good program, but, as good as it is, there is a price to pay. And that price, once again, is higher taxes, on those that are working.

Now, there are many reasons that some families, have no working adult, and one of them is, the adults are taking advantage of the system, either by not actively seeking work, and I am talking about able bodied adults, or they are working on jobs that are paying them, cash, where there are no records of their income, so they can double dip, so to speak

These two individuals, are costing all of us money, that we should not be paying. They are taking from the system, and electing, not to give anything back, except in sales taxes, which essentially, hurt all of us. Remember, we are being taxed, to help them, and they are just taking our money and abusing our assistance.

Some of these people, as well as others, were at one time, workers, who got laid off, and their unemployment benefits have run out, and they had no choice but to seek government assistance. And, their layoffs, were a direct result of liberal plans, that drove many businesses to either lay them off, either by cutbacks, or shutdowns. Either way, the results of higher taxation, on businesses, has consistently led to these problems, which liberals don't want to admit to. And the reason that they don't, is they want us to continue supporting them, in cutting our own throats.

When we know of people getting assistance, that are in either of these categories, and say nothing, we are, hurting our own selves. Because what happens if you need assistance, and there isn't any money for you??

## **Lawsuits due to violations and injuries**

Another big problem, is the constant barrage of fines, and injury lawsuits that many big, and some small businesses have to deal with.

Many laws, that have been incorporated in our society, governing businesses, are supposedly designed to maintain some sort of community, and environmental standards.

While many of these laws, may be doing some good, some, put an undo burden on business by making them to have to buy special permits, get inspections, install proper equipment, address safety concerns for employees and a myriad of other things. All of which, add to overhead costs, which eventually are passed on to the consumer.

However, while these costs, are usually nominal, they pale in comparison to one area of costs that is totally going out of control, and that is in the area of lawsuits, against them.

When I talk about lawsuits, I am not talking about the lawsuit, as a general complaint against a company for doing something wrong, as much as I am talking about lawsuits, that are resulting in rewards to the plaintiffs, that are far beyond the scope of normal intelligence.

They are, by far, the single biggest cause for companies going out of business, than anything else.

A lot of the rewards are being given to plaintiffs, by people (talking about juries), that evidently have no sense of what the effects of their decisions will have not only on the company, and their employees, but on all of the rest of society, including them.

These jurors, tend to think they are doing the poor little guy a favor, by taking the giant corporation, down a few notches, because they have millions, if not billions of dollars that they can lose, and still not even feel it. And, they may be right. But, in the end, it is the rest of us, the consumers of that product, that will feel it more.

It is one thing to award money for the negligence of the company, if indeed, it is their fault. However, today, many of these suits, are the result of the downright stupidity of the plaintiff, or fraud, and attorneys that are looking to make 'big bucks', at the expense of everyone else.

It doesn't matter what the case is about. If they feel they can make a case, and win a big award, then they will stop at nothing, even to the point of making up evidence, all in an attempt to win. And, in some instances, businesses, fearing a lengthy court battle, and the loss of millions of dollars, may often opt to settle out of court, for a substantial amount. In either case, the plaintiff wins.

All of this, usually means the business will have to raise its prices to recoup the lost money, which means, less demand for their products, and eventual layoffs, or closings.

Do you see the plans here?? All of these actions, are primarily, supported by the Willie Lynch liberals, to lower the ability of individuals to be able to provide needful things for their families, and thus make them dependent on them(liberals.)

There are many other things that all have the same purpose, that I will not take time to go in to, but rest assured, they are designed to do one thing, enslave you and I.

## **Starting a Small Business**

Now, let's look at the small business minded individual, or entrepreneur.

There are lots of people in this society, that have the idea of going in to business for themselves, and they have very good ideas, and products in mind to sell. One would think that liberals, who supposedly are for the little guy,(lower middle class and the poor), would have some sort of assistance provided, to help them with their venture. And you are right, they do. But, it comes usually with a cost. Time.

To start a business today, if you need help from government, I hope you have a good paying job to work at, while you are waiting for all of the governmental red tape to clear.

Any one, that goes to government for help with starting a business, is in for a mess like you won't believe. There are forms on top of forms to fill out. Then there are fees to pay. Permits to get. All sorts of rules and regulations that have to be met. And then if you are

lucky, you will receive, the necessary financing, and licensing you need to start. And that will be about a year later.

Then, when you get started, unless you have some super high demand product to sell, you may last about 1-5 years. In the mean time, you will have government loans to pay back. You will have the bills from the other overhead costs that come due every month. If you need to hire anyone, since you got government assistance, they will dictate who you must hire, and a lot of other things, like wages and benefits.

Sure government gives you a hand, but it comes with strings attached. You are the puppet, and you dance to their tune.

If you are able to start your own business, without government help, you still have to go through them to get permits, licenses, and stuff, before you can start. And guess what? The permits and licenses, come with the same strings attached. So you are still a puppet on a string.

There is very little room for anyone to legitimately operate a business, without government, having some part in it, even if that part is taxes.

To the liberal, power is everything. And one would probably wonder, why anyone, in their right mind, would vote for people that they know, would cause them so much trouble, in the welfare of their families and business.

Well, it is by design that liberals have set up a system, that essentially, hides these principles, or misleads people in just what this system is about.

When I look at people that feel that they should have all of the things the rich have, yet they don't have the means to pay for it, but will go in to debt to get it, then there is a serious problem. That problem is the next critical factor that causes prices to go up, and in many instances, stay up. That factor is, credit.

## **Credit**

One of the driving forces, that helps drive up the prices of goods, and services, is something that all of us, tend to want so much, and that is, credit.

Whether it is in the form of a card, or a loan, we all want to have good credit. Why?? So we can go out and buy things primarily, that we need, but mostly, what we want.

We have no problem, running out and buying that new car, or tool, or appliance, boat, furniture, or other nice looking thing that catches our eye. But, what we fail to realize is something that the bible addresses, and that is this, ***‘Prv 22:7 The rich ruleth over the poor, and the borrower is servant to the lender.’***

Credit, though useful, in times of need, can actually be a means of control, orchestrated by liberals, as a means to get us, in to positions of financial distress, and ruin.

First, if you will remember, earlier I talked about the type of system we are in, supply and demand. In that system, demand usually sets the price. The greater the demand, the higher the price.

Well, when people can't buy something because the prices are too high, or like, when a person first puts a product out, and sets a price, and if people can pay for it, in sufficient quantities, then the price may stay the same, or go higher.

Credit, enables more people to buy a product, thus keeping the price high, and allowing the price to increase.

And, at the same time, it enslaves the consumer, who now has to pay the bill for a certain amount of time. And with that credit, comes interest on the balance due.

Interest, is the cost, that a creditor adds to the loan, or credit that they provide. And depending on several factors, that interest could be extremely high.

Most of the factors that are usually considered in establishing the credit rate are, collateral, (i.e. house, boat, car jewelry, or some other valuable items), credit rating, demand, area, and competition. There are others, but I will not address them because they vary widely, and are not always used.

Needless to say, creditors, are in the business to make money, therefore the charges imposed for lending, or giving credit to you.

Now, looking at the factors, you will see that I put collateral, at the top. That means that depending on the type, value, or amount of collateral you have, your credit can be real bad, yet you can still get a loan, or credit.

Lenders that use collateral, while you may have bad credit, are usually pawnbrokers, even though some companies offer credit, but at extravagantly high interest rates.

The pawnbroker, doesn't charge interest, like most lenders do. They get their money up front, by giving the customer, maybe 25% of the worth of the collateral. That way, if the person never comes back for the item, then the shop owner, can simply sell the item for its true value, and recoup their money.

The key is to keep your credit in good shape.

Your credit rating, can really aid you in getting the things you want, and not having to pay through the nose, for them, all at once. The lower the risk to the lender, the lower the interest rate.

Factors that are considered in figuring out your credit rating are, are payments current, how much income do you have, how big is your debt, how much do you have to pay each month, are you running at your limit on all of your cards, etc.

Then we have demand, area, and competition. The cost of credit, follows the same pattern, as that of products. The greater the demand, the higher the interest rate.

The more competition, the lower the interest rate. And, depending on the area, or neighborhood, and the type of loan, the interest rate is proportionately affected.

In other words, in high crime areas, interest rates will be high. In low crime areas, the rates will be lower.

Creditors also look at your income, and compare it to your debt. They want to see, how easily you will be able to make your payments.

If you are basically living from paycheck to paycheck, most reputable lenders will not lend you any money.

However, unscrupulous lenders will, but once again at higher rates.

The end result is, you run the risk of losing everything you have, if you get laid off, fired, or get sick, and can't work.

There are so many other issues that go in to this section, that I could easily write a whole book on it alone.

But, as you can tell, credit is out there, and, depending on whether a person can control their impulses, to run out and charge something, because they just have to have it, will determine if they will be victims of the Willy Lynch liberal Democrats' policies.

Think of how many people have lost their houses, cars, furniture, and have had to go on welfare, when companies have had to lay them off, and they tried to live on their credit cards, and make the minimum payments.

Liberals, count on the human nature of the people, to make it easier for them to get us in a position to need them (the liberals), and their government programs, by going out and spending above our means, to have something that, in most instances, is something that we could really do without.

There are things that I, personally, have in my closets, in the basement, in the attic, the garage, and have thrown away, that I just had to have, and some creditor, offered me credit, at a modest rate, and I jumped at it, so I could get the things that I wanted. But, after I got them, I used them maybe a few times, then put them away and forgot about them. But, guess what?? I still had to make payments on them, sometimes months, or even years later, even though I never used them again.

One other thing credit does, as mentioned in the bible scripture above. And that is, in many instances, people's credit gets so high, that, when it comes time for the person to be able to retire, they can't because their pension, social security, or both, won't cover the

payments. Therefore, they, in effect are forced to work, literally until they die, working for the creditor.

There are people today, working on jobs, that have been on them for 40 + years, that are working, not because they want to keep working, but because they can't afford to retire, because they have too much debt, and pension money, and social security, won't pay them enough money, so, they end up being slaves to their creditors.

There are laws in place, thanks to the liberals, that can force certain companies to extend credit to you, even if the creditor, has denied your application, for certain reasons. You may want to buy a house, or a car, but your credit is lousy, or you live in a high crime area. The creditor, will say the risk is too high, yet, because of these laws, a person can sue the creditor, if they think the creditor is discriminating against them, for whatever reason. So, what happens?? The person gets the credit, then doesn't pay their bill, because they don't have the money, or their property, got stolen, and they don't feel they should have to pay for it, or they file bankruptcy. In either case, the creditor, will just pass the cost, of what they lost, on to the rest of us, in the form of higher rates, or prices.

You would be suprised, at just how many of these liberals, are involved with both the laws, and creditors, for one reason, and that is to have a system in place, to make us fail, so that we will have to turn to them, for help.

# CRIME

If there is one thing that is death to a community, then crime is it.

Crime can turn the most affluent, thriving, robust neighborhood, in to a virtual wasteland, in as little as a few months, given the right circumstances. It is like a cancer, that may start out very small and seem insignificant, but left unchecked, can spread, totally out of control, with no end in sight.

Any neighborhood, city or state, that can't control crime, is doomed.

No one, in their right mind wants any thing to do with crime, especially if they are the ones that live in the midst, and are the victims, of it.

In certain areas, where businesses are the cornerstone of the community, and the economic boost that they supply to that community, is it's life blood, then they all have a stake in squelching any appearance of crime.

That, is only common sense.

Yet, thanks to the liberals in the Democratic party, as strange as it may seem, that is just what the liberals are providing fertile ground for, to thrive and prosper. How, you may ask?? Through legislation, and deception.

There are many pieces of legislation on the books, and many judges, chosen to be in courts either by liberals themselves, or by the public, that are encouraged to vote them in office, by liberals, that have put entire communities, and even states at risk, of being completely decimated, by crime. This is because of judges throwing cases out of court, letting criminals out of jail with low, or no bail. While at higher levels in the courts, judges, take the side of the criminals, and rule against what is right, and in some instances even re interpret laws, all in favor of criminals.

Willy Lynch, fostered the idea of keeping people in a state of fear, and distrust of each other, while at the same time, making, and keeping them dependent on the liberals and their policies.

In the situation of crime, we see that it usually occurs in greater intensity in areas where there is high unemployment, and hopelessness.

Well, if we will look at several actions that liberals have fostered over the past few decades, we will see just how crime has been given all the fertilizer it needs to grow.

First, it should be common sense, that where there are plenty of jobs, and a lot of satisfied residents, that are vigilant to protect what they own, there is very little opportunity for criminal activity to flourish.

These people, for the most part, are law abiding citizens that have taken the initiative, to watch out, not only for their own businesses and property, but also their neighbors' as well. It was no strange thing for the community, the police, and the judges to all be on one accord, and that was to see to it that people could live their lives without fear of crime, and to have the ability to prosper.

When the liberals look at a situation like this, they see a threat to their power, of having people dependent on them, and they set about to undermine this relationship, by injecting the poison of the Willy Lynch doctrine, to destroy it.

However, they, themselves, don't mount an overt attack on these community relationships, for they would be seen for what they truly are. They do it in such a way, that blinds us to the fact that they are getting us to do their dirty work for them, by destroying ourselves.

Let's look at some examples of how, down through the years, they have accomplished this.

The first thing, that I mentioned earlier, and can be read in the text of the speeches of Willy Lynch, is to destroy the bond between those in the community. And the best way to do that is by planting the seeds of fear, distrust and envy, in them.

**I HAVE A FULL PROOF METHOD FOR CONTROLLING YOUR BLACK SLAVES. I guarantee every one of you that if installed correctly IT WILL CONTROL THE SLAVES FOR AT LEAST 300 HUNDREDS YEARS.**

**I HAVE OUTLINED A NUMBER OF DIFFERENCES AMONG THE SLAVES; AND I TAKE THESE DIFFERENCES AND MAKE THEM BIGGER. I USE FEAR, DISTRUST AND ENVY FOR CONTROL PURPOSES.**

**Take this simple little list of differences and think about them. On top of my list is "AGE" but it's there only because it starts with an "A." The second is "COLOR" or shade, there is INTELLIGENCE, SIZE, SEX, SIZES OF PLANTATIONS, STATUS on plantations, ATTITUDE of owners, whether the slaves live in the valley, on a hill, East, West, North, South, have fine hair, course hair, or is tall or short.**

If you will notice something that he said, **"I guarantee every one of you that if installed correctly IT WILL CONTROL THE SLAVES FOR AT LEAST 300 HUNDREDS YEARS."** That means, this was a long term strategy, that would keep control over the slaves for 300 years past the time it was given, in 1712. In other words, until 2012, and beyond.

If we look at the liberal plan of operation, we can clearly see, that their main push for returning to power, is the use of fear. Fear of what?? Fear of your neighbor, because they don't look like you. Fear of those that are rich, because they are trying to take what you have, through theft or in most instances, through legislation.

In the 1996, budget battle between the Republican party, which had control of both houses of congress, for the first time in 40, count them, 40 years, and the liberal Democratic party, which was beside itself for being in the minority, the liberals launched an all out assault on the conservative agenda, by using fear as its main weapon.

Quoting one liberal politician after another, ‘They are coming after you, to take away your welfare. They are coming to take away your Medicare. They are coming to take away your civil rights. They are coming to starve the old people and the kids. They are going to cut education funding for your kids. They are going to kick you out in to the streets. They are going to cut your social security. ‘ On and on it went.

As a result, the old people, along with women’s rights advocacy groups, minority groups, and others, ran to their congressmen and demanded that the budget cuts, be rejected, and it worked. Some conservatives that got scared of what might happen to them in their re-election bids, went against their party leadership, and sided with the liberals, and defeated the proposed budget cuts.

The thing is, none of the programs’ funding was being cut from the present level at that time. The only thing that was being cut, was the rate of the increases that were scheduled for the next few years. Instead of a 10-12 percent increase, it would be cut to a 6-8 percent increase. So all of these programs were going to receive increases in funding, but just not as big. Mind you, the cost of living was going at a rate of a little over 4 percent. So 6 percent was ahead of that rate. But, hardly anyone knew it, because the liberals kept it from them, by shouting down the ones that were trying to explain what the conservatives were actually doing.

So, with this as a back drop, you can see how the liberals use fear, to get their way.

The seeds of distrust were planted, to keep people from believing anything that someone other than the liberals told them. Look at what Lynch said. **‘it is NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US.’** This is the exact same logic that the liberals use against us today. They have most of us trusting whatever they say, without question. They say it, and we believe it, even if it doesn’t make any sense. This is the type of response that Christians should take towards God. They, liberals, have made themselves more important to a lot of people, more important than God, and that spells disaster in any language. Practically, in fact, I will say, every problem we have, is a result of us turning away from God, and to the liberal way of thinking. This will be further addressed in the section on religion.

Now, when you have fear and distrust going on, all you have to do, is put envy in the mix, and you have the perfect setting, for crime.

Envy, brings in to play, the realization that someone has something that you don’t, and would like to have. whether it is money, power, a person, or some other thing(s), it can be a major contributor to a person that sees no way to obtain what another person has.

Usually, if a person envies someone, and has a way to achieve the same things that the other person has, then, crime is not that great an issue. A person can usually get a job, if they don't have one, and make the money they need to, to purchase what they want, if they can afford it. That is the conservative doctrine, that has made this nation the greatest attraction to the rest of the world. You can come here with nothing, and if you have a good education, and work hard, there is no limit to what you can achieve.

The liberal doctrine, says, no matter how hard you try, you don't stand a chance of making it without our help. The rich have everything, because they stole it from the poor, or they made their money on slave labor, and they will do whatever it takes to keep you under foot.

In other words, they want you to be, hopeless, without them.

Well, in human nature, hopelessness, is the match, that starts the fire of crime, with fear, envy, and distrust, being the fuel.

I hear black preachers addressing reporters, after a riot has broken out, or some murder has taken place, where the perpetrator is black, and the main thing they say is, there is no hope in the black community. There are no jobs, no decent housing, no place for children to play, and so on. They say in this type of condition, the only outlet people have, is violence.

Well, in looking at the neighborhoods that these things usually occur, several things become quite clear.

First, the violence usually occurs in their own community. Blacks, never riot in someone else's community. In the Detroit riots, and the LA riots, the violence was centered in the black community. Not only that, rioting blacks burned down the businesses of other people, including other blacks that were trying to do something to better themselves, and help their community by providing jobs for some of those that needed them and wanted to work.

The black community, has the highest violent crime rate in the nation. And what really makes it bad, is that it is black on black. And, it is usually our young blacks that are the main perpetrators, of it. Why is that??

It is by design. Remember, Willy Lynch, bred in envy and distrust nearly 300 years ago, and it has become the basic key, that liberals use to keep blacks under control, and to keep themselves in power.

Liberals say, because there are no jobs, crime thrives. The truth is, there are no jobs, because of crime.

Living in Detroit, all my life, I have seen businesses leave this city, primarily, because of crime. Businesses usually invest in a community by purchasing a piece of property, that

they hope will increase in value, as well as increase the overall economic condition in the neighborhood, by hiring people from that neighborhood.

Well, those that either can't get hired, or don't want to work, see the others thriving and getting nice things, and envy sets in. It is not unusual for those that have the jobs, to get victimized by those that don't.

Then you have instances where some, will even go in to a business, and rob it.

Well, depending on the circumstances, one of which, is a lack of police protection, and long response times, the business may shut down and move elsewhere. And their employees may not be able to move with them. Thus, no other business will want to move in to that community, and the cycle of crime grows.

But, let's go back and see some of the other factors that bring this problem about.

People that can't get a job. Today, a lot of people are, unemployable, or can only get low wage jobs, because they are, for all intents and purposes, ignorant, or uneducated.

Education is the key to prosperity. Without it, you are in for a miserable existence. But, even with a diploma after 12 years of primary education, a lot of today's graduates, are no better off than those that drop out of school after 8 or 9 years. Why?? Because the public school system, is a joke. It is solely under the influence of liberals. (see the section on education).

Too many of our kids are graduating from high school and can hardly read or write, let alone do math. Some time back, in a Texas city, the owner of an aircraft fabricating company, offered recently graduating seniors, jobs, where they would get on the job training, if they could pass a simple employment test, which included, mostly simple math. After the test results came in, it was determined that none of the students that took the test passed it. Quoting the owner, "I would basically have to teach them math, all over again, before I could begin teaching them how to do the job. This is something that the high school should have taught them." The only jobs they are eligible for right now, are at McDonalds or Burger King.

Over \$5000.00 per year, from the first grade to the twelfth grade, is spent on each of the children, and this is what we have to show for it.

So the kids get frustrated because the system has let them down, and are at high risk of turning to drugs and crime. All because of the liberal run, public school system.

## **COURT SYSTEM.**

Another factor for crime in the black community, is the court system. A system that at one time, protected the community from criminals. If a person committed a crime, and was found guilty, he or she would be sent to jail, or prison, without delay.

Today, thanks to liberal judges, criminals, may be caught, dead to rights, and go before one of these judges, who, along with their defense attorney may get a low bond, and be let back out on the streets to terrorize innocent people, and even witnesses, so much so, that it is almost impossible for a witness to come forth for fear of retaliation.

So, without witnesses, the criminal gets off, and comes back to the neighborhood, and continues his activities.

In this entire nation, no group has nearly the rate of, in group crime, as the black community. Black on black crime is at least 5 times higher than the next group. Our homicide rate is even higher. All of this is by design. If we exterminate ourselves, then the liberals (Willy Lynch disciples), won't have to.

We can look at laws that have recently passed, that were sponsored by liberal Democrats, that, have allowed all sorts of foolishness to go on in relation to dealing with crime, that will show just how dangerous they are to the black community.

Remember what Lynch said, **'it is NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US.'**

How do they get you to love and trust them?? By making you live in impossible situations, and then saying, they are the ones with the answers.

There was a time when criminals feared the police, the justice system, and prison. Today, it is almost a joke. Police can't use blackjacks, mace or physical force to arrest a criminal, or they will be sued. Police chase a fleeing person in a car, and the person hits some innocent bystander, the police, and the city, get sued. So, the city has the police, to reduce the force they use to stop criminals.

As a result, the police, are turned in to a show, without any power, or better yet, a lion, without any teeth.

The liberals have handcuffed the police in such a way, that, personally speaking, it is easier to just let the criminal go, than to try to arrest them.

Liberals look at police, as their enemy. Why?? Because if the community has no crime, it will prosper. And if it prospers, then that means they won't be looking to the liberals for government handouts, because jobs will start coming back in.

That, my friends, is a direct threat to their power. So, they try to make the police, social workers. They want the police to be sensitive to the community (criminals). That, is suicide. When I was trained as a policeman, I was told one thing, 'tell the person to stop, drop their weapon, and raise their hands. If they don't drop them, then you drop them. Police have no time to try to analyze what is motivating a person if they pose a threat to either the officer, or the community. That is not their job.

That job belongs to social workers, psychologists and psychiatrists, the third problem in the community.

## **SOCIAL WORKERS, PSYCHOLOGISTS AND PSYCHIATRISTS**

These people, have a habit of finding reasons why a criminal should be let off. Some one commits a murder, and they are called mentally ill, or not accountable for their actions because of some sort of stress. And guess what that stress usually is?? No job, being raised in a crime ridden community, being deprived of one or more things that friends may have, like \$300.00 gym shoes, or a \$500.00 jacket or maybe a gold necklace, or some other thing.

They say, being raised in a crime ridden community, makes one, more likely to become either a victim, or a perpetrator. And therefore, they aren't responsible for their actions. So, if they aren't responsible, then they shouldn't be punished as severely, if at all.

So, they go to a hospital for a while, get treated, then let back out on the streets, to do it all over again.

The prison system, where people go, for punishment for their crimes, used to be a place, of punishment. It was so tough to be in there, that if a person did serve their time and got out, they would do everything they could, to keep from going back. They hated, and feared it.

After the liberals got through with it, that changed. Many, if not all, became little more than country clubs. The prisoners, at taxpayer expense, live better than some of us out here, that are law abiding citizens. As a result, there are many criminals that don't care if they go to prison or not, because they know it will be better living conditions for them, in there, than out here. And the best benefit is, they don't have to work. That's right. People used to get sent there with a hard labor clause on some sentences. You don't hear that today. Why?

Try unions, (another liberal stronghold). A lot of prisons, provided a means for some products to be manufactured, and sold to the public, at or below market prices, which meant they were easier to afford. The profits, went back in to the prison system, to help with the cost of running it. That meant it could aid the taxpayers by keeping their taxes low.

The bad thing about that was, unions, faced with a shrinking membership, began to complain that the prisons, were costing their (the unions) members, jobs. Many companies, that bought products from the prisons, were picketed, and the liberals got on the job to pass legislation, that effectively stopped most of the prisons from selling their products at below market prices, and in some instances, stopped them all together.

That meant that the demand for their products, dropped, which meant the income dropped, which meant that the funding of their operation costs, was totally put, on guess who?? You and I, which meant, higher taxes.

When there were times when the people got tired of higher taxes, and wouldn't stand still for it, local governments, in the black community, were faced with these factors.

Less money for operating costs, because of lower revenues. While at the same time, unions, wanting more money in salaries for their members. That means only one thing, layoffs.

It seems that union members think that money grows on trees, or something. If a business, or government, has any money, the unions want raises every time they negotiate a contract. And that may be a good thing, if things are going good. But, in the case of government, since it is the people, that pay the wages for government employees, then, when the move for lower taxes, comes about, these people, want to go on strike. They have no sense of loyalty to the community, they serve.

A lot of times, because of local laws, city employees, must reside in the communities they serve, which is a joke. However, they usually complain about their taxes being too high, even though their taxes, are the source of their wages.

Well, in these communities, when it comes to having to lay off people, guess who gets laid off first?? Police, and firefighters. The very ones that protect the community.

To me, it is foolishness, to lay these people off, first. As a mayor, I would cut back on other city services, that have no crucial effect on protection of the community, and leave the police force in full manpower. We have seen increases in crime, after layoffs of police officers.

Then with the increase in crime, people and businesses start leaving the city, and the tax base gets lower. And with that, comes more layoffs, usually more police, and crime increases even more.

It becomes an endless cycle, that promotes the sense of hopelessness, and despair, which results, in even more crime.

## **HOLLYWOOD AND THE ENTERTAINMENT INDUSTRY**

Another thing that fuels crime, is an unlikely source, and that is the entertainment industry, led by Hollywood (a.k.a. Hellywood).

This industry, over the past few decades, has embraced the blood and guts idea of settling problems with all sorts of violence.

Most of them, have to do, not with war against an enemy that is attacking this nation, but against the rich, the police, government, against the white man, and against, guess who?? Other blacks.

It seems that the more violence in the movie, or talked about in 'rap' music, the more popular it is.

And if you think that people, that listen to this type of music, or go to see, the 'rich white man' or the 'sambo' get his, don't get ideas about the fact that this type of behavior is acceptable, then I would like to ask you something?? What planet did you drop in from???

These movies, and other entertainment sources, are a multibillion dollar a year business, and have made millionaires out of a lot of poor, and uneducated people.

So now, what are they?? Rich and uneducated.

There is an old saying that goes like this, 'a fool and his money, are soon parted.'

With few exceptions, most of these 'instant millionaires' end up throwing their money away, partying, buying drugs, and fancy cars, and maybe a house or two. But, at the end of their careers, if they live long enough to retire, they end up broke, because they didn't have the education to invest for the future. And we can thank the public schools for that.

Glorifying crime, is a sure way to get more and more disciples of it. Which is just what the liberals want.

And, who is it that profits from these ventures?? Rich, white, liberals, and some of the black overseers, that get in to the act to rip off their clients.

It has become virtually, a dog eat dog existence, with blacks being the main target.

Sure, Hollywood and the entertainment industry, are making millionaires out of poor, uneducated blacks, as well as the educated ones, but at what price?? The destruction of the black community, which is what the Lynch liberals really want.

Look at most of the black producers of music and movies, and the products they turn out. What will you see?? Drugs, sex and violence. Carbon copies of what the whites have been producing, except with a lot more flare, and intensity. And mind you, it is these types of movies and music that blacks flock to, in droves. Even a lot of so-called comedies, have to have sexual innuendo, in order to make it. No sex, no violence, no drugs, and you have no popularity, and therefore, no profit..

They (the Lynch liberals), figure, since they support the black agenda, which is what is causing the black community to self destruct, blacks, not being able to understand what the liberals are doing, will throw more of their money behind them, just to keep them in office.

Then we have the effects of this industry, on the family, addressed later in the section on the family.

## **THE CIVIL RIGHTS SCAM**

One of the leading scams ever perpetrated on the black community, is the one concerning civil rights.

The Liberals of the Democratic party, have used this tool, and the fear of losing it, to corral over 90% of the black community's voting power for themselves.

How??

In short, what they did, was set in motion the idea that blacks, were being discriminated against in practically all areas of their lives, and that they, the Liberals, could rectify that, by passing laws, 'special laws', that would pave the way for blacks to move in to main stream America.

These laws, would, in effect, override the rights of the white majority, and give preferential treatment to the black minority.

If you are a Christian, it is tantamount to being a respector of persons, which Jesus Christ says we are not to be.

**Prv 24:23 These things also belong to the wise. It is not good to have respect of persons in judgment.**

**Prv 28:21 To have respect of persons is not good: for, for a piece of bread that man will transgress.**

**Rom 2:11 For there is no respect of persons with God.**

**Jas 2:1 My brethren, have not the faith of our Lord Jesus Christ, the Lord of glory, with respect of persons.**

Being a respector of persons means that you give special treatment to people, based on nothing more than their name, race, sex, ideology or some other factor, that completely excludes specific people. Being a racist, is being a respector of persons. And, giving special rights to a group of people, based on their race, is no different.

Liberals, playing the race card, white vs. black, were looking at a win, win situation. If the laws passed, blacks would look at them, liberals, as being their saviors, and friends, and would vote for them time and again, no matter what. If the laws failed to pass, then the liberals would let the black community know that it was the racist white Republicans that were the enemy, and that they should support the liberals, so that they could remove the Republicans, and put their people in office so that they can get these laws passed. Once

again, the black community would fall in behind them and support them in whatever they say.

Now, let me remind you, it is the Liberals who are the true racists, yet, they can forgo their feelings and roots to slavery for a time, if getting more power is possible. The more power they have, the more slaves they can make out of all of us (black, white, Latino, Asian, gay, male, female, old, fat, you name it)..

Now granted, certain things needed to be changed, as far as the black community was concerned. Not being allowed to eat in restaurants, or having to use separate restrooms facilities, having to sit in the back of buses, and having a good education. All of these are the basic rights granted under the constitution, which was modeled after biblical principles, that 'all men are created equal, and are endowed with certain rights.' There was no need for any 'special amendments.' Liberals however, looked at the situation as a way to further enslave blacks, as well as others, by keeping them in situations that made them (blacks and others), feel like they were being shortchanged, because evidently the constitution, did not include them. Therefore, the push for the civil rights amendment.

The Rev. Martin Luther King, knew what the constitution said, and articulated that in his speech at the 'March on Washington' when he talked about 'cashing a check.' He was not saying that new laws had to be written, but rather, 'the promissory note' which was given to all citizens, needed to be honored.

The liberals saw this as an opportunity to achieve 'god like status' with a group of people that they really had no use for, but in the face of the growing movement for equal rights, as it was being defined, would allow them to get more and more power over all of our lives.

**Remember the teachings of Willy Lynch, 'YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US.' 'WE BREAK THAT NATURAL STRING OF INDEPENDENCE FROM THEM AND THEREBY CREATE A DEPENDENCY STATUS, SO THAT WE MAY BE ABLE TO GET FROM THEM USEFUL PRODUCTION FOR OUR BUSINESS AND PLEASURE.' 'NOW IN A FEW YEARS WHEN THESE TWO OFFSPRING'S BECOME FERTILE FOR EARLY REPRODUCTION WE WILL MATE AND BREED THEM AND CONTINUE THE CYCLE. THAT IS GOOD, SOUND, AND LONG RANGE COMPREHENSIVE PLANNING.'**

The total reason for their supposed support for the black community, is the power that we give them, over our own lives. That is all. *Instead of them forcing their will on us, we give up our will to them.* In other words, we make ourselves their slaves. In other words, what they do is, put us in a position of needing something, then promising to give it to us, only when they are able to have the power to do it. As long as they are out of power, they will do whatever it takes to keep the Republicans from giving us what we need. One example is more take home pay after taxes (tax cuts). To a liberal, the best way to keep people in their back pocket, is to keep them in need of government assistance, in order to survive. And the best way of doing that, is to take money from them, so they can't afford certain

necessities of life. And the way they do that, is by taxes. The more money you make, the more taxes you pay. That means less money for you and your family.

Anyway, getting back to this subject, the liberals, saw something else in the future, and that was, new laws would make other groups of people want the same thing. You had women's groups, gay groups, fat groups, seniors, environmentalist, and animal rights groups, and you name it. Of course, back then, these groups, for the most part, didn't exist. But, the civil rights laws, gave birth to, and empowered them. If it took special laws to give blacks what they wanted, then the same thing could apply to other groups.

Willie Lynch told the slave owners, not to think 'short term' but 'long term.' Liberals look years, decades and even centuries ahead, while most of us, only look at the present, or maybe a year ahead. Lynch said, **'WE UNDERSTAND THAT SHORT RANGE PLANNING ECONOMICS RESULTS IN PERIODIC ECONOMIC CHAOS; SO THAT TO AVOID TURMOIL IN THE ECONOMY, IT REQUIRES US TO HAVE BREATH AND DEPTH IN LONG RANGE COMPREHENSIVE PLANNING, ARTICULATING BOTH SKILL SHARP PERCEPTIONS.'** **'I GUARANTEE EVERY ONE OF YOU THAT IF INSTALLED CORRECTLY IT WILL CONTROL THE SLAVES FOR AT LEAST 300 HUNDRED YEARS.'** This is 2004, 292 years since Lynch made this statement, and his principles are still in play and going strong, and we can see the results. 90% of the black voters in this nation, support the Democratic party, which is controlled by these liberals, no matter what asinine, policies they come up with.

For 4 decades (1954 - 1994), the Democratic party was known as the 'tax and spend party.' That is because every time you looked up, they were creating more government programs, supposedly to help the poor and such. And each of these programs required people to administer them. That meant more government employees. And the more government employees, the more money had to be acquired, to pay them government and union mandated wages, and that meant higher taxes on the private sector. And it was usually the middle and upper classes that had to pay them.

When we hear liberals bemoaning the loss of jobs, usually when a Republican is in office, they are trying to make it appear as if the Republicans are responsible for the loss of these jobs. When, if you look at the bottom line, excluding the regular rise and loss of jobs, it is usually the policies of these liberals, that caused it.

In 1976, we had a Democratic president, and a democratically controlled house and senate. And the policies of that administration, devastated our economy, in 4 years. New environmental laws, forced auto companies to put expensive pollution equipment on their vehicles before they could be sold. This one thing, caused the prices of new cars to go up as much as 50% in the first year. That forced layoffs, and plant closings. Remember, we are talking about so-called civil rights. This law gave the environmentalists which were legally a minority group, special privileges and power, at the expense of the majority. That is the inherent flaw in this type of legislation. It favors the minority over the majority, and there will always be a minority, somewhere, for them to find, and help..

The higher the taxes, the less take home pay. The less take home pay, the more needy, workers become. And eventually, they need some type of assistance. So they look to government to provide essentials that they may have to do without. That is right up the liberals alley. They depend on this type of situation, to gain more power, to use to make more people, dependent on them. More about this was addressed in the section on economics.

The problem is that the constitution, already guarantees equal rights for everyone. What happened, is for over 150 years, that wasn't happening because a certain group of people, ignored that part of the constitution, and denied other groups of people those same rights. So the problem wasn't that the law didn't provide for other people, but rather, the law wasn't enforced. This is what Willy Lynch promoted. Whites were the only ones that the constitution was for. All other races were not included.

So, when the move for gaining their constitutionally guaranteed rights, the demand was not to enforce the existing laws, but to make new laws, that were designed to give blacks these rights. Well, when this was done, it created a whole new problem, because it took from one group, and gave to another.

Picture this. Take 100 people, and make them a group. In that group, you have 75 whites, and 25 blacks. And let's say you make a rule for them that says, every day, you will give the group \$100.00, and it should be spread evenly amongst them all, at a rate of \$1.00 per person. Also, everything that is done by the group, including the disbursement of the \$100.00, is to be voted on.

Well, certain of the white group, felt that they wanted more than just the \$1.00 per day, and they got together, and convinced the others in their group, that the black group should not get the \$25.00. And so, a vote was taken, and 60 of the whites voted to keep \$20.00, of the money from the blacks and give them just \$5.00, to divide amongst themselves.

Some time later, the blacks find out that they have been shortchanged and demand justice. What they demanded, is an additional rule, allocating that they receive the \$1.00, that is due them. However, a few of them say that is not enough, they want, what can be best described as reparations. They want all of the money that they would have had, if they had been treated the way the original rules had prescribed.

However, remember the amount allotted to the group is \$100.00, which means each person gets \$1.00. If the new law were adopted, like the blacks want, then that would mean, that the whites would have to settle for less than a dollar, and that would mean, that in a vote, some whites would have to side with the blacks, if you go by a simple majority.

The blacks, realizing that they would more than likely lose in that type of situation, sought another law, and that is one where, instead of a majority count, they wanted each of their votes to be equal to 3, so that if all 25 voted for something, then the whites would not be able to get anything done, because the votes would be tied. Then, if only one white defected to the black side, then the blacks would win.

You would say, that seems fair. Well, is it?? Many of you complain about the results of the 2000 presidential election when Gore won the popular vote, but lost the electoral vote. The same rules apply to the electoral system in electing a president, that the blacks sought to equalize voting power. More about that in the section on politics.

With the black community, demanding new laws to give them what they think they deserve, which may be true, things were set in motion, to put a bigger rift between the races. You see, in order to get more of something, when there is a set amount for everyone, means that someone will have to settle for less. That's just the way it is.

I must remind you again, all of this, is playing right in to the hands of the liberals. If they can keep the blacks, believing that they are the only ones that can give them what they want, then blacks will continue to vote for them, no matter what.

Blacks will follow them straight off the edge of a cliff, and to their own destruction. And that is just what Willie Lynch promoted when he said, **'IT IS NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US.'** That means, that just like that slave that thought he and the master were family, blacks will sacrifice themselves to support a group of people, that inwardly despise them. And this policy is being used on all groups of people, not only blacks.

Have you noticed how the Democratic party embraces any, and all groups of people, no matter how far out and disgusting their agendas are??? They only do it for one reason, votes. The more they can make you believe that they are your friends and the Republicans are the enemy, the more you will believe in everything they, and their messengers say. And if they tell you to kill yourself for the cause, figuratively, you will do it.

The black community is in the position it is in today, because of liberals, and they will stay that way until they get their thinking straight. But, that requires one thing, and that is a change of mind. And that can't happen, if they are kept in positions and institutions that teach, and preach liberalism.

What is liberalism in a nutshell?? Liberalism, to me, is a process, or mindset that says, 'the only way to solve a problem, is to throw money at it, no matter how much it takes.' This is why, whenever you hear Democrats campaigning, and discussing issues, they are usually talking about all of the problems we have, and we need more money for programs to solve problems in this country.

Civil rights issues, have been just what Willie Lynch ordered.

While listening to a black woman, giving a testimony one day about her life as a young girl, she said something that still resonates today, and that was, 'I didn't know I was poor, I thought all people lived like that', talking about living in a sort of 'shanty town'. She was happy and content, until she traveled away from home, and got caught up in the 'quote unquote' good life. What she was talking about is, the pursuit of the 'better life', though honorable, has its price, if you are not properly rooted and grounded in what is

right, and what is wrong. Notice how Willie Lynch looked at it. **‘WHAT WE DO WITH HORSES IS THAT WE BREAK THEM FROM ONE FORM OF LIFE TO ANOTHER THAT IS WE REDUCE THEM FROM THEIR NATURAL STATE IN NATURE. WHEREAS NATURE PROVIDES THEM WITH THE NATURAL CAPACITY TO TAKE CARE OF THEIR OFFSPRING, WE BREAK THAT NATURAL STRING OF INDEPENDENCE FROM THEM AND THEREBY CREATE A DEPENDENCY STATUS, SO THAT WE MAY BE ABLE TO GET FROM THEM USEFUL PRODUCTION FOR OUR BUSINESS AND PLEASURE.’**

What Lynch is saying, is that family values are usually the core of a family’s survival. Lose them, and the family will fall apart. If you can get the family to begin to look outside of itself for something more than what family values provide, you can hold out that apple in front of them, and they will leave those values, for that apple, and you will have them.

That black woman, got caught up in trying to ‘make it’, as the world would say, and got in to all types of things, that were destroying her, all for the ‘good life.’ Liberals offer ‘the good life’, to anyone that will leave their natural instinct of right and wrong family values, behind.

Where as the woman was content where she was, someone probably came to her and told her, that if she left home and traveled down this certain road, she would see things that would make her want to never turn back to her old way of thinking. The seeds of envy had been planted, and suddenly she got in to that ‘woe is me’ state.

Liberals will always come to people and tell them, that no matter how good things are going for them, they could be a whole lot better, if, they would just trust them, to make things better for them.

In a way, if you know the story, that is the same thing the serpent, tempted Eve with, in the garden of Eden [**Gen 3:1-7**], and Jesus Christ in the wilderness [**Mat. 4:3-11**].

That is why these ‘civil rights’ issues have taken on a life of their own. They have superseded what is right, and have literally destroyed what this nation is supposed to be about, and that is equal rights and protections under the law for everyone. You can’t have that, if you give special consideration to one group, over another.

Back in the early 80’s, a civil rights bill came before president Ronald Reagan, and he vetoed it. Black groups all over the nation, were outraged, and vowed to get him removed from office. The reason they wanted him removed from office is that they felt he was a racist. Well, it never materialized beyond talk, but blacks have disdained Republicans, who looked at Reagan as all that the party stood for.

Now, there was a reason that he vetoed that bill, and it had to do with what liberals were trying to do, that would have caused the black community more problems than the law would have solved. There was legislation in that bill, that would have raised taxes on everyone, including blacks. Liberals had attached that amendment to the bill for several reasons, that will be discussed later in the section on politics. They wanted to make Reagan to appear to be a liar when he promised “NO NEW TAXES!!”

Affirmative action, also a part of the civil rights movement, is nothing more than getting preferential treatment when it comes to hiring, promotions, acceptance in schools and colleges, and in other areas of society.

In this case, where usually tests have to be taken and the scores dictate who is best qualified for these things, thus putting race out of the picture. Blacks felt that they were being discriminated against and wanted special considerations in these areas, and got them.

What this law did, was give each black, a certain percentage point or score, prior to testing, and thereby allowing them to, in some cases, tie the whites in the test scores. Then if they didn't get hired, they could claim that the reason they weren't hired or promoted or accepted in a certain school was because of racism.

It was a common practice for employers and some schools to discriminate against blacks by giving tests for these positions, knowing that no black could pass them because they were not given a proper education. In order for them to get a proper education, blacks would have to attend all white schools, and the liberals weren't having any of it. Remember Gov. George Wallace, a liberal Democrat, standing in the doorway of a public school, to keep blacks from coming in, after president Kennedy, gave the order for the schools to be integrated?? They didn't want blacks to get the same education that their kids got, because it would take jobs away from their (the liberal's) kids. So something had to be done, and affirmative action was the solution.

The problem with this solution however, is little talked about, but yet, an open door to danger. How?? Because it makes way for someone who is not really qualified for some critical jobs, to get those jobs, because they got a boost over a more qualified person.

Example. I don't know who the man is, but he was the individual that got accepted in to a medical school over a white man, whose last name is Bakke.

Bakke, sued, claiming 'reverse' discrimination, because even though he had a higher score than the black man, the black man was accepted, under the affirmative action law. Bakke, lost the court case and went in to another field of medicine.

This black man, went in to the field of gynecology. Well, several years ago, around 1997, this black man lost his medical license for incompetence, and is being sued by the families of two women that died because of what he did to them, and another woman who is maimed for life, because of his incompetence.

While affirmative action may seem like a good thing, it puts all of us at risk, because of incompetent individuals in positions that they shouldn't be in, simply to appease one group of people over another.

Another thing, the law, was not meant to be a permanent thing. However, trying to remove it, is being met with all types of resistance, by those that stand to, in the long run,

be hurt by it the most. Blacks. How?

Among other things, perception. Even if a black, is qualified, and there are thousands of them out there, people will think that the only reason they are, where they are, is because affirmative action got them there. Look at Supreme Court Justice, Clarence Thomas. A man who, made it to where he is, by hard work. He says, and I believe him, that the only reason he is where he is, is because God, put him there.

Yet, the Liberals and many black leaders say, he owes it to affirmative action. And, if he votes to abolish it, he is a traitor to his race.

Then of course we have the fact that many of these unqualified blacks, come back in to the community, and put us at risk, and we never know that they never should have been in these positions in the first place.

In the end, our own kind will be destroying us, while the liberals will steadily be saying, 'we need more laws, and government programs' and 'Republicans are to blame.'

Affirmative action, once again, is a direct violation of God's position on issues like this. Yet, the liberals have many preachers, ignoring what God says, for popularity and fame, in the black community, and politics. After all, if these preachers support it, then, in the mind of blacks, so does God.

Another irony is, now that other groups, have legitimately been declared minorities, they are getting ahead of blacks, and the black community doesn't like it.

The liberals have us fighting each other, while at the same time, depending and trusting them, even though they are responsible for all of this.

**Remember what Willy Lynch said??? "DON'T FORGET YOU MUST PITCH THE OLD BLACK Male vs. the YOUNG black Male, and the YOUNG black Male against the OLD black male. You must use the DARK skin slaves vs. the LIGHT skin slaves, and the LIGHT skin slaves vs. the DARK skin slaves.**

**You must use the FEMALE vs. the MALE. And the MALE vs. the FEMALE. You must also have your white servants and over- seers distrust all Blacks.**

**But it is NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US.**

Lynch's mindset, though wicked, is brilliant.

Because, if you look at the black community today, you will see his plan is still working. We are fulfilling everything that he said would take place.

We fight amongst ourselves. Our families fight amongst themselves. We see kids going against their parents, usually with the help of the public schools, and liberal judges, and

laws that the liberals have put in place. We have parents, killing their kids. Most of our families, are single parent, where the mother is the head of the household.

Our rate of crime, amongst ourselves, is at least 4 times higher than the national average of other groups.

All of this and more, are the direct result of liberals and their policies. Yet, who do you love, and trust??? The liberals.

They are treated like god's.

Anything they say, you believe, without question. They can get you to sacrifice yourself, your kids, your families, and your future, all for the sake of keeping them in power. Some of you, even trust them more than members of your own family

Most of you, that claim to be Christians, don't even do half of that, for Christ.

## JOHN AND MARTIN

It is my belief, that president John Fitzgerald Kennedy and Martin Luther King Jr., were assassinated, because they stood for, or rather espoused something that would totally destroy the Liberal's stronghold on blacks, in particular, and the rest of the nation.

JFK said, "Ask not what your country can do for you, but what can you do for your country."

Martin Luther King Jr. said, "Let not men be judged by the color of their skin, but by the content of their character."

Dr. King also said, "We don't want a handout, just a hand." All of these statements, struck at the core of what the Democratic party espoused.

Notice what Lynch had to say about this, **I HAVE OUTLINED A NUMBER OF DIFFERENCES AMONG THE SLAVES; AND I TAKE THESE DIFFERENCES AND MAKE THEM BIGGER. I USE FEAR, DISTRUST AND ENVY FOR CONTROL PURPOSES. You must use the DARK skin slaves vs. the LIGHT skin slaves, and the LIGHT skin slaves vs. the DARK skin slaves.**

The Democratic party, has an agenda, that simply put, says, 'get as many people as possible, on the government dole. That way, they will always need us.' Lynch said, **But it is NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US.**

**WHEREAS NATURE PROVIDES THEM WITH THE NATURAL CAPACITY TO TAKE CARE OF THEIR OFFSPRING, WE BREAK THAT NATURAL STRING OF INDEPENDENCE FROM THEM AND THEREBY CREATE A DEPENDENCY STATUS, SO THAT WE MAY BE ABLE TO GET FROM THEM USEFUL PRODUCTION FOR OUR BUSINESS AND PLEASURE.**

The survival of the party, has hinged on issues that would, to make it simple, buy the votes of the people. by promising, if they are elected, they would do things, like create programs, to service the people, and pay for them by taxing the rich. This, in effect was political bribery, for attaining votes. This is the same tactic, that they say the Republicans use to get support from the rich, and corporations.

However, when they (liberals) get in to office, they don't even implement the programs, but begin to say that they couldn't do it, because the Republicans, blocked them from it. They say this, in order to get more people to distrust the Republicans, and to get more liberals elected the next time an election comes up. Their hope is, to get full control of the three branches of government. That way, they can go hog wild, with their agenda of enslaving us (blacks, and this nation), to them.

But, JFK, a Democrat, elected to office in 1961, saw the problems that such a mentality

of the people would cause, and urged them, not to grow up, depending on the government, to take care of them, but rather, that they should look on how they, themselves, who are the government, could do things that would make government, serve the people, instead of the people, serving the government.

From the beginning, the people, were to take time to serve in government, for a short term, then go back to their home towns. There was no such thing as a career politician, that made their entire living, as lawmakers. They especially, weren't supposed to be able to vote themselves raises, whenever they felt like it. That is like an employees, giving themselves a raise, and making the boss, pay for it, whether he likes it or not.

After the great depression, and the war, president Franklin Delano Roosevelt, did something that, he said, would guarantee the Democratic party's power for decades. He started, social security, that was designed to help those that were old, and had no money to at least be able to survive, in their later years.

This one act by Roosevelt, has made him, a god, to the Democratic party, and as such, social security, is a legacy that the liberals want to keep around, even though it is going to eventually break this nation.

In order to fund it, he had to raise the money through taxes. Everybody, whether they wanted to or not, had to contribute. He said, it was for their own good, because experience has shown that left up to an individual, they rarely saved any money, and too many of them grew old, and had nothing to live on.

It was, a safety net.

The idea was good but the means to fund it, was where the problems arose. Without going in to too much detail, the funding was doomed from the beginning, in that it relied on workers to fund their own retirement. But, as the cost of living went up, and the raises of those that were on social security went up, so did taxes. And at a certain point, it took more than one worker to fund his or her retirement. That meant that part of another worker's money, was now going to someone else.

When it started, one worker's money, could actually fund 3 people's living. Today, it takes over 3 workers, just to fund 1 person's living, and that is at, or below the poverty line.

JFK, saw this problem, and wanted to rectify it by allowing people to be able to save their own money in banks, or investments, so that they could have a better chance of prospering. Bush's plan about privatizing part of an individual's income, is not new. JFK wanted to do the same thing.

That was not what the Liberals, wanted to hear. They had plans, to keep the charade going on, until the system went bankrupt, then they could enact emergency measures, aimed at taking control of banks, which posed problems, in that they rivaled the government, in benefiting their investors.

However, because Kennedy was so popular at that time, the Democrats, seemed like they backed him, in it. But, by their actions today, it tells me, that they just went along with him, until they could get him out of the way.

Anyway, shortly after that idea was put forth, JFK, was assassinated.

When the government, namely Liberals, got hold of control over the money in the social security system, after Johnson took over, that was the beginning of the problem.

Martin Luther King Jr., was another problem for the Liberal party, in that he also saw the problems with things that the Democratic party, was doing.

First, he knew that many of the racists of that time, had found a home in the Democratic party. He saw that their agenda, was made to look like it was to help blacks get ahead in life, while all along, it was to keep them enslaved.

This is one of the main principles behind the Willie Lynch way of doing things. **'Make them feel like you are their friend, then you can destroy, or keep them supporting you, irregardless of what things actually look like.** And by far, one of the biggest mechanisms to accomplish this, was civil rights.

If ever there were something that Willie Lynch could have dreamed up, to keep blacks in line, civil rights was it.

Once again, it was a good idea, that was built on faulty foundations.

You see, the constitution of the US, states, among all things, that 'all men, are created equal.' That means, when it comes to judging a person, as being fit for something, like a position or job, that it shouldn't be done according to the color of one's skin. The only criteria, besides the fact of the person being able to do the job, is if the person is of good character.

The civil rights laws that the Liberals put in place, under the guise of helping blacks out, was a smokescreen, designed to make us think we got something when in reality, we didn't.

We would listen to some of our own black leaders (the overseers), telling us how they (the liberals) needed our backing to get these laws passed, because they would help us to get ahead. Willie Lynch, had his thumb on their (the overseers) necks when they said it.

It was made clear to them, that if they (the overseers) wanted to keep their jobs, and/or positions, they had better do what they said, and say what they were told to say.

Over the years, I have watched many blacks (the overseers), go to Washington, DC, talking about what they are going to do, only to see them come back complaining they couldn't get anything done, because of the Republicans.

Now, while that may seem to be a legitimate argument, remember this, The Liberals, had complete control of the congress, for 40 years. They also controlled the senate for at least 12 consecutive years between 1954 to 1994. During that time, they had plenty of opportunity to move forward on an agenda for blacks, but didn't, because that was not their goal, neither is it today.

When they lost power in 1994, Richard Gephardt said, and I quote, 'We will do whatever is necessary to get our power back.'

It was that power, that Dr. King saw, and didn't like. He saw that blacks were just leaving one type of slavery, for another. The Willie Lynch variety.

Martin knew, that as long as we were dependent on government, and it was controlled by the Liberals, that we would just barely be able to get along, let alone achieve anything. He was getting through to the people, and they began to resist what the Liberals wanted to get them to do, and the racists in the party, said, that it was time for him to be silenced.

In both cases, here you have men, that were highly loved and revered by the black community, telling them, especially, and all Americans what we should be about, and that flew in the face of what the liberals were trying to do, so, they had to be silenced.

When Robert F. Kennedy, who won the nomination for president, made it known that his views were the same as JFK, he had to be done away with as well.

Anyone, that is popular with the black community, that is a Democrat, had better tow the line of the liberals, or they will not get anything done for their constituents, when they get to Washington, because they, the liberals, will stop it.

Ted Kennedy, has become the worst liberal of all. I believe that he got like this, because he saw what the liberals did to his brothers, and something snapped, and he has just gone ballistic.

Then again, it is possible that he never did agree with his brothers' agenda. But, I don't think he had a hand in their, and MLK's assassinations.

No matter if you are black or white, Republican or Democrat, if you even look like you are a threat to them, the Lynch liberals, will have you destroyed.

Need I remind you of what happened to Abraham Lincoln, as the result of his, freeing the slaves??? And who was it that was behind his assassination?? Those whose lives he ruined, by freeing them. The slave owners.

# THE FAMILY

The most important institution of any society, which is its foundation, is the family. It is so important, that God started out, with it. All things, (animals), started out as family units. It is said of any society, that, 'as goes the family, so goes the society.

In the garden of Eden, it was the serpent that destroyed the family, as God had designed it. Willy Lynch, gave the recipe for destroying the black family back in the 1700's, and today, it is the Democrats, led by the liberals, that are using it.

Let's look at some of what Lynch said, needed to be done to keep the slaves under control.

Lynch uses these remedies:

**Don't forget you must pitch the OLD black Male vs. the YOUNG black Male, and the YOUNG black Male against the OLD black male. You must use the FEMALE vs. the MALE. And the MALE vs. the FEMALE.**

To translate this in to plain English, create situations that cause the wife, to go against her husband, and thus make the husband attack the wife. Make the son, go against the father, and the father to resent the son.

In his dissertation of 'Let's Make a Slave, he target's the black family with his graphic description of "' Let us make a slave. **What do we need? First of all we need a black n-word man, a pregnant n-word woman and her baby n-word boy.** However, today it includes all races. But, it is the plan, and the results, that we want to look at. How do the Democrats, implement it, and then look at the results??

Lynch's first step is, **'we will use the same basic principle that we use in breaking a horse, combined with some more sustaining factors. What we do with horses is that we break them from one form of life to another that is we reduce them from their natural state in nature. Whereas nature provides them with the natural capacity to take care of their offspring, we break that natural string of independence from them and thereby create a dependency status, so that we may be able to get from them useful production for OUR business and pleasure.**

Break the natural state, (or order, and function), of the family. In other words, a direct assault on the family, and family values.

All one has to do today, is look at the condition of the family, and see, something is terribly wrong. We have both parents working. We have kids on the wild. We have women heads of households. We have absentee fathers. These and more, are showing us one thing, and that is we have a plethora of dysfunctional families.

The natural order and function of the family is the way God designed it. The man, as head of the house, the woman as the (helper) housekeeper and care giver.

The husband is responsible for bringing home the money, by working, and giving the wife what she needs, so she can get the things necessary to run the house, cook meals, and to make it comfortable for her husband and herself. If a child is involved, then that is another factor to be considered. That is the natural state or function of responsibilities in the family.

Today, that pattern, has been all but broken. Why?? Because, in order to enslave someone, you have to get them in a position of dependency on you, or some thing that you have control over. A slave that is totally dependent on the master, is less likely to harm him. He will have a fear of losing his safety net, and will not know how to survive on his own, because he has been broken from that way of thinking (This is usually the offspring that will follow this path, because they were never taught the natural functions of the family.)

In the family, Lynch targets the most vulnerable part of that unit, and that is the female. The serpent did it with Eve, Lynch did it with the female, and today, it is still part of the liberal game plan, why?? Because it is usually the woman that has the greatest influence on the husband, and the children, since she is the one that spends the most time with them.

Lynch says this: **‘special and particular attention must be paid to the FEMALE and the YOUNGEST offspring. Both must be CROSSBRED to produce a variety and division of labor. Both must be taught to respond to a peculiar new LANGUAGE. Psychological and physical instruction of CONTAINMENT must be created for both.’**

**‘the n-word must be broken; that is breaking them from one form of mental life to another. KEEP THE BODY TAKE THE MIND!’**

**‘YOU MUST KEEP YOUR EYE AND THOUGHTS ON THE FEMALE and the OFFSPRING of the horse and the n-word. A brief discourse in offspring development will shed light on the key to sound economic principles. Pay little attention to the generation of original breaking, but CONCENTRATE ON FUTURE GENERATION. Therefore, if you break the FEMALE mother, she will BREAK the offspring in its early years of development and when the offspring is old enough to work, she will deliver it up to you, for her normal female protective tendencies will have been lost in the original breaking process.’**

A lot of these principles that Lynch espoused worked, while the female was alone. The husband would be off working in the fields, and the female would usually be in the home. Lynch said that the master should go in to the woman, and provide her with what she needed to care for herself and her offspring. By doing this, the woman would begin to trust the master, or in some cases the overseer. The whole point was to gain her trust.

At the same time, if the master kept the male away from the female for long periods of time, then that trust she had in him, the husband, would slowly diminish, thereby starting the conflict, and breakup of the family. As I have mentioned before, and will continue to mention, is that this same technique, is being used, in a different way, on other races, including whites, today. This is why, this book is not to keep a race war going, but to

draw attention to those, black or white, that seek to gain control over us, for their own gratification and pleasure. The war is against a system that seeks to enslave us all, if left unchecked.

The Lynch way of thinking is 'if you want to break someone, you could beat them until they were broken, but that carried the risk of them rebelling against you at some later time. **The n-word is dangerous even if captured, for they will have the tendency to seek their customary freedom, and in doing so, might kill you in your sleep. You cannot rest. They sleep while you are awake, and are awake while you are asleep. They are DANGEROUS near the family house and it requires too much labor to watch them away from the house.**

If on the other hand, you break them psychologically, then you have very little to worry about. It is these same tactics that are being used on us today, by the liberals.

As Willy Lynch proposed, the ranking, or position of the wife, and husband, would have to be reversed. This took two different paths.

First, the slave owners were shown how to break the man, from being the independent provider for the wife and family.

Here is how he said it should be done. **'I USE FEAR.'** And how does he implement it?? By physical, and psychological means.

**Take the meanest and most restless (n-word), strip him of his clothes in front of the remaining male (n-words), the female, and the (n-word) infant, tar and feather him, tie each leg to a different horse faced in opposite directions, set him a fire and beat both horses to pull him apart in front of the remaining (n-word).**

**The next step is to take a bull whip and beat the remaining (n-word) male to the point of death, in front of the female and the infant.**

**Don't kill him, but PUT THE FEAR OF GOD IN HIM, for he can be useful for future breeding.**

Read the section at the beginning, named **'The Breaking of the African Woman'**, for a full description of what is proposed for the woman.

After all of these are put in place, what is the result that Lynch reveals?? It is this. **What have you got? You've got the (N-WORD) WOMAN OUT FRONT AND THE (N-WORD) MAN BEHIND AND SCARED.**

Now, the roles in the family are reversed. And, as Lynch revealed, the children, will be raised, to keep the condition, going on indefinitely.

Today, the principles are not that extreme, for psychology, and legal maneuvering by liberals accomplish the same thing.

When civil rights laws came in to being, with affirmative action, women, became the minorities that took advantage of it. And once again, the black man, got left in the dust.

If we look at women today, especially in the black community, they have all sorts of opportunities to get and hold jobs, that really should be going to the man. And as a result, the black man is out on the street, jobless, and some times homeless, and angry. And that, my friends spells trouble with a capital 'T.'

He gets violent, and either goes to prison, or is killed. If he is in prison, then he, in effect is back in the status of a 'slave.' Or, if he is killed, that is one less black man to have to worry about. And the fewer there are, the less, liberals have to worry about, rising up against them.

The women won't rise up, because they have children to worry about, and are totally satisfied with their new freedom, from the position, of being some husband's slave.

The woman, sees herself as her husband's equal, if she has one. And that sets up, a sort of competition between them. Especially, if she, manages to get a job that pays her more money than he gets.

Then, envy sets in. . **'I USE FEAR, DISTRUST AND ENVY FOR CONTROL PURPOSES. You must use the FEMALE vs. the MALE. And the MALE vs. the FEMALE.**

Every law that the liberals put in to legislation, though it seems to help, is actually designed to do one thing, and that is keep all of us beholden to, and dependent on them, and the government.

They don't care if it breaks up the family, by pitting the members against each other. Therefore destroying the family, and its values, benefits them. You know the old saying, 'divide and conquer.'

You train up your kids with all the values they should have, then you send to a liberal institution, the public schools, and they undo everything that you have done.

Remember this, the only values the liberals are interested in, is their values. And those values are, them in power, and you, as their slaves.

And as long as you are a slave, you will jump, when they say jump, and won't come down, until they say so.

They tell you who to vote for, and you run out in droves, and vote for them, even though they promise you nothing. They consistently make fools of you, and you don't care. The only thing you care about, is pleasing, 'the master.' And you will sacrifice your family, to do it.

# HOLLYWOOD AND THE ENTERTAINMENT INDUSTRY

If ever there was a means that was the most effective, to get their message out, a message of deception, and downright lies, then entertainment, is it.

Entertainment. What we turn to, after a day of stress on the job. What we turn to, to lift us up out of depression. What we turn to, when we want some peace, and the kids are acting crazy. We, plopp them down in front of the TV, or play some music for them.

At the end of the week, on the weekends, all we look forward to, is some form of entertainment.

Now while entertainment is good to have, we need to realize, that in this area, when we relax, we tend to let our guard down, then we are open to being corrupted, covertly, and even in some cases, overtly. After all, during times of stress, we are on pins and needles, worrying about all sorts of things. Entertainment is our way of relaxation.

We want something, that will soothe us. something that will make us feel at ease. No one is thinking about being on guard, when we just let our minds, take in and absorb something that makes us feel so good.

And, here is where the liberals, really get us to fall in line with their line of indoctrination.

Entertainment, provides the perfect means, to covertly, indoctrinate those that are not aware of the subliminal messages that it relays to our minds.

Liberals will say it is silly to believe that entertainment can influence us in any way, that causes us to behave, contrary to our usual nature. They say, it is just entertainment.

Yet, if we look at the actions of our kids especially, and then, carefully look at, or listen to, the most popular music, movies, TV shows, or even games that these same kids gravitate to, you will see, just where they got the ideas for their actions from.

Let us remember, the bible tells us that David, used his music, at times, to comfort king Saul, when he, Saul, was depressed. **1Sm 16:23 And it came to pass, when the evil spirit from God was upon Saul, that David took an harp, and played with his hand: so Saul was refreshed, and was well, and the evil spirit departed from him.**

We know from experience, that today, music, is used in all sorts of ways, to change our moods.

We can look at the effects of gospel music, and how it has redeeming qualities, to change our moods, or heighten them, depending on the circumstances. It can make us joyful,

when we are sad. It can bring us to tears, when we consider some occasion, like a funeral for a loved one, or in church, when its message is, that we need to repent of our sins.

No one has any problem with it, when something positive, is coming out of it. But, let it be said, that something negative, is the result, and then you hear that, that is impossible.

Is it?? Let me ask you parents this?

If you had a teenage daughter, and she had a boy come over to your house to visit, while you were there, and he began to proposition her, right in front of you, by telling her what he wanted to do to her sexually, how would you feel??

You would probably throw him out of the house. Right??

Well, some music, that our teens listen to, is saying the exact same thing to her, or in some cases, him. But, because it is packaged in the form of music, you think nothing about it.

The truth is, the artist, is usually relaying his, or her thoughts to those that listen to their music, this same message.

Now, if you hear it only once or twice, then there may not be that big of a problem. But, to consistently hear the same thing over and over, hour after hour, day after day, will tear anyone's resistance down. It is the same thing as peer pressure being applied to them, by way of music.

Peers, have a substantial effect on our kids, either good or bad, depending on who they hang around with.

Well, since we need entertainment, just about everyday, then, depending on what type of entertainment is chosen, will determine our actions.

The same thing goes with movies. But, they are even worse.

Why??

Because, not only do you hear, negative, and positive ideas, you now have another factor added, and that is visual.

Just like music, relays the thoughts of the composer, and artist, movies, relay the same thing, from the writer, producer, and director.

Video games, are also just as bad as the movies, because they present both sound, and visual effects.

It is one thing, to hear about something happening, either bad, or good, and another, to be present when it happens.

Now, my point is, liberals, in order to keep the black community, especially, under their thumb, will use whatever tools that are available, to achieve this goal. They have no qualms about, using violence, to do it. Naturally, I don't mean that they resort to violence themselves, but that they promote, and defend the very things that are conducive to a self destructive nature. Which simply means, they support our destroying ourselves.

You take anything in our lives, that is right, and just, like our Christian beliefs, and family values, and see what kind of songs, TV shows and movies they produce, to counteract, or better yet, attack our beliefs.

Have you ever seen a pit bull, attack something, or someone?? Do you see how, once they get a grip on it, or them, that you usually have to kill the animal, to get it to turn loose?? Well, that is the way the Lynch liberals are about attacking our beliefs and values.

If they see anything positive, they will attack it. And if they feel that they are showing themselves for what they are, and we see it, they will resort to covert means to tear them down.

Even when it is obvious that something is well liked by the general public, they will not acknowledge it.

One example of their not acknowledging something positive, is the case of the movie called, "The Passion of Christ."

This movie, dealing with the last 24 hours of the life of Jesus Christ, was one of the highest grossing movies in Hollywood. It was also attended by record numbers of people, and had excellent revues, from the general public.

However, when award time came around, it never received even one nomination for anything, let alone an award.

Why??

Because the liberals, that control Hollywood, and that includes many actors, and producers, do not like those type of things, so they are certainly not going to give them any awards, to justify them.

There are TV shows, that are produced, for the express purpose, of coming in to your house, to corrupt you, and your children.

TV shows like 'All in the Family', which from the offset, struck at the traditional, family, portraying the head of the house as some sort of bumbling, racist bigot, who always misquoted the bible, and a wife, that wasn't quite 'all there' in her mind, and a daughter that was married to a man, that was an agnostic, that always questioned anything that the man said, when it came to moral values.

The whole purpose of this show, and an offshoot called 'Maude', that had a woman, that

was a relative of the wife on 'All in the Family', that occasionally showed up on the 'Family', to make the husband look like a buffoon. She, had a husband, and from the implications, she really ran the house, while her husband, seemed to be a little compliant to her every wish.

If he didn't do something the way she wanted him to do it, or if he offered any resistance, she got even with him.

This is a direct strike at the family, and its relationships. Not to mention all the different situations that arise, where moral judgments are brought in to question. Everything that we hold as correct in family life, is maligned.

And you, and your kids, sit in front of shows like this, and let me say, this is only the tamer versions of what is available, and think, 'it is only entertainment.'

Ever been to a 'rock concert??'

If you have, you can see, just how certain music, can affect people in such a way, that makes it look like they have lost their minds. People, usually teens, who, under normal circumstances, are quiet, peaceful, and rational, will turn in to mindless, reckless, lunatics, that have no sense of reality.

They will jump around, run, scream and holler, and in some rare instances, injure themselves, and others, while under the influence of this vehicle of, 'entertainment.' And yet, we are told that 'music, doesn't affect people in such a way, that they act, contrary to their nature.'

What they are saying, without realizing it, is that this music, brings out the deep hidden nature, that is in all of us. It plays to it. It feeds it. It nurtures it.

Think about it.

The music, is really a reflection of the thoughts, ideas, and the deep rooted nature of those that compose, produce, and play it.

How else, can you explain, girls, and young women, accepting, and purchasing records

and CD's, and flocking to concerts, in which they are portrayed as, and treated like, '[b-word]s, hoe's, and every other gutter name you can think of, by the artist's themselves??

And, in too many instances, the messages delivered by it, are designed to do just what Willie Lynch said needed to be done, and that is pit the children against the parents, the male, against the female, and more.

Well, in this country, as liberals pursued their positions of power, they met with strong resistance to a lot of things they wanted to do, because families, were united and strong in what they believed. So, the liberals set about to put the family at odds with each other.

**Remember Willy Lynch said, DON'T FORGET YOU MUST PITCH THE OLD BLACK Male vs. the YOUNG black Male, and the YOUNG black Male against the OLD black male. You must use the FEMALE vs. the MALE. And the MALE vs. the FEMALE.**

Because, if parents, try to stop their children from listening to this garbage, then, rebellion may come in to play. The child will say the parent is an old fogey, or something along that line. The parent doesn't understand them, they will say. The parent had their type of music, that they liked when they were young, so why shouldn't they??

This is one of the reasons, when 'rock and roll' first came out, people, especially Christians, called it the devil's music. They could see where it would lead to.

But a blind nation, accepted, and nurtured it, as a new born baby. Now that it is grown up, we see that we should have, 'aborted it.'

All of this, is destroying the moral fabric, and family values of the black community primarily, and the nation, as a whole.

And, if someone speaks against this mess, and wants it banned, or at least, regulated, it is the 'liberals', that jump out and defend it, usually saying, it is, art, or freedom of speech.

By the way, the same can be said for movies, and TV shows, as well.

## THE INTRODUCTION OF FEAR

### I USE FEAR, DISTRUST AND ENVY FOR CONTROL PURPOSES

**T**ake the meanest and most restless (n-word), strip him of his clothes in front of the remaining male (n-word's), the female, and the (n-word) infant, tar and feather him, tie each leg to a different horse faced in opposite directions, set him a fire and beat both horses to pull him apart in front of the remaining (n-word). The next step is to take a bull whip and beat the remaining (n-word) male to the point of death, in front of the female and the infant. Don't kill him, but PUT THE FEAR OF GOD IN HIM, for he can be useful for future breeding.

**You've got the (N-WORD) WOMAN OUT FRONT AND THE (N-WORD) MAN BEHIND AND SCARED.**

FEAR, the single most paralyzing emotion that a man can experience, or use.

There is nothing like it. And Willie Lynch knew this, and he used it, to keep his slaves under his control, with very little, if any opposition from them.

Remember, the slaves were from another country, and many of them were the equivalent of warriors. And as being such, they had an inbred nature to fight and destroy any one that tried to conquer them. This is why, all of the slaves had to be, broken, when they got here. And in that breaking process, many of them were killed, because they would rather die, than to be enslaved. And since this translated in to a loss of money, something had to be done to contain it.

Enter the Lynch doctrine, and the use of fear.

As you can see, in the above passage, he had a foolproof plan, that would most definitely, turn the mind around of any slave that witnessed this action, and it did. Those among the slaves that were considered the toughest, meanest, and most feared, by not only the slaves, but owners as well, were, taken and displayed to the other slaves, then drawn and quartered, tarred and feathered. And, since the woman witnessed this, she had the incentive to, above all other things, to protect her baby male child, to keep the same thing from happening to him when he grew up. So, she would instill in that child, to obey and submit to the master, so that he may live a long life in service to the master, the white man.

Today, the liberals are using fear, for the very same reason, even though they aren't employing the same methods. However, the methods that they are using, are just as effective.

Whenever liberals are faced with any sort of credible opposition, from Republicans, which is usually 100% of the time, they launch in to a campaign and crusade of fear mongering. This sort of reminds me of the puff adder snake, who, when it feels

threatened, will first act as if is about to attack, hoping to drive a potential threat away. And then, if that fails, it falls down, rolls over and plays dead.

Any way, liberals have this fear mongering down to a science.

Through years, rather decades of political posturing, and positioning, they have gained a superior foothold in the art of deception deceit, and fear. Because, in order to put fear in to someone today, without physically using the tactics of Willie Lynch, you have to make them believe, almost the same thing, and that is, without them (the liberals), they would be unprotected, from those that would seek to destroy them, namely the Republicans.

And, because of that, people tend to go against what is right and decent, all because of fear. They abandon common sense, and support the very ones that they should really be turning from.

We have really seen what the liberals are capable of after the elections of 1994, when, for the first time in 40 years, they lost control of both branches of government in Washington (the house, and senate) and were now a minority. This was a nightmare. Never, in all their wildest dreams did they think they would lose the power that they had.

So, now, they figured it was time to, pull out all the stops, and attack with a vengeance, everything that had taken the trust of the masses from them, and given it to the enemy. Whatever it was, they had to take it, and twist it, and weave a plan of deception, to make all of these things, appear to be, not a blessing, but a trick of the enemy, to destroy them (the people, mainly blacks).

It is easy for them to accomplish this, especially when they have really prepared us for this type of onslaught, through their system of educational indoctrination.

It is this indoctrination, that has set us up, for them to be able to deceive us the way they have. How else do you explain us looking at a blessing, and calling it a curse?? How else do you think they can get groups, whose agenda, if fulfilled, will destroy each other, to work together, with the promise of support from them, the liberals, if they will get their members to vote them back in to power?

Examples of this are, environmentalism and animal rights activism, and unions.

Here we have 2 groups of people, environmentalism and animal rights groups, whose agenda, is to effectively, put big corporations out of business, because they adversely affect the environment, and animals. If big business, goes out of business, then, millions of union members will lose their jobs. Unions, on the other hand, have a vested interest in, job security. They want to have jobs for life, while at the same time, joining with the other two groups, to destroy their own membership's jobs. Then, when their membership shrinks, because of lost jobs, who do they blame??? The Republicans.

Remember the case of the spotted owl?? Or how about how the price of automobiles skyrocketed, after laws were passed, requiring pollution control devices on all cars to

bring pollution levels down to specific levels?? Lumber companies went out of business because animal rights activists, went to the liberal controlled congress, back in the 80's, and got them to pass laws to protect the trees that this owl lived in, which were the same trees that the companies used to produce wood, that builders used to build houses, make paper, and furniture.

The animal rights activists claimed that the owl, could only live in these specific trees, because they were old trees that had been around for 50 years or more. They were implying that the owl, was somehow, too stupid to move to other trees, if their trees were chopped down. So, thousands of union members and their families, not only in the logging industry, but the building, and furniture industries, lost their jobs, for lack of business. This, because with less supply, and more demand, prices went through the roof. When that happened, fewer people wanted the product. That led to more layoffs.

We complain about all the taxes that are taken out of our paychecks each week, yet, when a Republican, offers to give us back some of our money, through tax cuts, we turn it down, because we are told, it is a tax cut for the rich.

Fear, fear, fear.

They tell the elderly, the Republicans want to take away your social security. They want to take away your Medicare, and Medicaid. They tell them, you will have to make a choice between eating, and getting your medication.

The tell women, the Republicans want to take away your right to have an abortion. They want to keep you as second class citizens, to the rich white males. They want to tell you how to raise your kids. They want to take your kids away from you, if you are a single parent.

They tell blacks, the Republicans want to take away affirmative action, and put blacks back in to slavery, by abolishing your rights. They want to take away all that you have achieved, over the past several decades.

To the unions, it is the loss of their jobs, and lowering of their members' standard of living.

To the gay community, it is the threat of their being, opened up to all types of discrimination. Threats of violence against them, would increase, because laws protecting their rights, would be overturned.

No matter what group they are talking to, they have a message of fear, if the Republicans get elected, or stay in power.

And, since the people aren't educated enough to realize that most of what is wrong in this nation, is because of them (the Democrats), the people, being overcome with fear, fall right in, in lock step behind their real enemies, the Democrats, and follow their direction.

The bible addresses this issue when it states, **Hos 4:6 My people are destroyed for lack of knowledge: because thou hast rejected knowledge, I will also reject thee, that thou shalt be no priest to me: seeing thou hast forgotten the law of thy God, I will also forget thy children.**

Fear, is usually, the result of facing something that is unknown. And, as we face problems, that ultimately, will cause us harm, we will do whatever it takes to avoid it, at all costs.

The problem is, if we are trying to avoid harm, then we need to know, which paths to take, that will keep us from it.

If we are in fear of something that is imaginary, and we are steadily moving, and hiding, and supporting someone that we think is our friend, who is telling us that harm is coming from a certain direction, and we don't know any better, then we are at that person's mercy.

Those that are educated, that have knowledge of where the, 'real harm' is coming from, can't be fooled. And, if they are friends, they will try to tell those that are less educated, what they need to do. That is a true friend.

And just like the bible verse says, the people were destroyed, for a lack of knowledge, because, among other things, they rejected the warnings that God sent them, through those that, He had dispatched to them to tell them the truth.

Most of us, are suffering, not because we don't know, but rather, because we reject the warnings of those that God has sent us, and choose to believe a lie.

**2 Th 2:11 And for this cause God shall send them strong delusion, that they should believe a lie:**

**2 Th 2:12 That they all might be damned who believed not the truth, but had pleasure in unrighteousness.**

And, because of this, God, will not only allow you to, but will actually, cause you to believe a lie, by providing you with the delusion that it is the truth, so that you will be damned (cursed).

You wonder why you are having all of the problems you are having, and how you can't seem to escape the bondage's you are in??? It is because of your rejecting the truth.

And, in the case of the Lynch doctrine, **But it is NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US** is designed to help you to continue to believe a lie, and put all of your trust, in those that are actually out to destroy you, talking about the Democratic party, this is exactly what they want.

Why do they the liberals), have to risk showing their true colors (racists), in trying to keep us in slavery, when we willingly, give them what they want, by continually voting them in to that position?

## SEPARATION OF CHURCH AND STATE SCAM

**T**his area, is especially close to me, because as a minister, I know, that all things that we as a race, black, white, and the rest, suffer, are a direct result of our disobedience to the principles that God has set before us, to follow.

Now, from the offset, let me say this. There are things that we do, that open us up to problems, and even when we are doing what we should be, according to God's word, problems still come on us. However, the size and severity of the problem, and how we are able to stand, in the midst of those problems, all depend on whether we are walking in the paths of righteousness, or in the frame of mind that most of those that support this so-called separation of church and state, are walking in.

This type of thinking, is actually demonic, because what it's really saying, is, that we feel that we don't need God, in our governmental affairs. It is not a separation of church and state, that these people are backing, but a separation of Jesus Christ, and state.

The reason I say that, is because, you can go around to public schools, and other governmental activities, and see, people of other religious beliefs, wearing their religious clothes, which is an outward demonstration of their faith, but let a Christian bring a bible in to a school, or to one of these other public functions, or even wear a shirt with a picture of Jesus Christ, or some bible verse printed on it, and in the case of children in school, the one that gets sent home, is the Christian.

A school in California, I believe, shortly after the 9/11 attacks, in an effort to assure Muslim students that we were not anti Muslim, directed its students, to study the Koran, and take part in some of the activities, Muslims, participate in, for 1 week. This was supposed to be something like sensitivity training, for the students. Other schools, and I am talking about public schools, have invited the likes of Louis Farrakhan, and other religious leaders of other faiths, to speak to the students. But, if a Christian, is asked to speak, up pops the ACLU, and says no!!! A teacher, on break, in a teacher lounge, was fired, and the teacher's union, did nothing to defend her. What was her crime?? She had the audacity, to be reading a bible.

God warned about the persecution, that those that believe in Christ would suffer, and we are seeing that, all over the place. But there is another warning that He also spoke about, and that is to those that are the persecutors. That warning is contained in, **'Mat 18:7 Woe unto the world because of offences! for it must needs be that offences come; but woe to that man by whom the offence cometh!'**

It is the idea that the black community is suffering not only because they have been duped by the Democratic party, but they have been duped by many of their own religious leaders, who are the pawns (or overseers), if you will of the liberal masters of the Democratic party, in to joining in with this foolishness, and as a result, begin persecuting those that are standing up for Christ, and bring more problems on themselves, from God.

Then these same liberals, tell them, 'support us, and we will give you more money, create more programs, and provide more backing for you to get out of the mess you are in.'

In other words, what the liberals are wanting us to do, is, essentially, cut our own throats.

No one, can win when you are going against God. And this nation should know that. But, the lessons have long been forgotten, talking about what many of these same people have read, and been told about, in bible stories. Plus we have examples of nations today, that are atheistic, and founded on some other religion, and without a second thought, I can tell you, that all of them, look to this nation, to help them with the multitude of problems they are having. Problems stemming from one simple fact, and that is, they don't know Jesus Christ. And I am talking about in relation to His being the Son of God.

This nation has been blessed because we do believe that, or at least, at one time we did. But, this big push to get away from the source of this nation's blessings and strength, is having serious consequences for those doing the pushing, and those that support them.

Crime, in the black community, goes far higher than the national average, for other races of people. The incidents of death from high blood pressure, stroke, heart attack, diabetes, colon cancer, and other diseases, is also at least twice as high as the nearest other group. Then we have the highest rates of infant mortality.

Science and every type of group is trying to find out why this is, especially in this nation. They have searched and searched, but can't find the missing link, if you will.

Well, the missing link is obvious to those of us that look beyond the physical, or worldly realm for the answers.

God, has shown me, where the problem is, and it is this.

Out of all the different races in this nation, only the black community supports a political party, whose values and agenda, are totally against what God says, at a nearly 2 to 1 margin over the other races.

Most of the other races, are split at about 45 to 50 percent support of this party, talking about the Democratic party. The black community supports this party by 92 percent.

That means that those that support the Republican party, a party that is closest in line with what God says, is only supported by about 5 percent of the black community. The others would rather vote for independent candidates or not vote at all, rather than vote for a Republican, if they didn't like the Democrat that was presented to them.

My point is this, the black community is suffering so much, because they almost, entirely, support the anti God agenda of the liberal Democratic party, and refuse to support, or even acknowledge, a need for true, God fearing politicians, who are not afraid stand up, for God, and use what they have, to bring this nation, back in line with the principles that God says we need, in order to be blessed.

What is happening in, and to, the black community, is just what Willy Lynch, would like to see happening. We are constantly fighting amongst ourselves, killing each other, and dependent on the very ones that are causing our misery.

Now, on the national level, what has been happening to this nation, is just what we deserved.

Let's look at what happened on 9/11.

First, we had, what appears to be a total breakdown of intelligence, on the activities of the terrorists, that managed to get past all types of security points, with whatever weapons they used, to hijack the four planes they did.

There were all types of red flags being waved, all the way, prior to that day. Some were learning to fly planes, that only wanted to know how to pilot them, while not learning how to land one. They were of middle eastern descent, and paid for the classes with cash.

There were numerous attacks against us, and our interests, abroad, that would signal that we need to be on high alert, especially after the World Trade Center, was bombed, the first time Feb. 26, 1993.

Now, in these two instances, and other attacks, the only reason all of this intelligence failed, is that God, allowed it to happen. Why?? Because we don't need His help, so He stayed out of it, and let us go it, alone.

What you need to understand, is this, if God doesn't protect you, or keep you in your right mind, you can't do anything. You can't even think straight. God will blind you to obvious dangers, until they destroy you.

The bible is full of instances, when an enemy set out to destroy Israel, and God destroyed the enemy, before they got a chance to do anything. Then, there were times, when Israel, was disobedient to Him, and God allowed the enemy to capture them.

Does any one remember the saying, 'those that don't learn from the mistakes of the past, are destined to repeat them.'

The black community has been enslaved, and is still in bondage to the principles of Willy Lynch, because it refuses to face the fact that those that it has put its trust in, are the personification of all that it hates. Because if the black community has to face up to that fact, then that makes them look really stupid. So, they cling to the belief that it is not them that is the problem, but the Republicans. When faced with the truth, they yell

the only thing they know, racism!!!

Just like that slave that risks his life to save the master's house, even though the master won't let him in it.

But, the real problem is, since the black community so aggressively pursues and supports a party, that so consistently backs the idea of keeping God out of public affairs, then they are suffering God's wrath, and don't even know it, because the overseers (black preachers), don't say a word, thereby being the real cause of what the black community is suffering, and not the Republicans.

For those of you that don't know what that means, look at what the bible says, **Psa 127:1-2 Except the LORD build the house, they labour in vain that build it: except the LORD keep the city, the watchman waketh but in vain. It is vain for you to rise up early, to sit up late, to eat the bread of sorrows: for so he giveth his beloved sleep.**

If God, does not help you build the nation. The nation will not stand. If God does not help you to have prosperity in the nation, then everything we try to do, will fail. If God does not help us in the education of our youth, then they will come out of the system, and be too ignorant to achieve, their full potential. If God does not, help us with the crime, sickness, and other things that are destroying us, then we will be seeking these cures, in vain.

The psalmist writes, **Prv 1:24 Because I have called, and ye refused; I have stretched out my hand, and no man regarded;**

**Prv 1:25 But ye have set at nought all my counsel, and would none of my reproof:**

**Prv 1:26 I also will laugh at your calamity; I will mock when your fear cometh;**

**Prv 1:27 When your fear cometh as desolation, and your destruction cometh as a whirlwind; when distress and anguish cometh upon you.**

**Prv 1:28 Then shall they call upon me, but I will not answer; they shall seek me early, but they shall not find me:**

**Prv 1:29 For that they hated knowledge, and did not choose the fear of the LORD:**

**Prv 1:30 They would none of my counsel: they despised all my reproof.**

**Prv 1:31 Therefore shall they eat of the fruit of their own way, and be filled with their own devices.**

**Prv 1:32 For the turning away of the simple shall slay them, and the prosperity of fools shall destroy them.**

**PRV 1:33 BUT WHOSO HEARKENETH UNTO ME SHALL DWELL SAFELY, AND SHALL BE QUIET FROM FEAR OF EVIL.**

If you notice the last verse, even in the midst of the mess that this nation is suffering, those, in the black community, and other communities, will prosper, and have peace of mind while everyone else is running around with in fear, and not knowing what to do.

That is the message, the preachers, that support the Democrats, are not telling their people.

Then, we have this, **2Chr 7:14 If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land.**

Do you see the message here???

Christians hold the key to whether this nation is blessed, or cursed. Yet, in the black community, where the so-called black church, with their influence in the black community, is silent, and not pursuing what God says they need to, to prosper.

And as long as they keep quiet, then the liberals, and Willie Lynch, win.

## A LOOK AT THE DEMOCRATIC PARTY

The agenda of the Democratic party, is one, that Willie Lynch espoused, to slave owners over two hundred years ago.

He told them, essentially, 'In order to keep blacks in their place, pretend to be their friend. Tell them not to trust others, only you. Do things that will show them that they can trust you, while at the same time, breeding distrust in them, for others, even others of their own race. This plan, would, break the unity that they may have with each other, which will make it easier to keep them from organizing to overthrow you, or run away.'

One would only have to look at what party, most, if not all of the slave owners, and their henchmen joined, when they decided to get their power back, and institute a new form of slavery, through legislation. They joined the Democratic party. They are known as liberals.

If you'll look closely at the things that they espouse, under the guise of helping the poor, elderly, and other groups of people, that are, in their words, 'disfranchised', and would look at how they intend to achieve these things, in order to make us, and others, solely dependent on them, you would begin to see a systematic mechanism, designed to enslave all of us, not just blacks.

The liberals know, that as long as they can have people depending on government, under the guise of caring, their jobs are guaranteed, **'we break that natural string of independence from them and thereby create a dependency status.'** What they don't want, is for people to become self sufficient, and prospering on their own. Thus, they institute all sorts of roadblocks, and potholes, to deter people from getting away from government assistance, while at the same time, leading us to believe that it is the rich, that are responsible for keeping us back.

Some time back, I heard that the welfare agencies, were actually going around trying to recruit people to get on welfare, why?? Because these, bankrupt from jump street, agencies, have become so big, and take so long to approve applicants, with all the 'red tape' and there is very little accountability, that people just decided to get jobs, or survive by other means, rather than depend on government.

With no accountability, millions, if not billions of dollars have been misrouted, embezzled, and otherwise lost, and no one knows anything about how, or who is behind it.

The federal government, is the largest employer in the nation. It has over one million employees. It spans, not only the military, but social security, family independence agency, law enforcement, education, health and human services, and many others. Just about every area of our lives, brings us in to contact with them.

And with all of these employees, comes the need to pay them. And you know where the money comes from? Us.

Now, many of us, know, from personal experience, that dealing with the government, as far as in the area of services to the poor and needy, that they have some of the most incompetent, arrogant, and down right, poor excuses for employees. And these people, make you want to go off on them, or just not deal with them at all. But, since you need their services, you have to. grin and bear it.

You ask, 'where do they get these people???' They get them from institutions that they have set up, to ensure that the ones that they hire, aren't competent enough to know when something sneaky is going on, as far as money is concerned. They get them from the public school system, and even from their own client roles. That's right, some of their clients, apply for jobs with them, and get hired.

Many of these 'clients' have little or no education, especially in the areas of math and social skills (dealing with others), and can easily be manipulated in to following the line of liberal thinking.

As it stands right now, out of every dollar allotted for welfare, over 72 cents, goes for administrative costs, [salaries, benefits for employees, and other overhead] That means, if I give you a dollar, then you will get the whole dollar. If I give the government that same dollar, to give to you, when you get anything, it will be 28 cents, or less. That is why welfare recipients, can barely eke out a living with what they get, while you and I are being taxed to the hilt. The ones that need the money, aren't getting it.

Every time Democrats run for office, especially if a Republican is running against them, they resort to all sorts of 'dirty' tricks and outright lies, to get you to vote for them. When running against Republicans, they try to frighten you in to believing that what the Republicans plan, will make you poorer, and make the rich, richer. They will go so far as to dig up dirt, and if there is none, within the recent past, say the past year, they will go back 20 years or more to find something, or make something up.

Most of the black community, is so brainwashed by the Democrats, that no matter how outrageous, the claims are against the Republicans, they believe it.

Nothing could have been more obvious than the infamous budget battle that was waged by the Democrats, in 1996, shortly after they lost control of Congress, and the Senate, after over 40 years. They vowed to get their 'power back', and this was the first opportunity to do it. If they lost this round, then there would be no hope of ever getting any semblance of their foundations back in place.

When the Republicans talked about reforming all of these antiquated programs, and doing away with others, that were obsolete, and giving tax cuts to the people, the liberal Democrats went ballistic.

They started out with their fear tactics. They were saying that the Republicans, led by Newt Gingrich, were going to starve the old people, and the children. We were going to lose our houses. The water was going to be poisoned, and people would die. Health care would diminish from the already poor condition it was already in. Then they added in,

their old favorite, 'the race card.' They likened it to the KKK coming to drag us out of our houses, and take them over, leaving us in the streets. They went the whole 9 yards. The result was, the black community, got so fearful, without even hearing the other side, you called, and sent letters to Washington, demanding that these things, be stopped. Just what the liberals wanted, and you succeeded. Now here it is, nearly 10 years later, and you are worse off than ever.

When Republicans tried to explain their programs to us, your leaders, and their henchmen, yes they have henchmen, (the overseers, black preachers) stirred the people up, to shout them down so no one could hear them, even if they wanted to. Much like the religious leaders, stirred up the people to shout down those that were trying to defend Christ, while the religious leaders were urging the people to ask for Barrabas to be released to them

All of this is a well known fact. There is no question about it. The liberal Democrats, don't want anyone to know what they are really up to, so they camouflage it behind a maze of government run programs to make it appear that they are really trying to help the black, and other minority communities.

In truth, the liberals, despise the black community, but, seeing that they have kept us in the dark, and can use us for their advantage, then they put up with us, while at the same time, having a 'leash' if you will, around our necks. They will only let us go so far, then they pull in on that leash, and we, like little dogs, sit down, and they toss us a bone, and we are happy.

Now, what really gets my goat, even more than that, is the fact that many of our black leaders, are the willing accomplices in all of this.

I liken them to the overseer of the slavery days, that keeps the rest of the slaves in line, for the master, until needed. We have the likes of Jesse Jackson, Al Sharpton, John Conyers, Maxine Waters, Major Owens, much of the NAACP, and the list goes on, that seem to be at the beck and call of the liberals, to do one thing, and that is, keep blacks, voting for them [the liberals], and for their efforts, their organizations, get a little play from the Democrats.

For about 42 years, the Democrats, had the power, to advance the black community's standard of living, but didn't. Why???

The only reason, is that, that was not in their agenda.

However, in '94, when the Republicans took over, then the liberals, called out their dogs, to get us in line again, with the promise of advancing that agenda. However, they really didn't want that to be a promise that we could count on, so they resorted to putting fear in to our hearts, talking about what the Republicans would do, if they passed any of the things that they said they would pass, and it worked.

Jesse, and all the other black leaders, started calling what the Republicans were planning,

'racism.' And once again, the majority of blacks fell right in line with their leaders. The bible talks about the blind, leading the blind, and both of them shall fall in the ditch. The problem is, that we are already in the ditch, and the liberals, with our leaders, are keeping us there.

It is far more acceptable to believe that our 'leaders' are ignorant to what is going on, than to believe that they know, and are actually co-conspirators with the liberals, to keep us in our place, which is under the 'massa's' feet. The end however, is the same. We remain in bondage to people, that we were set free from, decades ago. And it is a situation, where, after some have been set free, they return to 'massa' because dealing with the idea of having to be accountable for one's own actions, is something that is frightening to them.

Recently, we saw the full extent of their desire to keep us all under their control, and the ramifications of what happens when they don't get their way.

Some time back, an election was held for president of this nation. I'm talking about election '2000.'

As the case is with all of the elections that they run in, the liberals started out, with digging up dirt, on all the Republicans especially the Republican presidential candidate, George Bush. They saw him as the son of a former president, that had literally squelched their attempts to prove that the Republicans couldn't do anything right, and that we all would suffer if they stayed in power too long.

The liberals were already put in their place by Bush's predecessor, Republican Ronald Reagan. With Bush as his vice president, Reagan put them to shame, by consistently coming before the nation and exposing them for what they were trying to do, and that was to keep raising taxes on us, and creating burdensome programs that were far too intrusive in to our private lives.

Even though they controlled both houses of Congress, Reagan whipped them in line, by turning to the people. He had a philosophy of, 'if you explain to the American people, just what it is you are trying to do, and give them the whole picture, then they can make the right decisions.' This is the exact opposite of what the liberals think. They think we are too ignorant to make the right decisions, or that if we are intelligent, then they have to keep the truth, from us.

Reagan's main weapons against them, were his likeability, his openness, tax cuts and the fact that he meant what he said, and didn't deter from it.

The Democrats tried to trick him in to going against his own promise of not raising taxes, by affixing a tax increase on to a piece of legislation, that was called a 'civil rights bill.' They figured, if he signed the bill, which they were sure he would, seeing that all presidents in the past had done so, then they could go back and tell their constituents that Reagan went back on his word, and raised taxes. They knew, that if he vetoed the bill, that would be political suicide.

Let me explain something here. There has been a battle between presidents, mostly Republicans, and Congress, mostly Democrats, over one small, but, key issue, and that is, the 'line item veto.'

What this is, is a provision that allows a president, to remove any part of a piece of legislation that comes before him, and pass the remaining part. To get this permission, Congress has to pass a law, which the Democrats, staunchly refuse to do. That way, any bill that is likely to pass, because of its importance, usually has a lot of what is called 'pork barrel spending' or tax increases added on to it. As a result, the bill has to be passed in full, or vetoed. It's like throwing out the baby with the bath water. All or none.

Well, when this 'civil rights bill' came before Reagan, he vetoed it.

The liberals went to the black community saying that Reagan vetoed a 'civil rights' bill. To this day, despite all the good that came from his presidency, that helped blacks more than any other president in modern history, the one thing that gets harped on by the NAACP, Operation PUSH, and other black organizations, affiliated with them, is that he vetoed 'civil rights legislation.'

Reagan would have signed the bill, if he could have removed the tax increases, and pork barrel spending. It was clearly a means to destroy Reagan, but it backfired. Because Reagan got elected for a second term, then his vice president, got elected, the message was, 'it didn't work this time.'

Not to be defeated, they, still having control of the senate, and Congress, started using another tactic. This tactic was, to hold up any legislation that the president might want passed, unless he compromised on his stance of not raising taxes.

When Reagan took office in 1980, the median tax on income was about 70% for the rich, and 55% for the middle class, and if you can remember, we were in a recession. Reagan made it clear, he was not going to compromise on cutting taxes. Because he stuck to that promise, he stayed in office 8 years. George Bush followed on that promise with his famous words, 'Read my lips, no new taxes.' The liberal Democrats knew, that if they didn't get him to back off of that pledge, their chance of regaining the presidency, would be slim, at best.

Another thing that really helped Bush's popularity, was the Gulf war, which was executed to near perfection, defeating an enemy that was said to be the most formidable army that we have ever faced. They were saying this, because of the area where the battle would have to take place.

Bush picked the people to lead the forces, and we won. His winning the next presidential race, was written in stone. Then came the Democrats with their positions of not passing any legislation, without a tax increase.

After trying to reason with them, and getting no where, Bush compromised on the tax issue, and increased taxes by 500 billion dollars, the largest in history. That one

compromise, had the Democrats rejoicing in the aisles.

When he was up for re-election, the Democrats wouldn't let anyone forget that Bush couldn't be trusted. Therefore, that, coupled with angry Republicans, who stayed home, or voted against him, led to his defeat, and enter Bill Clinton.

With Bill Clinton in office, and their still controlling both houses of Congress, they set about to take control of country's health care system, with a national health care program, geared to making them look as though they care about us, when in reality, they wanted to gain control of one seventh of this nation's economy. With that, there would be no stopping them. Anyone that controls the health care of this nation, quite literally controls the nation. What it really was, was a sort of power grab.

Once it was revealed for what it was, by the Republicans, their plans were rejected, and they had to back off.

With that revelation fresh in their minds, and the indictments of many of the Democratic leaders, the public, voted the Republicans in to control, for the first time in over 40 years.

The Democrats, were in shock. They couldn't believe that they were, for the first time, the minority. Many of them, accepted their fate, while the liberals, vowed to 'do whatever it takes to get our power back.'

That threat, wasn't more evident, than their all out assault on the Republican budget spending bill, designed to balance the budget, called the 'Contract with America.'

As we all know, the budget has run in the red, for more than 20 years. That is since the time Reagan was in office, and reduced taxes.

The reason we got in to that situation, was the institution of welfare, and other programs that essentially paid out money to people, without getting anything back.

In order to fund these programs, money had to come from one of two sources. Either they removed money from the surplus money that they already had, or they increased taxes on everyone else, to make up the difference.

In either case, the result is the same, and that is, to get as many people as possible to get in to these programs, which would in turn, require more workers, and both of these would require more money, which would in turn, mean going more in to debt. These increasing expenditures, would have to be made up somehow, and that would mean raising taxes again, or putting it off until later, which is what they opted to do.

Essentially, the liberals, want to enslave as many of us to government as possible, as long as they are in power. This is why every program, every bill, every appointment to an office, that they have any choice in, is designed to do one thing, and that is to make more and more people, dependent on government.

This is why, when Republicans run against them, and the Democratic party, they do everything they possibly can, to scare people in to thinking the Republicans are the ones that the people should fear.

All you have to do, is look at the campaign ads that the Democrats run. They all have one theme, and that is attack the Republicans, using fear, as a club to make people vote against the Republican, without asking the Democrats what they plan on doing. It is well documented that if the Democrats really had to reveal what it was they really want to do, they would get defeated every time.

When Clinton ran for office, he played like he was a 'new breed' of Democrat. He was for smaller government, and no tax increases. Yet, as soon as he got in to office, he increased taxes by 500 billion dollars, the same amount Bush did, then got his wife Hillary to form a super secret committee to start a new governmental health care system, supposedly to cover everybody. But, no one could find out who was on the committee, or what they planned on doing. One hint came out, as Hillary started an assault on the pharmaceutical companies. Her aim was to literally, put them out of business, so there would be no competition from them, and then we would all have to come to government for our drug needs. Thank God, it didn't succeed.

These drug companies, have thousands of workers. If Hillary's plan had succeeded, then these workers would be out in the street, and would have to go on, government assistance and we would have to pay their welfare through higher taxes.

When Bill and Hillary took over, instead of merely replacing appointees of the White House travel office with their own, they had to smear their reputations claiming they had done something criminal, which later proved to have no merit.

Making charges against people that are conservatives and Republicans, to get you looking at them, so that they, the liberals, can keep up their dirty work is what the liberals are experts at.

To show you what the Democrats think about the black community, in this last election, black leaders, in the NAACP, literally had to beg the DNC (Democratic National Committee), for money to fund the campaigns of local black Democrats, to which the DNC, said 'no.'

The reason they said this, is obvious. Slaves don't need to be given anything. They are like horses. You train them for a while, and give them a treat, now and then. But, after a while, they are expected to do what they are called on to do, without a reward.

And your black leaders, got you out to vote. But you never hear them, call the DNC, racists, do you??

## DEFINING THE LIBERALS' TACTICS

As you may be wondering, am I saying that the entire Democratic party is racist?? The answer is, of course, No. After all, there are many good, God fearing, decent people that make up the Democratic party, that want what is right for themselves, and everyone else. That is both in the public and private sector.

However, the problem is not with the good and decent, God fearing people, but with a small group of people, that are called liberals. And unfortunately, they, and their supporters, control the Democratic party. And since they control it, that means, nothing gets done, if these liberals, say 'no' to it, in that party. Therefore, if any one in the party, disagrees with these liberals, then, any legislation that, that individual may be seeking to get passed, to help their constituents, will be held up, or voted down, so that person, might not be able to get re-elected, for another term. The reason being, that their constituents, will say their representative, has done nothing for them.

Now actually, the term 'liberal', has more to do with the mindset of these people, when it comes to one aspect of our everyday lives, and that is the economy.

As mentioned in the section on economics, our society runs on what is known as the free market system, that is rooted by 'supply and demand.'

In order for this system to function, which, by the way, is the best system in the world, it has to be supported by the government.

Everything that government does, will affect this system, either positively, or negatively. The chapter on economics, explains this in more detail, so I won't go over it again.

However, in our political system, we have two, distinct sides. Democrats, and Republicans. And each side has a dominant group. conservatives and liberals. However, since we are talking about the Democratic party, I will stick to liberals.

When we think of liberal, we are thinking about an over supply, an overflow, giving in an over abundance, freely, without restriction.

Therefore, since money, is the key to the survival of our way of life, and our economic system, then, whoever controls the money, quite literally, controls the nation.

That, my friends, translates in to one word. **'POWER!!!'**

Now, Willy Lynch, had absolute power over a group of people, his slaves. And why did he need slaves?? To create wealth. How was he going to create wealth, with a bunch of, excuse the expression, ignorant dumb, Africans?? By getting them to work for him, planting and harvesting crops to sell. Building buildings for him to live in, and to sell. And, if need be, getting them to produce offspring, and raising them up, to sell, also.

Now, to a liberal, the idea of being able to go where they want to go, and buy what they want to buy, and since money, translates in to power, then to them, money, is the predominate means to obtain that power.

And, money, sitting around, doing nothing, is not bringing them power. It, power, only comes in to being, when the money is being used, to obtain it, talking about power.

And since the Lynch philosophy, was geared to the acquisition, and maintaining power, then, spending money, was the key to achieve that end.

Look at it like this, the more money spent, the more power you have. That is, provided you are spending it wisely. This is one of the reasons that the slave owners in this nation, called on Willie Lynch. They wanted to know how to get a maximum return on their investment, so they could achieve their goals, of building wealth, and therefore, power.

Well, with that in mind, picture people like this, in control of government. What you have, is people that aren't afraid to spend money, in fact they thrive on spending money, for one purpose, and one purpose only, and that is, to achieve their ultimate goal, power.

Now, think about this. Most of our elected representatives, go in to office, with not that much wealth. They usually run up big debts, running for office even with donations from supporters. However, if they get elected, they now have access to an unlimited supply of money, which, if used right, will guarantee their success.

Now what do you think, a liberal is going to do, with this 'gold mine?' He, or she, is going to use it to build their own wealth, thereby building their own power base. Have you noticed how many of them, who once, could barely make ends meet, are now, millionaires??

This is not by accident, but design.

Now, the question is, where is this 'gold mine', and what is the source of it?? The answer is this. Go look in a mirror, and you will see the source.

It is you!!!

Everyday you wake up, and go to work. Every dollar you make. Every thing you buy. Every utility you use. Every movie you see. In fact, virtually everything you do, puts

more money in to this 'gold mine.'

What is this 'gold mine'??

It is the US treasury, and the source of its funds, are taxes. Yours and mine.

Every dollar that we pay in federal taxes, goes in to this treasury, and it is our elected representatives that use this money to provide funding for all of the government services, and programs.

They are the ones that pass budget proposals, and allot money to the programs. Which is good, as long as these programs are really needed.

However, there are a myriad of these programs, that have either outlived their usefulness, or are designed strictly as a means to, get the support of particular groups of people, and their agenda, all for one purpose, the acquisition of more power.

Liberals, will stop at nothing to obtain power, especially now, since they have lost a lot of that power to conservatives.

The congress, which the Democrats had control of, from 1952, through to 1994, is known as the legislative branch of government.

All legislation (laws, and bills, and funding for them), originate from this branch. Whatever proposals make it out of this branch, go to the senate for their approval. At some point, if approved, they go to the president, for his signature.

At that point, they become law, or official.

The only things that can defeat any of these proposals, is if a majority, I believe of the congress, or of the senate, approve it. If after that, the president vetoes it, then it must be supported by a 2/3 majority to override his veto.

Before 1994, the Democrats, had all of the power they needed to do just that, if they faced a veto, usually from a Republican president.

Well, in order to get the votes they need to pass a bill the first time, all Democrats, are urged, in no uncertain terms, to support the leadership. In some instances, a few may, for appearance, either to abstain from the vote, or vote against it.

If, however, the Republican president vetoes it, then all Democrats, have to vote along with the leadership to get the bill passed.

As I mentioned earlier, it is the leadership, that, effectively, enslave the moderates, in the party, to make them go along with what they, the liberals want.

Therefore, since the liberals control the party, then, the party, is, for all intents and purposes, just as guilty.

All we have to do, is look at everything that is wrong in our communities, and we will usually find some sort of legislation, passed by the liberals, at the root of the problem.

Legislation, that was used by them, to gain more power, to control more of our lives, in effect, making us slaves to them.

Now, among all of the people in this nation, that support the Democratic party, and are, the main support for them, is the black community. And why is that??? Because the black community thinks it needs them.

And why is that??

Because over the decades, the liberals have made sure that we never get in a position, where we don't need them.

Everything that is done by the liberals, is designed for that purpose.

And there are other ways, that are employed by them, that go unnoticed, but are just as effective, and that is indoctrination.

You see, there are groups, and institutions in our society, headed by them, that are their outreach in to our communities. After all, Willie Lynch had a full package of operations, to prepare us to be gullible to this type of lifestyle.

When he said, '**KEEP THE BODY TAKE THE MIND**', he was talking about indoctrination.

Now, we will look at some of these groups, and see just how they aid in the cause of the Willie Lynch liberals.

Let me say this from the offset, many of the rank and file of these groups, are totally oblivious to what the leadership is actually doing. They think they are supporting a worthy cause, which from the offset, looks like the right thing to do. But, that is only a deception, that the leadership is using, to keep the (troops) in line.

First, since education is the key to the success or failure of an individual's life, we will start with the public school system.

## **PUBLIC SCHOOL SYSTEM.**

We know that the key to keeping people as slaves, is to keep them ignorant. That was the major goal of the Lynch doctrine.

Lynch harped on not allowing the slaves to be able to understand your language. Neither were they to be allowed to learn to read.

Lynch said, **BEING A FOOL IS ONE OF THE BASIC INGREDIENTS OF AN INCIDENTS TO THE MAINTENANCE OF THE SLAVERY SYSTEM.** For example, if you told a slave that he must perform in getting out "our crops" and he knows the language well, he would know that "our crops" didn't mean "our crops" and the slavery system would break down, for he would relate on the basis of what "our crops" really meant. **SO YOU HAVE TO BE CAREFUL IN SETTING UP THE NEW LANGUAGE FOR THE SLAVES WOULD SOON BE IN YOUR HOUSE, TALKING TO YOU AS "MAN TO MAN" AND THAT IS DEATH TO OUR ECONOMIC SYSTEM.**

Well, things were going good, as long as the slaves, remained ignorant. But circumstances came about where they were slowly beginning to learn how to read and write, as well as understand. And that caused a problem for the slave owners.

Well, they turned to violence, lynching, burning churches, bombing schools, and other things to keep the slaves, in check. But progress, would not be stopped.

So, the liberals conceded to allowing blacks to learn, in schools. But the schools were segregated. And as a result, blacks were learning, but at a much slower pace, than whites. This is what the liberals set up.

The black schools, were severely lacking in materials, such as books, paper, pencils and other necessary items, used for the learning process.

Then, there were the teachers. Most of them were black, and they weren't that much more educated than the children they were teaching. If there were any white teachers in the school, they either withheld knowledge, or were uneducated, themselves.

Either way, segregation, was doing its job.

But, after a time, blacks began to realize the disparity in their schools, and the white schools, and started a movement to gain access to the white school system.

That didn't go over too well with the liberals. Well, progress moved on, and the white schools became desegregated.

Then, the liberals, came up with another plan, and that was, since the schools were now integrated, and it appeared that many whites, were supporting black education, then the liberals had to start doing things, that would render, the public education system, little more, than the 'black schools' condition, before the integration.

That meant, any one, whether black, or white, would now be rendered ignorant to the things that would help them to prosper.

Practically all of the liberals, that had children, took them out of the public school system, and put them in to private, or parochial schools, lest their own kids, would fall victim to their plan.

If we look at the public school system to day, and look at the condition of most of the kids that come out of it, you will see, we have a big problem.

Many of them, can't read or write well enough to fill out a simple employment application.

When it comes to math, forget it. They might be able to use a calculator, but, if it comes down to having to use their math skills, they are lost.

When it comes to science, and history, they have, what can best be described as a convoluted view on things like how this country was founded. Who is to blame for our problems today, and the best away to solve them. When it comes down to how the human race came in to being, they are taught that a theory, is actually, a fact. And being such, their values are all out of whack.

A good example of this, is the introduction of sex education in the public school system.

We were told that the reason for so many teen pregnancies in our teens, was the result of their ignorance about sex. So, over the objections of parents, and many church leaders, and others, it was implemented, presumably to curb the amount of these pregnancies.

What was the result???

Teen pregnancies, quadrupled, and continue to be a major problem, as young girls, had to drop out of schools, to raise their child, while the young man, either was too young to help support the child, or was completely absent, leaving the girl to raise the child alone.

And, when that happened, guess who foot the bill??

So the girl gets accustomed to welfare, and being on the government dole, raising a child, that, is more likely to end up on welfare as well, or turning to crime, because of no male roll model in their life, or a roll model that encourages them to pursue a life of crime.

It is a fact, that most of the criminals that are in the prison system, especially in the black community, are the products, of single family homes.

But, what are we told by our black leaders (overseers)??

We are told that, that is a cover-up, by the white, community, mainly the rich, and the Republicans. But, that is a lie.

Sure there is some crime in all communities, even in the rich, white communities, where there are 2 parents. But, it is nothing like what is happening in our community.

Then, with the increase of sexual activity, comes a monumental increase in the number of cases of VD, HIV and AIDS, among our young people. And with that, comes an increase in government spending, to help combat the effects of these diseases through treatment. All paid for by you and me.

Now, remember, this all started out, because some nuts, got together and came up with the idea of preventing teen pregnancy. But the question is, were they nuts, or was this part of a plan.

Well, all you have to do, is look at which party, benefits, from all of this misery, and dependence. The Democratic party, that's who. If it was not by design, it couldn't have worked out better, if they had planned it.

Given the Lynch doctrine, this could not be a coincidence.

Also, what they have been taught in the public school system about this nation's beginnings, and who is responsible for the mess we are in, is a clear sign of liberal indoctrination, all for the intent of getting the votes of those that they have indoctrinated with lies.

This indoctrination starts at a young age, and continues right through high school, and can now be found, in our institutions of higher learning, like colleges and universities.

How can they (the public school system) get away with this, you say??

Well, they have to have the support of liberals, in government, and other areas, like the courts. More about them, later.

However, since there is a law, making it mandatory for all kids of a particular age, to attend school, then, that forces parents to send their children to one of these public schools, unless they have the money to send them to private or parochial schools.

However, since it cost so much money to send them to these schools, while public education is paid for by the taxpayer, and since most families in the black community, were just barely making it, thanks again to Lynch liberals, the family had no alternative but to send their children to the public school system, to be, indoctrinated.

The liberals, don't like competition in education. That is why they fight against charter schools, which may be operated by someone other than the government, as well as against parochial schools, which they surely hate, because of the moral standards, and beliefs, they teach.

Maybe you didn't know this, but children in private, and parochial schools, read, write, do math and just about everything else, at a level of 1 to 2 years above their counterparts in

the public schools.

Parents don't know this information, so they are content with the public schools, somewhat, because they don't have any alternative, because of the cost involved.

The liberals want to make sure, that you are unable to afford sending your child to one of these institutions, where they might see the foolishness that the public school system passes off, for education.

Of course there is another alternative, and that is home schooling.

With all of the dissatisfaction with the public schools, and not being able to afford private, and parochial schooling, some parents are turning to home schooling.

This, really doesn't set well with liberals. because they don't have as much control over what a family teaches its children.

The agenda of the Lynch liberals, is to destroy the family, and its values, and they do that in their schools. But, if a child is not exposed to their doctrine, then that child becomes a threat to their control. So they make it real difficult for the family to do it, by placing all sorts of rules, and criteria for what should be taught, and how to certify that the child is being taught the right things, (in their eyes).

The way they try to control what children are taught, and the success they will have in their lives, is through aptitude tests.

Most of these tests, that are standardized, are geared to those that are in the public school system, and are indoctrinated by the liberal way of thinking. Therefore, on questions concerning history, some math, science, and even moral issues, a child, taught in parochial schools, and home schooled, will most likely fail on questions that conflict with what the liberals are trying to present.

Example. Children in public schools, are usually taught that man, evolved from other lower life forms. This is the theory of evolution.

In a parochial school, children are taught that man, and everything else was created by God.

Well, when a child looks at an aptitude test, and the question comes up, 'where did man come from?', then the correct answer for the child in the public schools, would be, from monkeys. And they would get that question right. However, to the child in the parochial school, there is no choice, saying God created everything, because, all references to God, are not allowed, in public education. So, what is the child to do?? They either have to answer the question the way the public schools want them to answer, and pass, or not answer the question, and fail.

Thus, the child, becomes oriented to the fact, that if you want to get anywhere in this

world, you have to go along with what it says is right. And as a result, family values, begin to fall by the wayside.

And, this is only a small part of it. Children that refuse to compromise on the values taught in the family, talking about Christian values, are constantly picked on, by other kids, and even a lot of grownups.

And the end result of this type of education, is that some of these people, wind up in the government as congresspeople, senators, and even presidents. And from there, their values are made in to law, and you can see the end result. No morals, at all. It is always, compromise, compromise, compromise.

Well, as more and more people begin to suffer, for the ignorance that is passed off as wisdom, the liberals, cash in on it, by coming up with programs and solutions, that require more and more of us to become dependent on them.

The liberals also, have set about re writing history, by digging up dirt on all of those individuals, and institutions, that have made this nation the greatest in the world.

Why??

So that they can get the people, to follow a new direction, that will lead us to destruction, with them, the liberals, as our leaders.

The liberals use fear, because they know it works when there is ignorance in the masses. The bible says, **‘the people are destroyed for a lack of knowledge’ (Hos 4:6)**. Liberals thrive when the people are ignorant. The same way Willy Lynch taught the slave owners to keep the slaves ignorant, so that they could maintain control over them. If they don't know any better, then they can't offer any resistance.

Another tactic taken from the Willy Lynch doctrine is envy.

## **THE INTRODUCTION OF ENVY**

**I HAVE OUTLINED A NUMBER OF DIFFERENCES AMONG THE SLAVES; AND I TAKE THESE DIFFERENCES AND MAKE THEM BIGGER. I USE FEAR, DISTRUST AND ENVY FOR CONTROL PURPOSES. I SHALL ASSURE YOU THAT DISTRUST IS STRONGER THAN TRUST AND ENVY STRONGER THAN ADULATION, RESPECT OR ADMIRATION.**

One emotion, that lands a lot of people in trouble is envy. Desiring to have what you see someone else with, or seeing them lose it.

If you will notice, Willy Lynch set about to break the bond that the slaves had with each other, when they got to this country. And one of the ways he did that, was to separate the slaves, by putting them in different categories, the express purpose of turning them against each other.

Now, to get them in that condition, different categories, got far better treatment, than others. Some got more food, and better care than others. Of course, as I mentioned earlier, if a slave had special skills, then it served the master, to take better care of them, because they were worth more money to him.

And, because of that, the unskilled slaves began to dislike those that were skilled, and being treated so much better than they were.

That is one of the reasons that the educated in our community, are despised by the uneducated. And that is one of the main reasons that liberals in this nation, have so much power with the poor.

Many times, liberals, in order to get the votes of the poor, will tell them, that it is the rich, that want to control them, by using their money to support the evil Republicans. In reality, it is the liberals, that are the real cause of their problems.

What they are doing, is what Lynch said. Taking what are otherwise, small differences, and blowing them all out of proportion, and planting the seeds of distrust, in the minds of everyone.

Now, think about this.

As long as you are poor, and uneducated, you are the friend of the liberals, and they will say they will punish the rich, to take the burden off of you, when it comes to taxes. They target the rich, the evil rich, for higher taxes, through legislation.

However, if, a situation occurred, where you become one of those few, that gets to become rich, then, unless you start giving money to the liberals, and support their raising, your taxes, to give money to those that don't want to work, then you, have become the enemy, as well.

You see, when people are poor, or even the middle class, you want to do what you can, to make the rich pay more and more taxes, so that you have less of a burden on yourself. It is the classic, rich versus the poor, or really, vice versa.

The reason for this, is you don't have a lot of money, so you want to make someone else pay, so that you can provide, what you feel is an adequate existence for you and your family. This, the part about providing an adequate living for yourself and your family, is honorable.

But, the problem is, in most instances, you are in the position you are in, because of a lack of education on your part. And most of that, is not due to the fact that you didn't attend school, but rather, what you weren't taught. The public school system, is not preparing those that graduate from it, for the 'real world.'

That is one of the reasons the liberals can get away with what they are doing, because most of the middle class, and the poor, can't see, let alone understand it.

Yet, if we look at, let's say, many of the favorite sports stars, and entertainers, that have gone from 'rags to riches', in a span of a few months, but have little, or no education, you will find out, that they have a problem managing their own money, and have to have a financial advisor, or accountant to handle their money for them. And, in too many instances, years later, after having made millions, or even hundreds of millions of dollars, they end up broke, and bankrupt, because of unscrupulous advisors that waste their money, and steal from them.

Whose fault is it?? The liberals.

They know, that if these people, can get rich, and keep their wealth, and know which side of the fence, the real prosperity is, then they will encourage others to follow in their footsteps. That is 'death' to the Lynch doctrine.

# **THE RELIGION OF POLITICS**

Politics, the religion of the Democratic party.

**W**hy, you might ask, do I call it a religion?? Because, it is a belief system, that the Democrats pattern their lives after. They eat, sleep, and breathe politics. And anything that a person believes in so much, that they pattern their lives after it, is, by definition, a religion.

Of course, today, some want to water it down, and call it a philosophy.

But, one needs to remember, Willy Lynch, the architect, of the Democratic party's, philosophy (or religion), got a lot of his 'philosophy', from, you guessed it, the bible. And if you will notice, most other religions, get their roots, from misinterpretations of bible scripture.

Well, Lynch, got his from the bible, and passed it on down the line, and the liberals picked up on it, and adopted it, as their 'religion.'

For the record, I would guess that some Republicans, make a religion out of politics as well. So then, we would have to look at just what it is that is motivating them, and the results of that 'philosophy.'

Politics, to me, seems to be a means, to an end, meaning that since they, the Democrats, want to get their power back, they will engage in any activity, that will give them an advantage to go to the people and say, 'this is what we are doing for you, and this is what the Republicans are doing against you!!!'

Now, if you will just think about this, you will see my point, as it pertains to our situation today.

First, the Republicans control all three branches of the federal government. That means, anything, good or bad, that happens in this nation, and to the black community, will, more than likely be credited to, or blamed on Bush, and the Republicans. Right??

Now, it stands to reason, that if things go good, for everybody, with the Republicans in control, then people will say, 'If it ain't broke, don't fix it. Let's keep things, just the way they are.'

That is not what the Democrats, can afford to let happen. Because that would mean they will never get their power back.

So, what do they do?? They make sure that nothing good, that the Republicans do, or try to do, ever comes to light. Their religion, won't let that happen. That is the last thing they can let happen.

So, what do they do??

They launch in to a campaign of blocking, filibustering, lying, and character assassinations, to get people to believe that these evil, mean spirited, Republicans, are out to destroy them, and that they need to get behind the Democrats, who will be their saviors.

If, as in the election of 2004, after all that mess they tried to blame on Bush, and the Republicans, they got re-elected, and the Democrats lost more seats, there is nothing for the Democrats to do but, double their efforts. And you know what that means??

The general public, and even their supporters, are in for trouble.

Why??

Because the Democrats feel that either their supporters didn't come out to support them, or, they supported, their enemy. And, whatever the case, everybody must suffer.

You see, the Democrat's religion says, the more people suffer, the more desperate they get. Therefore, since the Republicans are in power, then everybody has to be made to suffer, so that the Republicans can be blamed, and therefore be booted out, so that the Democrats, can return to power.

Some of you may say, 'that is hard to believe.'

Is it??

The liberals, that control the Democratic party, hate to see anyone prospering, period. That is, except for them. That is about as close to hell, as they can imagine.

Look at their actions down through the years, whenever there is a Republican president in office. There is nothing that he can do, that they agree with. Even when it came to our response to the 9/11 attacks.

Everyone was saying that his response and leadership, were the right thing to do. Well, that lasted for a few days, then the critics started coming out of the woodwork.

They started talking about the fact that he didn't act fast enough, when first told about the first plane hitting the **World Trade Center**. If you will remember, he was in a classroom, talking to a bunch of little children. After being told of the attack, he stayed in the classroom, for several minutes, before getting up and leaving.

They say he should have jumped up and run out, and did something. The questions is, 'what??'

One minute, five minutes, or ten minutes, what was he going to be able to do?

Then, he declared war on terrorism, and decided to take the fight, if there was going to be one, to their home turf. He wasn't going to allow them to wage war in our streets. He also implemented the **Department of Homeland Security**, to root out possible terrorists, that

may be looking for a way to attack us again.

Up pop the Democrats, with the accusations of racial profiling. 'How can you possibly root out terrorists, unless you target a certain race of people??' So, left up to them, he should have, I guess, done nothing, like his predecessor did.

Remember, under Clinton, we, and our interests were attacked, four times, including the first attack on the World Trade Center, and the attack on the USS Cole. Under Clinton, our response, was nothing. But, no one seems to remember that. The best way to invite people to keep on attacking you, is to do nothing.

However, since we took the offensive, there has not been another credible attack against us, on our soil.

This might sound excessively hard, but the liberal Democrats seem to want another attack on our soil, with hundreds, or maybe thousands of people injured or killed, just so they can say the Bush administration policies, have failed. They want Bush to fail so badly, they are willing to put all of us at risk, to get what they want.

This is the mindset of liberals. This is their religion. It's all or nothing. They will throw themselves, and us, on the alter of sacrifice, just to get back what they lost. Their power.

Politicians, usually are put in to office to represent the best interests of those that put them there. However, with the liberals, they are in office for one thing, and that is to represent what is in, their best interest.

So, since Lynch laid the ground work, in making slaves out of the black community, then that is just what they are going to do. And remember this, **'it is NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US.'**

The black community is important to the liberals, because for the most part, we are the ones that give the liberals the edge, as far as their support, because we don't know any better, thanks to their indoctrination, in the liberals' public school system.

The black community, according to the Lynch doctrine, must always, and I mean always be kept in a position of dependency on the Democratic party. They must not be allowed to gain any type of independence.

That is the religion of the Democratic party's leadership.

So, with that in mind, you can see, that even though we have blacks in high positions in the Democratic party, they are little more than token figureheads, or if you were, puppets, for the liberals, who are pulling all the strings.

These strings, expand from the chambers of the congress, and senate, through various support agencies, and the main one is the legal system.

# **POLITICS IN THE LEGAL SYSTEM**

The legal system, is in place supposedly for one purpose, and that is for our protection.

How it works, is first, we have to have laws in place for the purpose of having an orderly and safe society. Those that violate these laws, are put in the legal system, through police agencies, and sent to court to stand trial, for their disobedience.

It is the law, that sets the boundaries on our behavior. And just how does this law come in to being?? Through the process of passing legislation in to the law of the land.

To become a law, congress, starts with an idea, either given to it by the general public, to address a need, or by one of the politicians, themselves. In either case, it is written up and then presented to a small group of representatives, of both parties, for debate on the pros and cons of it. At the end of this debate, it is either killed, amended, or passed on as it is, to go before the whole body of the congress, for a full vote.

At the full vote, if a certain percentage of the congress, passes it, it then goes to the senate for their vote.

The senate has the option to accept it as it is, or amend it.

If they amend it, it then has to go back to congress for a final vote. The congress can either pass it, or reject it. But, if all goes well, when it has passed both the congress, and senate, it then goes to the president for his signature. He can either accept it, or reject (veto)it. If he vetoes it, then it has to go back to the congress and senate, for either more amending, or for a vote to override the president's veto. either way, if all goes well, it becomes a law of the land.

When that happens, it needs to be enforced, and that is where the police agencies, and the courts come in to play.

The police are out to make sure that the law is obeyed. If it is not, then those that violate it, are cited with a ticket, or put in jail.

From there, they either pay a fine, or go to court, depending on the violation.

The court is the place where either the accused, is either found guilty, or innocent. Then the decision is made on what the punishment should be. That could range from probation, fines, or all the way up to administering the death penalty, depending on the severity of the crime.

As you can see, the process of something becoming law, starts with an idea, then moves through all branches of government

Now, just what is it, that influences the vote of the members of the house and senate?? It is the people of this nation. The ones that put them in to office, in the first place.

Therefore the law, is representative of the majority of the people in this nation that want their representatives to make official policy, and laws, based on their desires..

Well, there are other groups of people in this nation, that see these laws, as a hindrance to their desires to achieve those things that are contrary to the majority.

Well, what they do, is try to influence certain politicians, with large sums of money, or some other means to pass laws that are favorable to them. And, many of these laws will only serve to harm the best interests of the general public. And any politician that did promote the views of these groups would be in trouble of not getting re-elected.

Now, while Republicans don't capitulate to these groups, the same thing can't be said for many of their Democratic counterparts, namely the liberals.

The liberals, have a totally different view of things. They want more and more power, and whatever it takes to get that power, they will do, even if it means selling out their constituents.

But, remember, if they openly support the wrong groups, they may be in jeopardy of losing their jobs. So, there is an alternative, and that is judges, being put on the benches of the major courts in this nation, that will give favorable rulings to these groups in cases that come before them, when they are trying to push their agenda, and run in to roadblocks, put in place by the majority.

You see, judges, fall in to two categories. The first group, are elected to their positions by the general public.

Then we have the other group. This group of judges are appointed to the bench of the major courts of this land, by the President, and that choice must be approved by the US senate.

The judges in the first group, have to be reelected after their particular term is expired. And in this case, their performance on the bench during their term, will determine if they deserve re-election, by their supporters. And these judges, are supposed to be non partisan, meaning they don't have any particular party affiliation.

Well, if they get reelected enough, and an opening occurs in one of the major courts, the president, may choose one of them to sit on that court bench. And while the judge is non partisan, when it gets to their approval for that seat, from the senate, partisan politics, get in to the act.

The liberals, want to put judges on the bench, which is usually a lifetime appointment, that will rule, in many instances, in favor of these radical groups, and their agenda, thus appeasing them, without having to face their (these senators') supporters when their reelection comes up, they can conveniently say, 'they did not betray their supporter trust.'

What I am talking about, for example is this.

In the case of abortion, many senators, that sit on the panel that will decide whether the selected judge, is fit for the bench, will say they are against abortion, personally, but at the same time, if a judge comes before them, they will be asked about their stance on abortion. And if the judge says they are against it, then these liberal senators will not approve him, or her. This means they are protecting abortion rights for women, without making it seem that they are giving in to pro choice groups.

Now, here is the problem.

First there is no law, guaranteeing a woman's right to abortion. None.

What there is, is a court decision, that is being held up as the law, when in effect, it is not a law, because it didn't go through the process of becoming a law.

If you will look at this fact, the majority of this nation, is against abortion, so the chance of it becoming a legitimate law, is slim at best. And these liberals know that. But they want the support of these women's groups, and their money so that they can pursue their power aspirations. So, what they do, is backdoor the system, and effectively allow the courts, to make the laws, rather than enforce them.

The courts are supposed to enforce the laws that are passed by congress, and the senate, and signed by the president, not make laws, and have the senate and congress support their decisions. Then on top of that, they have lifetime positions?? So they can continue to make law. But aren't these judges supposed to be non partisan?? Well, if you look at who it is that supported them in their election bids in the beginning, or look at their basic philosophy, you will see, that it may not be partisan, but it is their mindset, that is the problem.

This nation has many, what you would call activist judges, and in all instances, they are supported by liberals. What the liberals are engaging in, is deception. Claiming they don't support something, but claiming that the law, is the law. But, the deception is, they are the ones that make the laws, and they didn't make it, a law.

They have given up that task to the court system.

There are other, so-called laws, passed by these judges, along with other decisions that allow the minority in this country to gain through the back door, what they can't obtain through the democratic political process.

So, let's look at how politics, through the court system, has filtered down to all aspects of our lives.

Remember, politics is a religion, that is instituted in to law, not by the politicians, but the courts.

# POLITICS IN THE EDUCATIONAL SYSTEM

As it was mentioned earlier, education, is the key to the success of any group of people in this nation, or in the world, for that matter.

And it is what is being taught in the educational system, that is the key to the direction that those that pass through it will take, in their lives.

Now, basically, the public educational system is designed to teach every student how to be a productive member of our society.

And the way to do that, is to teach them 3 basic fundamental building blocks of any society. And those blocks are, reading, writing and arithmetic. Of course, in this country, speaking English, is also necessary.

So, here you have the basics of what the educational system is about. However, this is also where, the materials used to educate our children, fall prey to the ever reaching tentacles of politics, especially, liberal politics.

You see, just like Lynch designed it, the future generations are the key to the success of his plan for enslaving the black community, first, and then moving on to others, including whites.

It is done by having liberal minded teachers in classes, guiding the students in how to think about issues that are designed to keep them under control, and dependent on government. Text books are used, that carry subtle messages, on how society is getting worse, because of traditional family values, such as love of God and country, freedom for all, and love of family.

Now remember, Lynch's first order of business, was to destroy the family. **YOU MUST PITCH THE OLD BLACK Male vs. the YOUNG black Male, and the YOUNG black Male against the OLD black male. You must use the FEMALE vs. the MALE. And the MALE vs. the FEMALE. You've got the (N-WORD) WOMAN OUT FRONT AND THE (N-WORD) MAN BEHIND AND SCARED.**

Breaking up of the family, the foundation of any nations strength, was his first order of business.

Today, the liberals in this nation are using the same tactics, but through different means, to get the same results.

They are using the public school system to turn the children against the parents.

How??

By instilling in them values that run totally contrary to those of the family.

In just about every area of family relationships, children are taught, in most instances, that the values that their parents hold, are old, outdated, and potentially damaging to the progress of this nation.

But, they don't come right out and say it, but it is implied in the books they read, in the tests they take, and in the very mindset of the system.

Have you ever wondered why it is, that most of the time, students don't have books? Especially to bring home to study, even though money was supplied for the books?? And as it has been revealed time and time again, vast supplies of books are found, stored in warehouses, that should have been given to the students to learn from.

The reason for this is, these books either present values, that the liberals, don't want the kids to learn, or, they would be revealing to the parents, as to just what the liberals are teaching their children.

If most parents, twenty or so years ago, had been aware of what was passing for education in the public schools, they would have been outraged. But, with no books, and no homework, and lessons, basically printed on paper, that could be easily disposed of, after use, the parents had no clue to what was going on.

Then you had children being promoted to the next grades, even though they weren't ready for the promotions.

All of this, was designed by Lynch, to insure a perpetual state of ignorance in the black community, thus limiting their becoming self reliant, and having no need for the liberal masters.

Some of the things that liberals have put in to effect in the public schools are, for one, sex education.

What is this??

It is the brain child of a liberal group, called 'Planned Parenthood.'

This group, after reviewing the instances of teen pregnancy, and the drop out rate of teen girls because of it, pregnancy, due to their sexual activities, decided that there needed to be a means of teaching the girls about sex, and the need to protect themselves from getting pregnant. And for the boys, it was designed to show boys about the need to be responsible, and protect themselves from producing a baby.

Notice, there was no teaching on abstinence, which is what the parents taught the kids at home, for the most part.

'Planned Parenthood' said, the proper education would cut the instances of teen pregnancy, in half, at least.

So, having convinced the school boards in this nation of the need for it, it was

implemented, over the objections of parents, and religious leaders..

The end result is, the instances of teen pregnancies have more than quadrupled, and 'Planned Parenthood' has become a multimillion dollar a year organization.

Now, as was mentioned earlier, when a girl gets pregnant, she will usually have to drop out of school, if not during the pregnancy, certainly after, to take care of her child, if her parents can't do it. That means she is missing out on the opportunity, to be a fully educated member of society. And that being the case, she will most likely raise her children to be just as lacking in abilities to deal with society themselves. And what does this mean??

They will most likely, all, end up on welfare. And you know what that means. The liberals will have more people depending on them and their programs. That means they have more people to use their scare tactics on, when Republicans are running against them.

The thing about sex education, is one, there are no moral standards, for kids to follow. Then, on top of that, the kids, get conflicting messages. They have their parents telling them that sex, outside of marriage is wrong. Then they go to school, and are taught to use protection when having sex, to avoid pregnancy, and of course, VD.

Now, a child would have to wonder, why his parents tell him not to do something, then send him to a place that tells him, in so many words, it is OK, if you use protection. That means it is OK for him to do it.

Anyone with a lick of sense knows, that if you present kids with instruction in having, what is known as 'safe sex', then they are going to experiment. And usually those experiments, lead to them, not using not using it at all, in the heat of the moment, and the next thing you know, a child is pregnant, or has contracted VD or AIDS.

Another area politics plays a part in, in the school system, is the teaching of social issues. By that, I mean, teaching a child how to get along with everyone.

Once again, parents, have been overruled in this area, because in our society, we have all different types of people, from all different countries, and with different backgrounds. Then you couple that with all different sorts of behavior.

Now, parents have the right to tell their children who they can, and can't play with. This is only natural. After all, certain individuals, may have certain ideologies that conflict with the parents' values, and rather than deal with those differences, they just tell their kids to avoid associating too closely with them.

Well, depending on just who it is, that the kids are told to stay away from, or not to have too much contact with, brings in the school system, and their values.

Irrespective of what schools may say, there are times that children need to be protected from certain groups of people, based on just plain right, and wrong.

For the most part, I am referring to people with different religious beliefs, and sexual orientations.

Children, should be taught, that these people, are not necessarily bad people, that should be made fun of, but their actions, are not the type of thing, that they want their kids involved with, or in, at a time in their lives, where they don't know what their parent's values really mean.

Anyway, in school, they are taught, that there is absolutely nothing to be concerned about. They are told, that, their parents, have a problem. They, their parents, the schools say, are still living in the past, and need to face the fact that this is the 21st century.

The implication is, the schools know better than the parents.

Then we have the schools completely redefining what a family is, and what is considered as acceptable behavior in the family structure.

Many of the public schools in this nation, are mandated by the liberals, to use reading material, that essentially implies, that the idea of the traditional family, is out of touch with reality.

By this, I mean, there are books, and courses, that give children the idea that a family, need not be a man, married to a woman, with or without children.

What is being taught by them is that a family may be made up of two individuals of the same sex, living together. Marriage, is optional. The fact that marriage is optional, means that people, don't have to get married, to be a family. All they have to do, is live together.

Then we have the idea of corporal punishment, in other words, spanking, is a crime, and that children can have their parents put in jail for abusing them, by spanking.

Then, there is the case of young girls, getting pregnant, and having the schools, arrange for them to have an abortion, if they choose, without notifying the parents.

All of these things, and more, are instituted in the public school system, to tear down the foundation of this nation, and that is, the family, the way God designed it.

In just about all points, the Willy Lynch agenda is right on target, accomplishing just what Lynch said needed to be done. It is turning the children against the parents, and the parents against the children.

Now, one might ask, how did these courses, and materials, end up getting mandated for the public schools??

The answer is 'the new gods' (psychologists, psychiatrists, and sociologists).

# **POLITICS IN THE SOCIAL SCIENCES**

The social sciences, in this nation, and perhaps the world, are supposed to be a study of human behavior, to see what causes people to act the way they act, when their behavior is something that is less desirable, to the general public.

Why is this person, or this group of persons, acting the way they are, and what needs to be done to remedy the problem, so that society, can be at peace, and progress to a more better state.

All three of the sciences, dealing with human behavior, supposedly have as their goal, to find out what happened in a person's life to cause them to act the way they are, then prescribing a remedy, to cure the person.

But, cures are not the only goal that they have.

After the person is examined, and treated, the next step, is to institute programs, that will prevent, others from having the same problems.

Well, during some of these studies, it is determined that, according to them, the problem that an individual had, started back when they were children.

So, what they do, is start, doing studies on families, usually on a voluntary basis, at first. They ask a lot of questions about the habits of the family, which usually is answered by the parents. On occasion, they may get input from the children, but it is usually the grownups that are questioned.

However, in some instances, the children may be exposed to these studies, away from the parents, like in the schools, where the parents can't 'influence' what the child may say.

They figure, if the child is at home, and the parents are present, then the child may be intimidated by the parent(s), to say nothing, if something is actually going on, that is bad.

Now, depending on the age of the child, questions put to them, may be structured in a way that the child doesn't really understand the questions, and be led in to saying something that is not true.

Anyway, after what may be called, extensive studies, some of which may be legitimate, but many aren't, they draw up their conclusions, and recommend a certain course of action that needs to be taken, to deal with the problems.

Now, this action, has to be put in to place, as part of our standards of behavior, which means, put in to the process, of training everyone, along the guidelines that these people recommend. And the only way that can happen is through, you guessed it, government.

Well, in some instances, if these suggestions, are seen to be, what the majority of society

wants, because after all, we are a democracy, then the politicians, will move to vote them in to law.

If, on the other hand, these suggestions are something that the majority doesn't want, then the politicians, should reject it.

But, as I mentioned earlier, there are those in this society, that are a very small minority, that want these things implemented, because of a personal agenda, that will seek court action, to rule in their favor, and give legitimate backing to their cause, by ruling these suggestions, in to, 'law.'

When this happens, then these groups, can have the courts, force the schools, to implement what they see as their agenda, in to teaching our children, what they want.

The thing is, much of what these groups want implemented, are fairy tales at best, and downright lies at the worst. Just like everything else the Democrats, do, and implement. They use these lies and deceit, to get us to either accept them, or else do it behind our backs. Either way, they are destroying the future of this nation, our kids, just so they can get, and maintain power, and we are falling for it.

Why do you think every generation is getting worse than the one before it?? It is because these misguided kids, grow up believing lies, then when they become parents, they pass them on to their children. Then, they willingly send their kids to the same institutions that led them astray, to further destroy their minds, to fall in lock step with the Democratic agenda, when they grow up, and train their kids. Just the way Lynch programmed it. **KEEP THE BODY TAKE THE MIND!** In other words, break the will to resist. Pay little attention to the generation of original breaking, but **CONCENTRATE ON FUTURE GENERATION. If you break the FEMALE mother, she will BREAK the offspring** in its early years of development. His plan, and the Democrat's plan, is not the original generations, but the children. that is where their hopes and dreams of power, lie. And they don't care who they destroy to get what they want.

Therefore, programming our children with all sorts of foolishness, is just what the doctor ordered.

## **POLITICS IN SCIENCE**

Another area, that is just as influential, is the area of science.

It is, in large part, science, that has given us the advances in every area of our lives. It is these advances, made possible by God, that has made this nation, the greatest nation on the face of the earth.

Now, it is science, mixed with politics, that is, in effect tearing this nation down, because we are now, believing things that, for the most part are nothing more than speculation, as if they are fact. And this means, we are literally backtracking in time.

Science, has been a true Godsend to mankind, down through the centuries. There are all sorts of things, like medicines, inventions, materials, and such, that have moved man, from, if you will, from darkness, to light. Of course there are other things, that have shown the absolute bad side that science has brought to light, like weapons capable of killing thousands, or even millions, at one time, and procedures that bring in to light, what can happen when morality, is cast to the wayside, for the prize of glory, power, and money. Things like abortion, cloning, sex changing, stem cell research, and the like.

Then we have the drugs, that have enabled us to battle, and conquer diseases, that, heretofore, have wiped out millions of lives.

But, also, there have been the negative types. One of which, is the type that is used for the express purpose of battling, what is termed as hyperactivity, in our children. I'm talking about 'Ritalin', and others, that have been given to our children, to, supposedly help control children, who are supposedly, hyper active, and causing trouble in the classrooms of our schools.

Science, in this instance, has been used by the liberals, to help turn out a generation of children, that are hooked on legal drugs, that have slowed their minds and thinking down so much, that they literally are, for the most part, walking zombies, open to everything that the liberals put in front of them, without questioning it.

Science, is also used, to influence the actions of politicians when it comes to influencing legislation, that is used to control our lives, like, environmentalism, global warming, research in gene therapy, and many others.

This is why, or rather how, many subjects get in to our schools, and also how many of us have lost our jobs, and our family values.

The kids of the past generation, have grown up, and are supporting politicians that are putting legislation in place that is costing all of us, our lives.

The problem here, is, a lot of these scientists, are members of groups, that seek to gain favor with the liberals, by getting what they want, put in to law.

The scientists help the liberals by blaming adversity, on the Republicans, and the liberals, provide them with funding, and a platform, to advance their cause. It all comes down to one thing, and that is, a chance to get their power back.

A lot of the so-called research that they use, to influence legislation in their favor, is tainted, with bias. The research is geared to blaming everything on big business, which usually backs the Republicans. But, it is big business, that provides the jobs that many of us, in the black community, have. And we make good money. So, if legislation is passed, that penalizes big business, and puts them out of business, then, there go our jobs.

As I am writing this, I am thinking about hurricane 'Katrina', and the destruction it has left in its wake. And there are scientists, that are literally blaming big business, and the Republicans, including Bush, for causing the destruction, because of global warming.

The so called warming, is the result of supposed emissions from gas guzzling cars and trucks, not to mention SUV's and the like.

Remember the issue pertaining to 'freon' in auto air conditioners?? That contributed to a hole in the ozone layer. So cars and trucks were retooled to use a new type of refrigerant. And after all of that, it has been revealed that 'freon' was not as bad as it was made out to be.

So why did we move so fast to switch?? Science and fear.

There are multitudes of companies that have gone out of business, costing millions of jobs, in the black communities in this nation, all because of these tactics.

And, after all of this, it has been learned, that the global warming, that we are supposedly experiencing, is because of the activities of the sun. That's right, scientist's have discovered that the sun, due to solar activity, is burning brighter, which means it is transmitting more heat, which is filtering down to us, causing a rise in temperatures.

It was noted, that the surface of Mars, is also getting warmer. Previously recorded ice caps on Mars, are melting. And that is evidence that the solar system, is experiencing this 'warming.'

But, now, it is too late for a lot of people, that lost their jobs, their homes, and had their lives ruined, because politicians, judges, and certain groups, got together, and caused companies to go out of business, because of false information, and fear.

And, this is not the first time something like this has happened, and neither will it be the last.

Can any of you remember the case of the spotted owl, and old growth forests, in the 1980's and 90's??

Animal rights groups, and science, got together, and put forth the idea, that an owl, living

in trees, in Oregon, I believe, was endangered, because there were only a few of this particular type of bird, left, in this particular area. And that area, was property, owned by the government, that was used by lumber companies, to cut down trees, to make wood, and paper products, for building houses, and other things.

Well, when scientists, came forth and said, 'It is imperative that we do whatever is necessary to protect this bird from extinction.....', the response of a judge, and government decree, was to order all harvesting (cutting down) of the trees in that area, to protect this one bird, stopped.

The result was, the loss of thousands of jobs in that area, and the ripple effect of higher prices , which lowered demand, in all areas supplied by this lumber, thus costing even more jobs to be lost.

Now, the means that were used to make this owl appear to be nearing extinction, are questionable at the least, and downright lies, at the worst.

You see, what scientists did, was count all of this particular bird, within a certain area. Then, if the numbers were at a certain level, then the bird was considered, safe. However, if the level was low, then the bird would be put on the endangered species list, thus protecting it, and a certain area, from being tampered with. This area, could stretch for several miles in every direction.

So, here is what it boiled down to.

Let's say, you have a family of these birds, living in a tree. And let's say, that they hunt for food, within a range of 100 sq. miles. That means no one can tamper with 100 sq. miles of land, because they might destroy the food, of this family of birds.

Now, the more families in the area, and the more spread out they are, the larger the land mass they will cover, and that means, it can't be touched.

Now, here is where the questions arise. Is this bird, so fragile, that it can't move to other areas, to look for food, if its primary food source disappears?? The next thing is, how close to extinction is this bird.

You see, the same identical animal, can be classified in to many different sub categories, for many reasons, one of which is, what location is it in. Meaning, you can take two of any animal from the same brood, brothers or sisters, and put them in two different locations, then classify them as two different sub species. And that means, that even though there may be hundreds of this same brood, in existence, though in a different location, the one that is in an area by itself, will be categorized, as endangered.

It is much like us. When we move to other cities, or states, or even other nations, even though we are the same person, we then become citizens of these different locations, and are named differently. A person, living in Detroit, is a Detroiter. He can also be called a Michiganian, or Michigander. He is also an American. These are all of his subtitles. Now,

if he moves to Canada, and takes up residence there, He is still the same person, but he has become a Canadian. Now, he may have a multitude of family still in Detroit, and if he were to die, then his family is not extinct, they are just in another area.

Then we have the case of some animal right activists, being caught, moving birds, and some other small animals, in to these areas where logging companies, and others are, and planting them there, then running to a judge, telling them that this particular animal, is almost extinct, and getting the judge to issue restraining orders, to stop a company from doing business in that particular area.

So, a lot of this mess, is totally uncalled for, because the animals are not near extinction, but just that there may not be many of them in one area, but a lot of them in other areas.

Keep in mind, that liberals will use whatever weapon they can, to get their power back, and if they can't find anything, they will manufacture it, especially with the help of science.

## **POLITICS IN THE CHURCH**

Now this one, believe it or not, is, I know, the key to all of our problems. The reason I say this, is because, if man, does not, follow the dictates that God has set up for us to follow, be it black, white, native American or any one else, male or female, they will pay the price for their disobedience.

It makes no sense to think we can achieve any of our goals, as it pertains to being totally free, and prospering, if we are waging a war, if you will, against God. And that is exactly what the black community is doing, in their support of the Democratic party, today.

The bible says, in **Amos 3:3**, in the form of a question, **“Can two walk together, except they be agreed??”** What it is asking, is how can two or more people, reach the same goals, support the same institutions, or people, unless they agree to do so. And in that agreement, compromises are usually the top requirement, to get people to those goals.

In the case of politics, politicians, are chosen to represent those that will do what they can, to uphold and advance the goals of those that put them there. This is what their job is.

However, when the support of this politician comes from groups of people that have opposing views, then someone has to put what they want, on the back burner, so to speak, to get this person elected.

And it is a fact, that in just about every instance, Democrats get the support of Christians, because the Christian, is encouraged by the pastors of their churches, to compromise on their values, to get this politician elected, even though this same politician, holds views, and supports all sorts of policies that God, condemns.

As a result, these people, end up suffering all sorts of problems, because of the judgment of God, on their lives. And, when they ask their pastors about it, the pastor blames it on the Republicans.

This type of policy, is part and parcel of the Lynch plan to keep blacks, dependent on the liberals, by making sure, that those institutions that blacks believe in, are corrupted, so that they, the masses, will think they are doing what God wants, by supporting the party.

The leaders in the black community, which are preachers, are the lackeys, or overseers, for the liberals, to keep everyone in control. They are bought and paid for. The whole purpose of this is, as Lynch preached, **YOU MUST ALSO HAVE YOUR WHITE SERVANTS AND OVER- SEERS DISTRUST ALL BLACKS.**

But it is **NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US.**

Remember, overseers, were slaves, that were paid by the master, to keep an eye on the other slaves, to keep them in line, so the master could be about his business, and be able to sleep at night, knowing that his slaves were under control.

The last thing the master wants, is knowledgeable slaves, that would be able to become independent of him. That would be bad for his bottom line, power.

All over this nation, black preachers, that support the Democrats, tend to disassociate their support of this party, and what is happening to the black community, from God.

They have, in many instances been brainwashed by the 'separation of church and state' ideology.

They look at every situation that comes, in which, some good comes out of it, and they will readily give praise to God, and the Democratic party, if they, the party, are the ones that worked to get something done, that brought about this blessing. But, if anything goes wrong, then these same preachers, make it appear that the only reason things are going wrong, is the Republicans, and their agenda being at fault.

To these preachers, and I am talking about the majority of them, it never even crosses their minds, that God, is displeased with what is happening. Therefore, there is no repentance being preached from the pulpit, so their congregations, don't know that they are doing anything wrong, and therefore, pursued their goals even harder, not knowing they are, in reality, fighting against God.

And since most of the policies, of the Democratic party, are an offense to God, and the pastor, supports this party, even though the pastor may say, 'I disagree with certain parts of the Democrat's agenda,' if he supports them in any small way, he is supporting their entire agenda.

So, what makes a pastor essentially, 'sell out' to the Democrats?? The answer is, Money, power, influence, popularity, or something else, along this line.

These preachers, will, if confronted by other preachers about their apparent hypocrisy, will attack, and call them, 'the religious right.' They don't want to be shown that they are wrong. One reason being, that if they had to admit that they were wrong about certain stances that they have taken, regarding the Democratic party, they would lose their popularity in the community, and all of the 'perks' that go along with it.

## POLITICS IN CRIME

Now this is an area, that many of us tend to ignore the obvious signs facing us everyday, but believe me, it is there.

Earlier, I talked about how crime, is a cancer that can destroy even the most affluent communities, if left unchecked.

Well, even though we have law enforcement, and the courts, that are supposed to be here for our protection, the liberals have imposed their will on all of us, to keep us sinking in the mire of lawlessness.

In many courts, in this nation, especially in the black community, it would appear that the criminals seem to have an inside track to the legal system. There is more leniency and getting off on technicalities than you can shake a stick at.

In the black community, we have been educated to believe that, the system, as it pertains to us, is unfair. We are bombarded with the notion, that the system is racist. We are told that, even though we represent about 20% of the population, we represent about 40%, or more, of the prison population.

So what do we do??

We protest that we need more judges on the bench, that will be more ....., how shall I say it, lenient, or compassionate towards the plight of the poor black criminal, who couldn't help being the way they are, because of white racism in the system. This is what they are taught in school, so they grow up, hating the system.

Who is it that continually puts the statistics in front our faces everyday?? Liberals. All they do, is look for any thing, that will endear them to us, so that they will have our support come election time. And painting Republicans as the cause for our suffering.

Pick any major disaster, or problem that we encounter, like 9/11 terrorist attacks, a failing economy, or any of our other social problems, and the first ones to address the problem, is the Democratic party, led by the liberals. They do this, even before any facts come out about the problem.

They do this because they don't want to give any of us a chance to sit down and think about the problem. They know, that if we sit down and really think about the cause of our problems, we will come to the conclusion that it is them, the liberals that are the problem.

This holds true, even for crime.

As I mentioned, the liberals, jump up at any opportunity, and blame the Republicans. Yet, if we look at some of these facts, you will see, who the real blame goes to.

Remember, in the section on economics, I mentioned all of the factors that are used to

bolster it, and what specific factors can tear it down.

The main problem that nurtures crime, is poverty. People that don't have a means of support, like a job, tend to have to do without a lot of things. But, they will only go without, for so long. And, if they have a family to feed, then they will act a lot sooner, rather than let their families starve.

Now, jobs are getting more and more scarce, due to many factors. But one group of factors, that strictly can be laid at the foot of the Democratic party, and that is, their policies.

You see, Willy Lynch, said that distrust must be bred in all blacks. The family must be broken up. They must not trust each other. And, the best way to do that is to breed envy amongst them. Take the differences in each group, and magnify them. The slaves, must trust, only one group of people, and that is their masters, and their overseers.

Lynch said, **'I GUARANTEE EVERY ONE OF YOU THAT IF INSTALLED CORRECTLY IT WILL CONTROL THE SLAVES FOR AT LEAST 300 HUNDREDS YEARS. MY METHOD IS SIMPLE. ANY MEMBER OF YOUR FAMILY OR YOUR OVERSEER CAN USE IT. I HAVE OUTLINED A NUMBER OF DIFFERENCES AMONG THE SLAVES; AND I TAKE THESE DIFFERENCES AND MAKE THEM BIGGER. I USE FEAR, DISTRUST AND ENVY FOR CONTROL PURPOSES. THESE METHODS HAVE WORKED ON MY MODEST PLANTATION IN THE WEST INDIES AND IT WILL WORK THROUGHOUT THE SOUTH. TAKE THIS SIMPLE LITTLE LIST OF DIFFERENCES AND THINK ABOUT THEM. ON TOP OF MY LIST IS "AGE" BUT IT'S THERE ONLY BECAUSE IT STARTS WITH AN "A." THE SECOND IS "COLOR" OR SHADE, THERE IS INTELLIGENCE, SIZE, SEX, SIZES OF PLANTATIONS, STATUS ON PLANTATIONS, ATTITUDE OF OWNERS, WHETHER THE SLAVES LIVE IN THE VALLEY, ON A HILL, EAST, WEST, NORTH, SOUTH, HAVE FINE HAIR, COURSE HAIR, OR IS TALL OR SHORT. NOW THAT YOU HAVE A LIST OF DIFFERENCES, I SHALL GIVE YOU A OUTLINE OF ACTION, BUT BEFORE THAT, I SHALL ASSURE YOU THAT DISTRUST IS STRONGER THAN TRUST AND ENVY STRONGER THAN ADULATION, RESPECT OR ADMIRATION. THE BLACK SLAVES AFTER RECEIVING THIS INDOCTRINATION SHALL CARRY ON AND WILL BECOME SELF REFUELING AND SELF GENERATING FOR HUNDREDS OF YEARS, MAYBE THOUSANDS. DON'T FORGET YOU MUST PITCH THE OLD BLACK MALE VS. THE YOUNG BLACK MALE, AND THE YOUNG BLACK MALE AGAINST THE OLD BLACK MALE. YOU MUST USE THE DARK SKIN SLAVES VS. THE LIGHT SKIN SLAVES, AND THE LIGHT SKIN SLAVES VS. THE DARK SKIN SLAVES.**

**YOU MUST USE THE FEMALE VS. THE MALE. AND THE MALE VS. THE FEMALE. YOU MUST ALSO HAVE YOUR WHITE SERVANTS AND OVERSEERS DISTRUST ALL BLACKS.**

**BUT IT IS NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US.**

## **THEY MUST LOVE, RESPECT AND TRUST ONLY US. ‘**

Do you know what happens when people don't trust each other, and are envious of each other? You have the perfect breeding ground for crime.

If you will look at statistics, you will see something very obvious, and that is, the majority of crime in the black community, is, hands down, black on black. No other community in this nation has such a rate of crime against its own people like our community does.

And why is this?? It is by design. Not by the Republicans, but the liberal Democrats, that are following the Lynch agenda.

Now, if you couple the high crime rate, with the fact that, the legal system, is set up to punish offenders, and you look at the lawyers, usually liberals, and judges, usually liberals, and you watch how they, the lawyers especially, will do just about anything, to get their clients off, when they are charged with a crime, and the judge who gives a slap on the wrist, to the criminal, if he is found guilty, and you will see the cause of our problems.

Remember, we were taught in school that the system was unfair to blacks. So we grew up hating the system. And we set about to change it. We got educated blacks in law school. When they graduated, they became lawyers, Usually for the defense of criminals. Then, after a while, some of them, got promoted to judges.

Then we wanted to see fairness in the system.

Now, the fairness we wanted to see, is based on the fact, that supposedly, if a white criminal, and a black criminal, were charged with the same crime, the white one, would usually get a lighter sentence. This was the unfairness of the system. So we expected that judges that we put on the bench, would rectify the problem, by giving the black criminal a break.

Well, that break, usually meant that the offender, would get a light sentence, and get back out on the streets, quicker.

This person, then, would more than likely turn right back to doing what they did, that got them in trouble in the first place. And usually they did it, where?? In the black community.

It is very seldom that they ventured out in to the white community, to do their evil deeds. They stayed where they felt safe. They knew that if they got caught out there, they would be looking at some serious time.

We wanted them out of jail, so they are out, in our community, and we are falling victim to them. So, in effect, we are setting ourselves up, for destruction.

Now, think about this. What business, would want to come in to a community, where that

community has such a high crime rate, amongst themselves??

Very few.

What happens to those that try to come in and be supported by the community?? They will, more than likely, fall victim to crime.

But let's say, a business comes in, and hires some blacks from the community. Well, depending on the business (i.e. McDonalds, Burger King, KFC, an such), friends of the people working there, will usually show up, and sit around the place all day talking with their 'homey.' Then, customers, coming to the place, see these gangs of people hanging around the place, so they go somewhere else.

The owner of the business, tells the people to quit loitering around the place, because they are driving away his business, so they either vandalize the business, or rob it. And, if their friend, that had the job there, gets fired, because of them, then the business gets robbed, and the owner, may just get beaten up, or worse.

Why?? Because we have been bred, to have a mentality of violence, because everything is against us. The system isn't fair.

And remember this, It is more offensive to other blacks, if a black person is the owner, or manager of one of these businesses, and they don't want gangs of people loitering on their business premises, because we fall back in to that syndrome, of hating those that achieve, because of what happened in the slavery days, when the skilled, and educated, got better treatment, than the other slaves, breeding that envy in to us.

What the liberals want, is for us, to destroy each other. That way, they don't have to lift a finger to show their true colors. Why try to eradicate a community yourself, if you can get them to do it to themselves, for you?

And, that is just what we are doing, destroying ourselves, for the liberals.

If we want to have less crime in our community, then we need black judges, to be jsut as hard on the black criminal, as the white judges are. Remember, we are the ones that are suffering at the hands of our own, not the whites.

## POLITICS IN HISTORY

Another area that is critical to our well being, as a community, depends, in large part, on our past history, as well as the nation's.

It is said, by just about every black leader, as well as many white historians, that, 'If you don't know where you came from, then you can't know, where you are going!!'

Well, that history, has become a victim, of the politics of the Democratic party liberals.

Now, why, you might ask, did it become necessary for liberals to attack history???

It is because, history, the real history of this nation, and the Democratic party, reveals just who it is that continually did everything they could, to keep slavery, an active part of this nation's trade.

It also tells, how, from the offset, those that opposed slavery, fought and died to abolish it, as well as, who it was, that did it.

According to the Democratic party, and liberals, it is the Republican party, that is the enemy of the black community. If you don't think that this type of indoctrination would work, if it was a lie, then, look at the support the liberals get from the black community.

Over 90% of the black community, not only support the Democratic party, but do so with a passion, that could literally erupt in to violence, against those, especially in the black community, that oppose them

How did we get like this??

Well, let me say this. It would take a whole separate book, to go in to all of the details, that would give you the complete picture. And while I don't have the time to go in to all of it, in this book, thank God, I don't need to. There is a book, as mentioned earlier, by David Barton, called, '**Setting the Record Straight, American History in Black and White.**', that goes in to a lot of detail, with all of the references, including dates, that provides the true record of who did what, when, and for how long.

There is another book, by Wayne Perryman, called, '**Unfounded Loyalty**', that also addresses how a black minister, previously a staunch supporter of the Democratic party, as blacks were raised to be, came to the realization, that, when faced with the truth of David Barton's book, immediately realized, that, all of the support that he, and the black community, gave to the Democratic party, was totally unfounded. That means, there was no reason, whatsoever, for blacks to be supporting this party, in any way, let alone, in the numbers that it does, over 90%.

However, this is just what Willie Lynch designed for the slave owners back nearly 300 years ago, and what the Democratic party is following today.

Willie Lynch said that the slave owners should program the slaves in such a way, as to get them to trust in them, and them only. Well, if you look at the black community today, you will see that, that is just what has happened.

Well how did it happen??

As near as I can tell, through the public school system.

From the offset, to give you a brief history from the time that slavery was institutionalized, before there were any political parties, certain groups, that later formed the Democratic party, were pro-slavery.

To them, it was a way to, not only have a means to build the nation, but to gain wealth from it, as well.

At the same time, there was a group of people, that saw this as wrong, especially, according to the bible, and opposed it. This group of people, including free blacks, formed, the Republican party.

In every instance, where the Republican party, through the means of legislation, passed laws, abolishing slavery, the Democratic party, rejected it, when they got the chance. They even, in one instance, resorted to violence, in the capital, when in 1856, one white Republican US Senator, Charles Sumner, after giving a two day speech, denouncing slavery, was attacked, and beaten so badly, that he nearly died, and didn't fully recover, for over 3 years, by a white Democratic congressman, Preston Brooks.

What probably fueled this attack, was the fact that Sumner, a previous Democrat, that opposed slavery, was one of the founders of the Republican party.

After the attack, Preston Brooks, when it was time for his re election, easily won another term. (Reference from **'Setting the Record Straight, American History in Black and White. by David Barton**)

It was the Republican party, that first produced, the first black US congressman, Joseph Hayne Rainey, and the first black US senator, Rev. Hiram Bevels. The first black appointed to the US Supreme Court bar. (re: **'Setting the Record Straight, American History in Black and White.**)

Every position blacks hold today in government, was originally opened up, by the Republican party.

So, how is it, that today, we have turned 180 degrees, from the party that opened the doors of political power, to us, and bestowed our loyalty, on the party, that did everything it could, to stop us??

Let's look at the historical ruling by the Supreme Court that effectively outlawed segregated schools.

The belief that education should be, separate, but equal, was a joke. Whites had the better schools, the best supplies, and the more educated teachers. While the blacks, had all of the inferior factors.

Now, while most of this, took place in the south, there were some Northern Democrats, that supported the same thing.

Anyway, here is where the problem came in, when a Republican president, Eisenhower, and his successor, JFK, used troops, to force integration of the schools, after certain racist governors, and general population, tried blocking, the integration.

Well, while they gave in to the integration, most of their subjects, like the history of the nation, was geared in such a way, as to instill hate of the Republican party.

The racist schools, used a distorted view of the Republican party, to help keep the Democratic party, strong, in the south. In fact, that was easy to do, when you look at several factors.

The economy of the south, was tied to slavery. When it was abolished, it literally collapsed. While in the north, where many slaves came, to get away from slavery, the economy boomed, based in large part, on the auto industry.

So, what was taught to whites, in public schools in the south, was that the poverty that they were experiencing, was because the Republicans destroyed their economy, by abolishing slavery.

Now, naturally, if the whites, in the south, were poor, then you know what the condition of the black community, in those states, was.

So, when these poor whites, and the even poorer blacks, attending the schools, were told that their condition, was because of the Republicans, they took to it, and actively began to teach their children, to oppose the Republicans, because, they are responsible for poverty that they were experiencing. Nowhere was it taught, about the 'true history' of the parties, because the black community would not support the Democratic party.

Then, as blacks, indoctrinated by the Lynch liberals, moved from the south, to the north, and began to prosper, they, held to their support of Democrats. Then they passed the 'torch' on to their children, and that is why, today, we have the problems with the black community, supporting the Democratic party, that was, and still is their enemy. They don't know any better, because they don't know their history, the history of the Democratic party, and the history of the Republican party.

So, in other words, integrating the schools, was a good thing, on the one hand, for reading, writing, and math but it was a disaster, for blacks, in the south, when they lost their history. And therefore, are going down the wrong path.

That is why, everytime you hear the Democrats, railing against the Republican party, they

always refer to them as the party of the rich.

## **POLITICS IN NEWS MEDIA**

**I**t is said in the bible, **Hos 4:6 My people are destroyed for lack of knowledge: because thou hast rejected knowledge**, I will also reject thee, that thou shalt be no priest to me: seeing thou hast forgotten the law of thy God, I will also forget thy children. If you will look at the first part of that scripture, that is underlined, you will see, that because of ignorance, (i.e. not knowing something) can destroy you, as well as an entire nation of people.

This world, is full of things that are pleasant for all of us. But , there are also things in it, that pose danger to us, and we need to know what they are, and how to deal with them. And for that, we need information.

The source of this information, first of all, is the bible. God has given us, all of the information we need, through His Word, to guide us through this life, safely, and without fear of danger.

But, our society, rejects what the bible has to say for various reasons, which I will not go in to, in this book. But, let me say this, without His guidance, we are all in deep trouble, as the last part of that verse, shows us.

So, where do we get information, nowadays??

We get it from our educational system. That area has already been addressed, so we won't go in to that.

Today, as we have grown up, and go about our daily lives, the only source of information that most of us go by, is the information we get from, a certain segment of our population, known as the news media.

This segment of our society is so important, that it, has a special provision in the constitution, that protects it, and those that are part of it. It is known as 'freedom of the press.'

Information, the life blood of a nation. We all need information, in order to plan our lives, and protect them.

Without information, we are all subject to great peril.

Whether it has to do with weather, health issues like diseases, plagues, and such, crime, selecting leaders, product safety, scientific breakthroughs, economical, and the myriad of other things that come in to our lives, we need to know what is what, in order to take the proper course of action.

The job of the news media, is to provide us with that information. In fact, it is so important, that, part of that first amendment right, is the power to go to court if necessary, to get information, from those that would try to withhold it from us, or that may not be available to the rest of us.

There have been times in history, when that power, has been used to help us know what government, has been doing in secret, that was hazardous to us. Also it has been used to give us knowledge, as to what certain groups, businesses, or individuals may be doing that is detrimental to us.

You might say, the news media, is our protector.

Well, just as the framers of our constitution knew the value of the press, so did, and now do, those that want to use this same media, for their own benefit. namely our destruction.

You see, the news media, was designed, from the offset, to merely report the news. What ever happened, that was noteworthy, meaning of some importance, was to be reported to us.

Things are always happening, but those that the media felt was of public interest, would be presented to us, so that we could respond accordingly.

Well, what was deemed noteworthy, was essentially left up to, the news organization, itself.

Now naturally, if, say for instance, the president deemed something important, if the news media felt it wasn't important, and would decide, not to run it, he could order it to be run, and the media would have to run it. That is the power of his office.

And thankfully, to date, as far as I know, neither he, or any other president has had to force the news media to report, or air, what the president has to say.

However, with certain, of our society, there is a push, as I have mentioned earlier, to enslave us, by getting us to make wrong decisions about a lot of important issues. And as I have mentioned, this not only is designed to enslave the black community, but this entire nation, by, either withholding, perverting, or giving the wrong information.

Remember, the goal of the Willie Lynch liberals, is to get as much power over us, as they possibly can. And, that means they have to keep us ignorant to what is going on around us, and that means, keeping us uninformed.

So, what they want, knowing that we have a segment in our society, whose job it is to inform us, is for us to trust that segment so much, that, just like how we are supposed to trust God, we will give that same reverence to the media (it is **NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US**), which they, over the decades, have taken control of.

You see, over the past few decades, with all of the mergers, buy outs, closings, and takeovers, the news media, talking about radio, TV, and newspapers, the face of the news, has changed. It, in too many instances, has gone from, reporting news, to giving their opinions of the news. That means if they have to report something, they will do it, in such a way as to pervert what the actual circumstances really are, so as to get us to see things in the news, the way they want us to see them..

Take, for instance a traffic accident, witnessed by several people, involving a relative, or friend of one of the individuals involved in it.

It is no strange occurrence, that the friend or relative, when asked about the accident by the police, if that friend or relative is the one at fault, to alter the information, to make it seem like the other person was at fault, or that it was no one's fault, even though other witnesses, that are unbiased, will say clearly, it was the fault of the one person.

This is the thinking of the liberals, whose policies, have just about destroyed the moral fabric of this nation, have done to the Republicans, through the news media.

Look at the economy.

The records, show, that tax cuts, have been the single biggest cause for all of the economic boons that this nation has ever experienced.

Under Ronald Reagan, the largest increase, in median (middle class) income in history, occurred in 1986, under his tax cuts. And in 2004, the same thing started occurring after Bush's tax cuts were implemented. Today, the economy is booming, because of it. (All of this information, is available on the internet, by the way), from the government, itself.

However, if you look at the TV news, listen to liberal talk shows, or read the newspapers, you will find very little mention of any good coming from them. What you will find, is how some family, in some rural community, is starving, and they are homeless, with no income, and the picture you get is, 'taxcuts, don't work for the poor, but only help the rich get richer.'

If, the president, gives a speech, talking about how good, things are, the liberals will come on in their response, and talk about how bad they are.

The war in Iraq.

We are always hearing about how many of our people are being killed over there. The news media, everyday, reports on the number of deaths that have occurred the previous day. And you would think, the only ones getting killed is our men and women. The news media never says how many of the enemy are getting killed, because, 'that wouldn't be fair, bragging about how many of them are getting killed.' On average, the ratio is about 5 or more to every 1 of ours.

But, you aren't going to hear that, from the liberal media, in this nation.

When the liberal media, discovered that more and more of us were turning to the internet, for our information, they tried to get their liberal congressmen, and senators, to pass laws, limiting who was reporting, what, on the internet.

They wanted to stop the free flow of information to the country. After all, the internet, is not the press.

But, when that failed, then they try to combat it, by saying, that those writing the articles, were not legitimate reporters.

That's right, they aren't. By legitimate, they mean, 'not under the control of the liberals.'

As long as the liberals are out of power, anything the Republicans do, that is good, you will never hear about it, or rather the press won't admit it, unless they can find some drawbacks in it.

However, let the president, do the tiniest thing, that is questionable, and it will be front page news.

Do you think that all of these indictments of Bush appointees, and Republican leaders in Washington is an accident?? No??

The news media reports these things as if they are crimes, that the person is actually guilty of.

When in fact, there are, no legitimate charges. What is happening is, the liberals want to get their power back, so bad, that they will have people accuse them (Republican leaders), and judges indict them on charges of doing the exact same thing that they, the liberals do. Then, they will tie up, the judicial proceedings for months, so there is no trial, keeping the person under suspicion, until after the elections, then the charges will be dropped, for lack of evidence.

All of this, to keep Republicans under suspicion, so they might not get re elected. And what better way to do that, than through the news media.

To hear the liberals talk about it, the news media is controlled by, ultra conservatives. Yet, a true accounting of it is this. The conservative new media, accounts for about 10-15 percent of the entire market. That means 85-90 percent is controlled by liberals.

And mind you, it is the Republicans, that are improving the lives of all of us, especially the black community.

That is why the liberals want them defeated.

## SUMMARY

Well now, after this brief, and I do mean brief, in comparison to what could be written, you should be able to see, that, in just about every instance, the policies of the Democratic party, led by liberals, is poison to the black community, and this nation.

Yet, at the same time, the black community overwhelmingly, supports them, and their policies.

When you look at this type of situation, the only thing that comes to mind is, the black community must be incredibly stupid, or can't see what is going on.

That is what this book is for, to show you what is happening, by giving you the evidence, so that you can no longer claim ignorance.

The question now, is, what are you going to do about it??

Some of you might say, that it is just speculation, on my part. Well, look at these facts, to see just how much is speculation.

Despite the Democrat's claims of being the number one supporter of the black community, we remain at the lower end of the economic spectrum in this nation.

We have the highest rates of unemployment, crime, prison occupancy, instances of death to every known critical disease (i.e. high blood pressure, stroke, heart disease, sugar diabetes, cancer, and such) where others recover, rate of poverty, drop out rates from public schools, infant mortality, and more.

Most of this, is due, not to the lack of availability of what is needed to help us, but, because of our ignorance of that availability, or our stubbornness, which translates in to our refusing to believe the truth.

Detroit, Michigan, the first major city, to be almost, totally run by African Americans, at over 80% of the population, could be considered the model for all of black America, of what blacks can do when they get control of a major city, is, the poorest city, in the nation. This despite the fact that all of the other major cities in this nation, are experiencing an economic boom. The highest rate of unemployment, in the nation. Despite the steady increase of jobs, in all other major American cities.

For every statistic that is bad, Detroit, ranks above the national average. And Detroit, is the highest, or rather strongest supporter of the Democratic party.

What is wrong with this picture??

And if you trace our problems back in time, and look at how we got to be where we are

today, you will see, that it is the policies of the liberals in this party, not just the politicians, but judges, and other groups, with liberal leaders, not the Republicans, that are the cause.

Yet, our, or rather, your support of this party, is such, that, without it, the party, especially the liberals, would totally collapse.

No other group in this nation, puts so much loyalty, in to a party as the black community does. Especially when that party is, for all intents and purposes, its enemy.

Let me reiterate this point, from Lynch, **'it is NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US.**

Willie Lynch, talked about deception, being a key component in to keeping blacks, believing that the slave owner was their friend, so much so, that the slave would literally risk his life to save the master's house, even though the master wouldn't let him in it.

The slave, thought the master and him were friends, and even commented how the house, was, in the slave's mind, 'our house.'

The Democratic party, in the mind of the black community, is their party. Yet, it has always been the Republicans, that have advanced blacks in cabinet positions. George Bush, has put more blacks in to high profile positions, than any other presidents, especially Bill Clinton, and Jimmy Carter.

This is the same scenario, that is behind our blind support of this party. Without our support, it would literally crumble, and is on the verge of doing just that.

Yet, when the call comes out for our help, to save 'massa's house', all of our leaders, 'massa's' overseers, run out to 'rally the troops', to save them.

Let me remind you of something.

The Democratic party, today, is nothing like the party it was under JFK.

In fact, as mentioned earlier in the section about JFK, its (the Democratic party's) turning point, came, after JFK was assassinated, and Lyndon Johnson took over. Johnson proved to be the father, if you will of the modern liberal wing of this party. He was the architect, of the 'new deal.'

It is, as I mentioned then, my speculation, that JFK had to be assassinated, because he was too popular with the black community, and was on the verge of leading the black community, away from the goals of the Lynch faction of the party. And they couldn't allow that to happen, if they wanted to keep blacks in their place.

The same thing can be said about Martin Luther King's assassination, years later.

Both men, espoused views, that posed a direct threat to the liberals agenda, and therefore, they had to be silenced.

And today, the Democratic party, always invokes the names of both men, and their love and honor for them, to keep us in line, while at the same time, totally going against everything that these men stood for.

The effects of the Lynch doctrine, invade, every part of our lives. From politicians, entertainment, laws, legal system, healthcare, economics, history, family relationships, and whatever else you can think of, including our churches. Nothing is left unscathed.

If anything is good for the black community, then the liberals will try to destroy it, or at best, corrupt it, so that they can use it for their benefit.

If you will take an honest, unbiased view at the consistent, persecution of Republicans, including Bush, and the trumped up charges against the leaders in this party, with indictments on things that are not even against the law, you will see a concerted effort by the liberals to do one thing, and that is, to get their power back.

And, until they do, they will block any legislation from Republicans, or corrupt it, if they see it will make things better for the black community.

To put it straight and to the point, everyone must be made to suffer, until they, the liberals, get what they want, and that is, their power back.

The problem is, what they want, is to keep us, under their foot. So, what we are fighting for, then, is to help give them the power, to do just that.

That is why I say, we have been, 'Had, Hoodwinked, Bamboozled, Took, Snookered.'

We claim, that we are so intelligent, and evidently the liberals believe that, hence the deception, lies, use of fear, bribes, and anything else that they use against us.

Barack Obama, the first black Senator, in the history of the Democratic party, (the Republican party's first black Senator, Rev. Hiram Rhodes Revels was elected back in 1870, whom the Democratic party, back then, tried to have his election, voided), was out campaigning for his fellow Democratic senator, Robert Byrd, and raised nearly \$700,000 for his campaign.

You might say, so what??

Well, Robert Byrd, is a former grand wizard of the Ku Klux Klan.

Think about this.

If a Republican, let alone, a black Republican, campaigned for a former member of the KKK, no matter how long ago they were part of it, the black community would go

ballistic. But, a black Democrat, can get blacks, as well as whites to support this man, and nothing is said.

Talk about 'saving massa's house', this is the type of mentality, our black leadership has.

You, or rather they say, when it concerns a Republican, a tiger can't change its stripes, meaning, 'once a racist, always a racist.' But when it's a Democrat, all of a sudden, silence.

We have the power, to change our station in this nation, if we will use it wisely. And the first step is to destroy the liberal's hold on this party.

And the only way to do that, is to completely reject it, and its policies.

Every politician, that supports the agenda of the Lynch liberals, in this party, needs to be defeated at the ballot box.

The liberals don't want you to know, that the voting records of each of your representatives, is available on the internet for viewing. ([www.senate.gov](http://www.senate.gov), or, [www.vote-smart.org](http://www.vote-smart.org)). All you have to do, essentially, is find your representative, (senator, or congressperson), and look up their voting record on specific legislation, as well as a description of that legislation.

Many times, liberals, will lie about what a piece of legislation is really about, just to keep us ignorant of the truth. They do this, because they know, that most of the black community is too lazy to go to the library and look up this information, because we rely on them, to tell us what is what.

And that is, the dumbest thing anyone can do, when their health and welfare is at stake.

But, the liberals, have us trained, just the way Lynch wanted it, **'it is NECESSARY THAT YOUR SLAVES TRUST AND DEPEND ON US. THEY MUST LOVE, RESPECT AND TRUST ONLY US.'**

Now, because of the availability of computers, and all of the information that is available on it, all you have to do, is get on a computer, and see just what your representative is doing, either against you or for you.

Of course you have to be computer literate, which, unfortunately, most blacks, are not. We would rather be knowledgeable about a lot of foolishness, like 'rappers, movies, partying, gambling, where to get high, how to get on the government dole, and other nonsense.

When talking to a lot of blacks, I will ask them, 'Do you have a computer??' And most of them tell me 'no.' Then there are others, that will say, they have one, but it is for their kids. But, they, themselves, don't know a thing about it.

Don't you know, the computer, is the best thing, a lazy person can have?? You can do just about anything on the computer, when it comes to getting information, that you can, by going to a library, and get it quicker? You don't have to go out of the house. Not only that, but you can print the information, right there in your house.

But, the liberals, through their public school system, are keeping us so ignorant, that if we have a computer, and access the information, and read it, we can't understand it. It is all part of the grand scheme of things that the liberals have set up.

Another thing that is very important for you to do, is to listen to what both sides have to say about a piece of legislation, and ask questions of both sides. In far too many instances, blacks tend to hear both sides, then ask a Democrat, their opinion on the issue, without asking the other side.

This is where we open ourselves to deceit. For, the Democrat, is going to only give you their view of the legislation. And if it is from the Republican side of the aisle, they will corrupt the opinion, to make it look bad for the black community, no matter how good it really is. If it is their own legislation, they will make it seem like a good thing for the black community, no matter how bad it is.

This is what they do.

How else do you explain tax cuts, across the board (i.e. for everybody), being bad for the poor?? Read the section on economics.

One of the reasons for the decline of power for the Democrats, is that many people that usually supported them, are accessing the internet, and asking questions of the Republicans, and finding out that they, the Democrats, have been lying to them. In other words, they are informed. So they switched to supporting the Republicans.

Yet, despite all of the availability, of information, the black community is still wallowing around in a fog of ignorance.

You know, the bible says, **'The people are destroyed, for a lack of knowledge. (Hos 4:6)'**

We are the last to know anything, just like Lynch wants it. The black community, is at the bottom of the barrel.

If you will notice, blacks, and other races, come here from other countries, even Africa, and know more than the blacks in this nation, even though we are the ones, in greatest country, in the world, being educated by what is supposed to be the best educational system in the world..

It would appear that we should have a higher education level, than all of the other countries, especially third world countries. Yet, they are getting all of the good jobs, and advancing at a far greater pace than we are.

Not to speak bad about them, but have you noticed how Arab Americans, can come here nearly penniless, and in a few years, they own party stores, markets, gas stations, and fine houses?

How is that??

Because, they, as a people, all work together, to help each other out, so they all can get ahead. They are loyal to each other.

There is no such loyalty, in black America.

We are too busy being envious of each other, and trying to destroy each other, to work together. Just like Lynch bred in to the slaves on his plantation, and the way he taught the slave owners, which passed it on down to the liberals, today. **I HAVE A FULL PROOF METHOD FOR CONTROLLING YOUR BLACK SLAVES.** I guarantee every one of you that if installed **correctly IT WILL CONTROL THE SLAVES FOR AT LEAST 300 HUNDREDS YEARS.** My method is simple. Any member of your family or your overseer can use it. **I HAVE OUTLINED A NUMBER OF DIFFERENCES AMONG THE SLAVES; AND I TAKE THESE DIFFERENCES AND MAKE THEM BIGGER. I USE FEAR, DISTRUST AND ENVY FOR CONTROL PURPOSES.**

The liberals are following it to the letter, and we, the black community, are suffering for it. And, not only us, but the entire nation, because this type of doctrine, has spread to every race, including the whites.

The liberals don't care. The only thing they care about, is power. And until they get it back, we all will have to suffer.

But guess what??

If they do get it back, then, we will still be in the same boat.

Why??

Because they don't want to take the chance of losing their control over us again. That means it will be business as usual. Keeping everyone, ignorant.

Many will say, that the Republican party, is the party of the rich, big corporations, and whites. They say, or rather ask, why aren't there any blacks in this party. The answer is simple, if a black person runs as a Republican, they are ostracized.

The black community, has been programmed to reject any person. black or white, that is a Republican. Then, when the black community complains about how the Republicans don't do anything for them, just look at how much the black community rejects this party.

If you don't support someone, and actually try to tear them down, then don't expect them

to show much favor to you, when you need something.

Remember, **Mat 7:12 Therefore all things whatsoever ye would that men should do to you, do ye even so to them: for this is the law and the prophets.**

Essentially, the black community, has no one to blame for their condition, but their own leaders.

If the leaders have been had, hoodwinked and bamboozled, then what do you think will happen to those that they lead???

The black community needs to wake up, and start doing something, if they ever hope to get anywhere. And the best place to start, is with its leaders. Either we start holding them up to the fire, like they hold the Republicans to the fire, or else be content to be the slaves of the Democratic party.

More blacks, need to start running for office, as Republicans, or at the least independents, and more of the black community needs to support them.

If this happens, you will see the Democrats, start doing things, within their party, that will let the liberals know, we are tired of their nonsense, and we are not going to accept it anymore.

Only a clear message of rejection of the Lynch doctrine, will get them to change their ways, or else, vote them out of office.

The choice, is totally up to you, black America.
